To Our Valued Customers

MVAP Medical Supplies, Inc. is pleased to present its 2022 Sleep Supplies and EEG Catalog. We continue to expand our product line, offering many new, groundbreaking products this year. We are your one-stop-shop for Sleep, Respiratory, and Patient Care Supplies. As always, we continue to offer the latest products at very competitive prices, all supported by our in-house Customer Service and Technical Support teams.

For 2022, we have again highlighted numerous items in this catalog that our sister company, Patient Sleep Supplies, can provide directly to your patients. We invite you to direct your customers to **PatientSleepSupplies.com** for the same great products and services but directed at the consumer market.

Our Primary Goal is Your Satisfaction!

MVAP continues to lead the industry in bringing you the most current products as well as researching new entries as they emerge on the market.

We appreciate you, our valued customer, and encourage you to contact us with your comments or suggestions. We are here to assist you in whatever way possible!

Delivery/Shipping

We will process and ship your order within one business day unless otherwise instructed. Occasionally, due to demand, we may not have your entire order in stock. If this happens we will ship what is in stock and ship the back-ordered product as soon as it arrives unless otherwise instructed. Special delivery is available at an additional cost. Please specify at the time of ordering. All shipping charges will be added to your invoice.

Payment Terms

Our company offers net 30 payment terms, upon your approved credit application. All balances over 30 days will be charged interest of 1.5 % per month.

We also accept: MasterCard, Visa and American Express

Liability

MVAP Medical Supplies, Inc. is not responsible for injury, infection, or other damage resulting from the use of the products it supplies. Sterilization (where applicable), use, and application of products are the responsibility of the user. Federal law in the United States restricts the sale, distribution, or use of these products to, by, or on the order of a licensed medical practitioner.

Return Policy

Please call for any returns to get a Return Merchandise Authorization (RMA) number. Toll Free 877-735-6827.

PRO-TECH® EZRIP™ AND ZRIP™ KITS

High Quality with a Minimal Investment

- An easy and beneficial solution for implementing Respiratory Inductance Plethysmography (RIP) into the sleep lab
- Low initial investment
- Minimize bedside module congestion
- Integrates with other RIP systems

1 Year Warranty on Belts and Modules

1099514	ezRIP Adult Kit (Includes 1094094, ABD Wireset, 1094095, THX Wireset, and 2 each 1076322 Adult DuraBelt)	\$795.00
1099517	ezRIP Adult Kit, 16"/20" wireset with Embla connector (Includes: 1094920 (Abd module), 1094921 (Thx module), 2 each 1076322 (Adult DuraBelt))	\$795.00
1076329	zRIP Adult Kit (Includes zRIP Driver Module, 2 each zRIP Wiresets, and 2 each 1076322 Adult DuraBelt)	\$1,075.00
1076330	zRIP Pediatric Kit (Includes zRIP Driver Module, 2 each zRIP Wiresets, and 2 each 1075970 Pediatric DuraBelt)	\$1,075.00
1076333	zRIP Adult Kit, Alice 5	\$1,075.00
1076334	zRIP Pediatric Kit, Alice 5	\$1,075.00
1076336	zRIP Adult Sum RT Kit	\$1,200.00
1076337	zRIP Pediatric Sum RT Kit	\$1,200.00
1078925	zRIP Adult Kit, Alice 6	\$563.60
1078926	zRIP Pediatric Kit, Alice 6 (2 Belts, 2 Wiresets)	\$563.60
1075969	zRIP Adult Kit, Alice PDx	\$563.60

PRO-TECH® ZRIP DURABELTS

1 Year Warranty on Belts

1073622	zRIP DuraBelt, Adult (24" to 75")	\$235.00
1075973	zRIP DuraBelt, Adult Large (45" to 123")	\$245.00
1075970	zRIP DuraBelt, Pediatric (16" to 42")	\$235.00

BRAEBON Q-RIP™

BRAEBON'S new Q-RIP effort system meets the needs of the ever changing field of polysomnography. The one-size-fits-all belt uses the X-Y axis for inductance measurement. The interface unit has a built-in sum output, so it will never need upgrading, and the unit is smart enough to turn itself off after 10 hours. It includes both low gain (AC) and high gain (DC) outputs.

9 Month Warranty

0570	Q-RIP™ Starter Kit Includes two 0572 Belts plus one 0571 Interface. Alice 5® Compatible	\$599.00
0571	Q-RIP™ Interface with SUM	\$495.00
0572	Q-RIP™ One-Size-Fits-Most Adult Belt, Adjustable 24 - 48" - Alice 6 Compatible	\$199.00
0572L	Q-RIP™ Extra Large Belt, Adjustable 48 - 72" - Alice 6 Compatible	\$199.00
0572PED	Q-RIP™ Pediatric Belt, Adjustable 12 - 24" - Alice 6 Compatible	\$199.00
0353	18" (45 cm) Dual 1mm (keyhole) connector to 1/8" (3.5 mm) male phone connector	\$39.00
0354	18" (45 cm) Dual 1mm (keyhole) connector to 1/8" (3.5 mm) female phone connector	\$39.00
0573	Q-RIP™ Embla® Adapter Cable, 84"	\$39.00
0574	Q-RIP™ Embla® Adapter Cable, 18"	\$39.00
0592	Q-RIP™ 12" Keyhole Connector	\$35.00

PRO-TECH® ZRIP MODULES, WIRESETS, AND ACCESSORIES

1 Year Warranty on Modules

6 Month Warranty on Wiresets

1732	zRIP Driver Module	\$645.00
1734	zRIP Driver Module, Alice 3	\$725.00
1735	zRIP Driver Module, Alice 4	\$725.00
1736	zRIP Driver Module, Alice 5	\$645.00
1753	zRIP Driver Module, Real Time Sum	\$795.00
1094094	ezRIP Module/Wireset, Abdomen, 84", 1.5mm	\$225.00
1094096	ezRIP Module/Wireset, Thorax, 84", 1.5mm	\$225.00
1094093	ezRIP Module/Wireset, Abdomen, 84", Embla connector	\$225.00
1094920	ezRIP Module/Wireset, Abdomen, 20", Embla connector	\$225.00
1094095	ezRIP Module/Wireset, Thorax, 84", Embla connector	\$225.00
1094921	ezRIP Module/Wireset, Thorax, 16", Embla connector	\$225.00
1094097	ezRIP module/Wireset Stardust II	\$225.00

INDUCTIVE BELTS (RIP)

SLEEPSENSE® REUSABLE INDUCTIVE BELTS

Introducing, the NEW SleepSense® Reusable Inductive Effort Belt. The SleepSense® Reusable Effort Belt is a long lasting effort sensing solution. This one-size-fits-all, fully adjustable Inductive Belt is equipped with a buckle closure and can be used with SleepSense® Interface Cables.

1 Year Warranty

SLP9010		\$220.00
SLP9010NX	Nox/T3 Systems Compatible	\$220.00

SLEEPSENSE® INDUCTIVE PLETHYSMOGRAPHY BELTS - BLUE

The same RIP/Inductive technology at the same cost effective price, now offered in blue! Available in sizes infant - XXL.

Latex Free 60 Day Warranty

SLP9003-L40	Small (2 per Pack) - White	\$80.00
SLP9003-L60	Medium (2 per Pack) - Red	\$88.00
SLP9003-L90	Large (2 per Pack) - Blue	\$95.00
SLP9003-L120	X - Large (2 per Pack) - Black	\$105.00
SLP9003-L150	XX - Large (2 per Pack) - Yellow	\$115.00

SLEEPSENSE® INDUCTIVE PLETHYSMOGRAPHY BELTS

These bands are made of high quality, soft and flexible material. The special attachment allows each band to fit a wide variety of sizes, which improves patient comfort and minimizes sliding or shifting during the night. System specific interface cables allow a direct replacement of Piezo sensors or easy connection with any system that accepts inductive sensors. Interface cable required.

Latex Free 60 Day Warranty

SLP9002S	Neo-Natal Infant Band, 2 per Pack	\$75.00
SLP9002-L40	Small Effort Band, (15.74") 2 per Pack (Grey)	\$80.00
SLP9002-L60	Medium Effort Band, (23.62") 2 per Pack (Red)	\$88.00
SLP9002-L90	Large Effort Band, (35.42") 2 per Pack (Blue)	\$95.00
SLP9002-L120	Extra Large Effort Band, (47.23") 2 per Pack (Black)	\$105.00
SLP9002-L150	Double XL Effort Band, (59") 2 per Pack (Yellow)	\$115.00

SLEEPSENSE® RIP INTERFACE CABLES

Sold individually 1 Year Warranty

SLP9101	Abdomen Interface Cable, 1.5mm Connector	\$220.00
SLP9102	Chest Interface Cable, 1.5mm Connector	\$220.00
SLP9101A5	Abdomen Interface Cable, Alice 5® Connector	\$230.00
SLP9102A5	Chest Interface Cable, Alice 5® Connector	\$230.00
SLP9153A6	Universal RIP Interface Cable - Alice 6®	\$85.00
SLP9141	RIP Interface Cable 1.5 ft - Abdomen for Embla systems	\$80.00
SLP9151	RIP Interface Cable 8 ft - Abdomen for Embla systems	\$110.00
SLP9142	RIP Interface Cable 1.5 ft - Chest for Embla systems	\$80.00
SLP9152	RIP Interface Cable 8 ft - Chest for Embla systems	\$110.00
SLP-PS057	Set of 2 - Male 1.5mm Connectors Inductive Interface Adapters	\$17.50

SLEEPSENSE® RIP™/INDUCTIVE KITS

With an initial setup cost of nearly half the other RIP/Inductive Systems available, it's easy to see why so many labs have chosen the SleepSense® RIP/Inductive System. All kits are fully equipped with everything you need to get started with the SleepSense® RIP/Inductive system.

1 Year Warranty on Reusable Belts and Cables

60 Days Warranty on Semi-Reusable Belts

Reusable Inductive System Kits

SLP9010A5-KIT	Adult, Alice 5 Compatible. Kit includes 2 x SLP9010 (Reusable Inductive Belts), SLP9102A5 (Chest Interface Cable) and SLP9101A5 (Abdomen Interface Cable)	\$880.00
SLP9010A6-KIT	Adult, Alice 6 Compatible. Kit includes 2 x SLP9010 (Reusable Inductive Belts) and 2 x SLP9153A6 (A6 Universal Interface Cable)	\$590.00
SLP9010NX-KIT	Adult, Nox Compatible. Kit includes 2 x SLP9010NX (Reusable Inductive Belts) and SLP9011NX (Nox Abdominal Cable)	\$460.00
SLP9010NO-KIT	Adult, Nomad Compatible. Kit includes 2 x SLP9010 (Reusable Inductive Belts), SLP9102NO (Chest Interface Cable) and SLP9101NO (Abdomen Interface Cable)	\$860.00

Semi-Reusable Inductive System Kits

SLP9100-KIT	Adult, Universal (1.5mm Connectors). Kit includes SLP9102 (Chest Interface Cable), SLP9101 (Abdomen Interface Cable), SLP9002-L90 Large Effort Bands and SLP9002-L120 Extra-Large Effort Bands	\$620.00
SLP9100B-KIT	BLUE - Adult, Universal (1.5mm Connectors). Kit includes SLP9102 (Chest Interface Cable), SLP9101 (Abdomen Interface Cable), SLP9003-L90 Large Effort Bands and SLP9003-L120 Extra-Large Effort Bands	\$620.00
SLP9100PB-KIT	BLUE - Pediatric, Universal (1.5mm Connectors). Kit includes SLP9102 (Chest Interface Cable), SLP9101 (Abdomen Interface Cable), SLP9003-L40 Small Effort Bands and SLP9003-L60 Medium Effort Bands	\$588.00
SLP9100A5-KIT	Adult, Alice 5 Compatible. Kit includes SLP9102A5 (Chest Interface Cable), SLP9101A5 (Abdomen Interface Cable), SLP9002-L90 Large Effort Bands and SLP9002-L120 Extra-Large Effort Bands	\$640.00
SLP9100A6B-KIT	BLUE - Adult, Alice 6 Compatible. Kit includes 2 x SLP9153A6 (A6 Universal Interface Cable), SLP9003-L90 Large Effort Bands and SLP9003-L120 Extra-Large Effort Bands	\$350.00
SLP9100EB-KIT	BLUE - Adult, Embla Compatible. Kit includes SLP9152 (Chest Interface Cable), SLP9151 (Abdomen Interface Cable), SLP9003-L90 Large Effort Bands and SLP9003-L120 Extra-Large Effort Bands	\$400.00

SLEEPSENSE® MULTI-RIP™

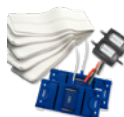

Kit includes chest, abdomen & SUM Channel wiresets Standard Connectors - Connect to any SleepSense Inductive Band - AAA batteries included.

Module – 1 Year Warranty

SLP9201-KIT	Kit Includes Interface Box, SUM Channel, Cables	\$640.00
SLP9201	Interface Box with SUM Channel	\$500.00
SLP-PS9202	Abdomen Wireset	\$90.00
SLP-PS9203	Chest Wireset	\$90.00
SLP-PS9204	SUM/Output Wireset	\$100.00

SLEEPSENSE DISPOSABLE INDUCTIVE SYSTEM KITS - ADULT

- SleepSense Disposable Inductive Belts are pre-cut into Adult sizes
- Reusable Inductive Interface Buckles have a 1 year warranty
- Easy to use, full adjustment at any time throughout the study

SLP9107-KIT	Disposable Inductive Kit / Safety DIN Connectors - Kit includes 9111 Buckle (1), 9112 Buckle (1), 9007-L120 Disposable Belts (20-pack)	\$430.00
SLP9107A6-KIT	Disposable Inductive Kit / Alice 6 Compatible - Kit Includes: 9154A6 Buckle (2), 9007-L120 Disposable Belts (20-pack)	\$430.00
SLP9207-KIT	Disposable Inductive Kit / Key Connector 7ft - Kit Includes: 9251 Buckle (1), 9252 Buckle (1), 9007-L120 Disposable Belts (20-pack)	\$430.00
SLP9107XL-KIT	Disposable Inductive Kit / Safety DIN Connectors - Kit includes 9111 Buckle (1), 9112 Buckle (1), 9007-L150 Disposable Belts (20-pack)	\$435.00
SLP9107A6XL-KIT	Disposable Inductive Kit / Alice 6 Compatible - Kit Includes: 9154A6 Buckle (2), 9007-L150 Disposable Belts (20-pack)	\$435.00

SLEEPSENSE DISPOSABLE INDUCTIVE SYSTEM KITS - PEDIATRIC

- SleepSense Disposable Inductive Belts are pre-cut into Pediatric sizes
- Reusable Inductive Interface Buckles have a 1 year warranty
- Easy to use, full adjustment at any time throughout the study

SLP9107P-KIT	Disposable Pediatric Inductive Kit / Safety DIN Connectors - Kit includes 9111P Buckle (1), 9112P Buckle (1), 9000C Disposable Pediatric Belts (20-pack)	\$430.00
SLP9154A6P-KIT	Disposable Pediatric Inductive Kit / Alice 6 Compatible - Kit includes 9154A6P Universal Buckle (2), 9000C Disposable Pediatric Belts (20-pack)	\$430.00
SLP9207P-KIT	Disposable Pediatric Inductive Kit / Key Connector 7ft -Kit Includes: 9251P Buckle (1), 9252P Buckle (1), 9000C Disposable Pediatric Belts (20-pack)	\$430.00

DISPOSABLE PREMATURE INDUCTIVE BELTS

SleepSense Disposable Premature Inductive Belts are small and lightweight, delivering high quality inductive effort signals throughout the study.

For use with SleepSense Snap-Style RIP Interface Cables ONLY

(Sold Separately).

SLP9009	Disposable Premature Inductive Belt (20-Pack)	\$200.00
---------	---	-----------------

SLEEPSENSE INDUCTIVE INTERFACE BUCKLES ONLY

SleepSense Inductive Interface Buckles have two easy open tabs that securely hold the belts in place throughout the study, yet still allow for further adjustment at any time. These cables are optimized for nearly any PSG system.

1 Year Warranty

SLP9111	Abdomen / Safety DIN Connector	\$185.00
SLP9112	Chest / Safety DIN Connector	\$185.00
SLP9154A6	Universal / Alice 6 Compatible / PDX	\$185.00
SLP9111A5	Abdomen / Alice 5 Compatible	\$185.00
SLP9112A5	Chest / Alice 5 Compatible	\$185.00
SLP9251	Abdomen, 7ft / Key Connector	\$185.00
SLP9252	Chest, 7ft / Key Connector	\$185.00
SLP9241	Abdomen, 2ft / Key Connector	\$185.00
SLP9242	Chest, 2ft / Key Connector	\$185.00
SLP9256	Alice NightOne Compatible	\$160.00
SLP9111NO	Abdomen/Nomad Compatible	\$185.00
SLP9112NO	Chest/Nomad Compatible	\$185.00
SLP9255	NOX T3 Compatible	\$160.00
SLP9111P	Child, Abdomen / Safety DIN Connector	\$185.00
SLP9112P	Child, Chest / Safety DIN Connector	\$185.00
SLP9154A6P	Child, Universal / Alice 6 Compatible	\$185.00
SLP9251P	Child, Abdomen / Key Connector	\$185.00
SLP9252P	Child, Chest / Key Connector	\$185.00

SLEEPSENSE DISPOSABLE INDUCTIVE BELTS

SleepSense Disposable Inductive Belts are pre-cut into various sizes and are made of soft, stretchy material for added patient comfort. These belts are designed to be woven through SleepSense Inductive Interface Buckles to provide high quality signals to nearly any PSG system.

SLP9007-L120	Disposable Inductive Belt, 120cm (20-pack)	\$60.00
SLP9007-L150	Disposable Inductive Belt, 150cm (20-pack)	\$65.00
SLP9000C	Disposable Inductive Belt, Pediatric 60cm (20-pack)	\$60.00

SLEEPSENSE DISPOSABLE INDUCTIVE SYSTEM FOR HST

- SleepSense Disposable Inductive Belts are pre-cut into Adult sizes
- Reusable Inductive Interface Buckles have a 1 year warranty
- Easy to use, full adjustment at any time throughout the study

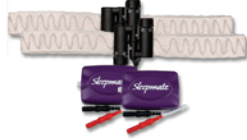

SLP9256-KIT	Disposable Inductive Kit / Alice NightOne Compatible - Kit includes 9256 Buckle (1), 9007-L120 Disposable Belts (20-pack)	\$220.00
SLP9255-KIT	Disposable Inductive Kit / NOX T3 Compatible - Kit includes SLP9255 Universal Buckle (2), SLP9011NX Abdominal Cable, and 9007-L120 Disposable Belts (20-pack)	\$380.00
SLP9107NO-KIT	Disposable Inductive Kit / Nomad Compatible - Kit includes SLP9111NO Nomad Abdominal Buckle, SLP9112NO Nomad Chest Buckle, SLP1352 Buckle Strap, and 9007-L120 Disposable Belts (20-pack)	\$445.00

INDUCTIVE / RESPIRATORY BELTS

SLEEPMATE® DISPOSABLE RIPMATE™ STANDARD

Single use RIPmate inductance belts save time by eliminating the need to clean. Every RIPmate belt is cut to length for a perfect fit. No adjusting necessary- The Ripmate disposable belt grips tight to the patient and prevents loss of signal due to belt slipping. Same quality signal you have come to love from RIPmate Reusable belts

9 Month Warranty on Processors and Cables

819200-100	RIPmate Kit w/ Disposable Bands - STD (2 RIP Locks, 2 Processors, 1 roll bands)	\$870.00
819200-108	RIPmate Kit w/ Disposable Bands - Keyhole (2 RIP Locks, 1 roll bands) Alice 6 Compatible	\$395.00
819200-121	RIPmate Kit w/ Disposable Bands - A5 (2 RIP Locks, 2 Processors, 1 roll bands)	\$870.00
819201-000	RIPmate Single Use Belt Roll (105 ft)	\$36.00
819211-000	RIPmate Locks	\$180.00
SM1913	RIPmate™ Inductive Thoracic Processor	\$240.00
SM1914	RIPmate™ Inductive Abdomen Processor	\$240.00
SM1933	RIPmate™ Inductive Thoracic Processor - Alice 5®	\$240.00
SM1934	RIPmate™ Inductive Abdomen Processor - Alice 5®	\$240.00

DYMEDIX PERFECT FIT™ 2 R/S RIP SIGNAL EFFORT BELTS

A PVDF Replacement for Integrated RIP Belts

- No Woven Wire Belts
- Plugs Directly into RIP Inputs (Keyhole or DIN)
- Reliable and Dependable
- AASM Accepted

Available for Embla®, Graef® and Alice® 6 PSG Systems

1 Year Warranty

PF-050-K	Perfect Fit™ II R/S Adult Kit includes: 2- Perfect Fit™ II R/S sensors, 2-45" Effort Belt Straps, 2-60" Effort Belt Straps, and 2- R/S Interface Cables, Embla®, KeyHole	\$988.90
PF-051-K	Perfect Fit™ II R/S Adult Kit includes: 2- Perfect Fit™ II R/S sensors, 2-45" Effort Belt Straps, 2-60" Effort Belt Straps, and 2- R/S Interface Cables, Embla, 1.5 mm	\$899.00
PF-052-K	Perfect Fit™ II R/S Adult Kit includes: 2- Perfect Fit™ II R/S sensors, 2-45" Effort Belt Straps, 2-60" Effort Belt Straps, and 2- R/S Interface Cables, Graef®	\$988.90
PF-053-K	Perfect Fit™ II R/S Adult Kit includes: 2- Perfect Fit™ II R/S sensors, 2-45" Effort Belt Straps, 2-60" Effort Belt Straps, and 2- R/S Interface Cables, Alice® 6	\$988.90
PF-070-K	Perfect Fit™ II R/S Pediatric Kit includes: 2- Perfect Fit™ II R/S sensors, 2-15" Effort Belt Strap, 2-25" Effort Belt Strap, and 2-35" Effort Belt Strap and 2- R/S Interface Cable, Embla®/KeyHole	\$988.90
PF-071-K	Perfect Fit™ II R/S Pediatric Kit includes: 2- Perfect Fit™ II R/S sensors, 2-15" Effort Belt Strap, 2-25" Effort Belt Strap, and 2-35" Effort Belt Strap and 2- R/S Interface Cable, Embla, 1.5 mm	\$899.00
PF-072-K	Perfect Fit™ II R/S Pediatric Kit includes: 2- Perfect Fit™ II R/S sensors, 2-15" Effort Belt Strap, 2-25" Effort Belt Strap, and 2-35" Effort Belt Strap and 2- R/S Interface Cable, Graef®	\$988.90
PF-073-K	Perfect Fit™ II R/S Pediatric Kit includes: 2- Perfect Fit™ II R/S sensors, 2-15" Effort Belt Strap, 2-25" Effort Belt Strap, and 2-35" Effort Belt Strap and 2- R/S Interface Cable, Alice® 6	\$988.90

DISPOSABLE RIP BAND

This 115ft roll of disposable BRAEBON respiratory inductance plethysmography (RIP) banding makes cleaning a thing of the past. You cut the length you need for each patient which means less waste and a better fit. RIP band will work with virtually all other RIP systems when used with reusable locking connectors.

(Single Use Roll: 115ft / 292cm x 1" / 2.5cm L x W)

DYMEDIX PERFECT FIT™ PVDF EFFORT BELTS WITH SUM

Detection of Paradoxical Respiratory Movement

- All the Advantages of the Perfect Fit™ 2 PVDF Effort Belts with a SUM Channel Output
- In-line Interface Cable Module Provides Chest, Abdomen and SUM Signal outputs.
- AASM Accepted

1 Year Warranty

PF-011-K	SUM Channel Adult Effort Belt Kit: 2 Sensors, 45" Straps, Sum Interface Cable	\$1094.50
PF-027-K	SUM Channel Pediatric Effort Belt Kit: 2 Sensors, 45" Straps, Sum Interface Cable	\$1094.50

SLEEPMATE® RIPMATE™ INDUCTIVE KIT

Sleepmate's RIPmate™ Respiratory Inductance Plethysmography system has a washable, reusable effort belt. The RIPmate™ is designed with a comfortable one-size-fits-all belt. The RIPmate™ Inductance Processor module plugs directly into the AC input of any head-box with NO additional software needed. The RIPmate™ inductance effort system is fully compliant with the New AASM Technical Respiratory Rule recommendations. Sleepmate's RIPmate™ system is as easy to use as our standard piezo effort belts, the industry standard since we first introduced that technology to the sleep community in 1989. The RIPmate™ effort system is simple to apply and provides a reliable effort signal that eliminates the problems of effort signal loss and false paradoxical signals.

- Grip-Rite stitching to keep belt from loosening on patient during the night
- Optimized belt material to produce higher quality results and durability
- Double slider system for easy adjustment to fit most patients

Latex Free 9 Month Warranty

SM1910	Adult Kit (includes 2 cables, 2 processors, 2 1-½" belts)	\$870.00
SM1916	Adult Kit (includes 2 cables, 2 processors, 2 1" belts)	\$870.00
819100-108	RIP Kit - Integrated RIP Keyhole (Embla and Alice 6)	\$463.00
SM1902	RIPmate™ Inductive Belt - Adult 1 ½" band (24" - 62")	\$200.00
SM1905	RIPmate™ Inductive Belt - Adult 1" band (32" - 78")	\$200.00

SM1919	RIPmate™ Pediatric Inductance Belt Kit-Abdomen (1 process, 1 cable, 1 belt)	\$435.00

DYMEDIX DISPOSABLE FASTTRACK EFFORT PACK

The First COMPLETELY Disposable Respiratory Effort System

- Cut-To-Size, Disposable, Button-Hole Sensor Straps
- Plug-And-Play Interface
- AASM Accepted
- No Polarity Reversal
- Ideal for pediatric patients
- Optional Sum Module Available
- Simple Patient Application for In-Home Sleep Studies

Compatible with all PSG Systems Including: Alice, Embla, and Grael.

FastTrack Effort Pack, Disposable Belt x2

FT-002-P	FastTrack Effort Pack, Pediatric, 20 Pack Box	\$440.00
FT-003-P	FastTrack Effort Pack, Pediatric, 40 Pack Box	\$814.00
FT-005-P	FastTrack Effort Pack, Adult, 20 Pack Box	\$440.00
FT-006-P	FastTrack Effort Pack, Adult, 40 Pack Box	\$814.00

FastTrack Starter Kit: 10 Pack and Interface Kit

FT-007-K	FastTrack Starter Kit, Pediatric, Universal	\$385.00
FT-008-K	FastTrack Starter Kit, Adult, Universal	\$385.00
FT-009-K	FastTrack Starter Kit, Pediatric, Alice 5®	\$495.00
FT-010-K	FastTrack Starter Kit, Adult, Alice 5®	\$495.00
FT-011-K	FastTrack Starter Kit, Pediatric, Embla®	\$495.00
FT-012-K	FastTrack Starter Kit, Adult, Embla®	\$495.00
FT-013-K	FastTrack Starter Kit, Pediatric, Grael®	\$495.00
FT-014-K	FastTrack Starter Kit, Adult, Grael®	\$495.00
FT-015-K	FastTrack Starter Kit, Pediatric, Alice 6®	\$495.00
FT-016-K	FastTrack Starter Kit, Adult, Alice 6®	\$495.00

FastTrack Effort Interface Kit: Two Interface Cables

FT-017-K	FastTrack Effort Interface Kit, Universal	\$220.00
FT-018-K	FastTrack Effort Interface Kit, Alice 5®	\$385.00
FT-019-K	FastTrack Effort Interface Kit, Embla®	\$385.00

BRAEBON PREMEASURED DISPOSABLE RIP EFFORT BELTS

You asked for it and we did more than just listen! BRAEBON is also proud to announce new disposable RIP effort belts for use with virtually all PSG or HSAT RIP systems.

5571-24	Pediatric RIP Effort Belt 18" x 1" - Pack of 24	\$99.00
5572-24	Small Adult RIP Effort Belt 28" x 1" - Pack of 24	\$99.00
5573-24	Large Adult RIP Effort Belt 39" x 1" - Pack of 24	\$99.00
0579	Two 1.5 mm touchproof safety pins to two male snaps - 84" (May require Q350 adapter)	\$49.00
8579	Dual 1 mm keyhole connector to two male snaps - 16" (For MediByte & other HSAT)	\$39.00

INDUCTIVE BELTS (RIP)

XACTTRACE SINGLE USE PRE-SIZED BELTS

- Same high quality RIP technology as XactTrace reusable belts
- No threading of material into the lock is required
- Belt length can be adjusted to assure a good fit
- Pre-attached snap terminates for quick, easy set up (snap sensors & RIP processors sold separately)

20/box (10 packs of 2)

011516	Pediatric 11-22" (28-56cm)	\$100.00
011517	Small 16-35" (40-89cm)	\$100.00
011518	Medium 30-55" (76-140cm)	\$100.00
011520	Large 40-75" (102-190cm)	\$100.00

XACTTRACE REUSEABLE CONNECTORS USED WITH SINGLE PRE-SIZED BELTS

Compatibility:

- Universal PSG systems that accept 1.5mm female touchproof connectors require Snap Sensors (011521, 011522) & RIP Processors (1421048, 1421047)
- Embla 7000, titanium, Embletta (all models) require Snap Sensors (011521, 011522)
- Embla S4000/S4500 require Snap Sensors (013224, 013225)

011521	XactTrace Snap Sensor, Abdomen, 26" (66cm) cable, yellow 2-pin key connector	\$34.00
011522	XactTrace Snap Sensor, Thorax, 16" (41cm) cable, blue 2-pin key connector	\$34.00
013224	XactTrace Snap Sensor, Abdomen, 78" (200cm) cable, yellow 2-pin key connector	\$34.00
013225	XactTrace Snap Sensor, Thorax, 78" (200cm) cable, blue 2-pin key connector	\$34.00
1421048	XactTrace RIP Processor Sensor, Abdomen, 78" (200cm) cable, 1.5mm female touchproof connectors	\$278.00
1421047	XactTrace RIP Processor Sensor, Thorax, 78" (200cm) cable, 1.5mm female touchproof connectors	\$278.00

XACTTRACE

XactTrace delivers a highly sensitive and reliable respiratory effort tracing. This sensor creates a conductive loop when stretched around the patient. A precise quality signal is then generated that is a measure of the shifts in chest or abdominal circumference. This technology is especially accurate in cases of paradoxical breathing, where an exact and reliable measure of respiratory effort is needed.

1 Year Warranty

1421091	Complete Kit (Thorax Kit and abdomen kit)	\$1004.00
1421081	Thorax Kit (Belt, Sensor, Cable)	\$558.00
1421080	Abdomen Kit (Belt, Sensor, Cable)	\$558.00
1421040	Belt	\$220.00
1421027	Thorax Sensor	\$332.00
1421026	Abdomen Sensor	\$332.00
1451080	Cable	\$38.00

DYMEDIX SNUGGLEFIT™ INFANT RESPIRATORY EFFORT SYSTEM

Disposable Respiratory Effort System Designed Specifically for Infants

- Slim, Low Profile Sensor Modules
- Extreme PVDF Sensitivity
- Cut to Size Disposable Button-Hole Straps
- Optional Comfort Wrap Module Cover
- No Polarity Reversal
- AASM Accepted

Each Kit includes: 2 SnuggleFit Sensors, 2-50 Yard Rolls of Effort Belt Strap, Animal Sticker Roll, Comfort Wrap Pack of 10

SF-001-K	1.5 mm Universal Effort Interface Kit	\$544.50
SF-002-K	Alice 5 Interface Kit	\$544.50
SF-003-K	Embla Interface Kit	\$654.50
SF-004-K	Alice 6 Interface Kit	\$654.50
SF-005-K	Grael Interface Kit	\$654.50
SF-006-K	Pediatric SUM Module and Interface Kit	\$1,039.50
SF-020-R	SnuggleFit Effort Belt Roll, Purple, 50yd roll	\$82.50
SF-021-R	SnuggleFit Effort Belt Roll, Purple, 250yd roll	\$368.50
SF-022	SnuggleFit Infant Effort Belt	\$137.50
SF-023	Zoo Animal Sticker Roll (100ct)	\$8.25
SF-024	SnuggleFit Comfort Wrap (10pk)	\$16.50
SF-025	SnuggleFit Comfort Wrap (50pk)	\$82.50
SF-026	SnuggleFit Comfort Wrap (100pk)	\$137.50

DYMEDIX SNUGGLEFIT™ - INFANT INTERFACE KITS AND CABLES

Disposable Respiratory Effort System Designed Specifically for Infants

- Slim, Low Profile Sensor Modules
- Extreme PVDF Sensitivity
- Cut to Size Disposable Button-Hole Straps
- Optional Comfort Wrap Module Cover
- No Polarity Reversal
- AASM Accepted

Each Interface Kit includes: 1 Abdominal Interface Cable, 1 Chest Interface Cable

SF-007-K	Interface Kit - Universal	\$220.00
SF-008-K	Interface Kit - Alice 5	\$385.00
SF-009-K	Interface Kit - Embla	\$385.00
SF-010-K	Interface Kit - Grael	\$385.00
SF-011-K	Interface Kit - Alice 6	\$385.00

INDIVIDUAL INTERFACE CABLES

SF-030-M	Interface Cable, Abdom	\$125.00
SF-031-M	Interface Cable, Chest	\$125.00
SF-032-M	Interface Cable, Abdomen Alice 5	\$203.50
SF-033-M	Interface Cable, Chest Alice 5	\$203.50
SF-034-M	Interface Cable, Abdomen Embla	\$203.50
SF-035-M	Interface Cable, Chest, Embla	\$203.50
SF-036-M	Interface Cable, Abdomen Grael	\$203.50
SF-037-M	Interface Cable, Chest, Grael	\$203.50
SF-038-M	Interface Cable, Abdomen Alice 6	\$203.50
SF-039-M	Interface Cable, Chest Alice 6	\$203.50
SF-040-M	Effort Interface Cable, SUM	\$495.00

DYMEDIX PERFECT FIT™ 3D DISPOSABLE EFFORT SYSTEM

- Provides Accurate, Clean Signals and Maintains Polarity.
- Half the Price of RIP
- Reusable Sensor Modules
- Cut To Size Belts Ensures Accurate Fit
- AASM Accepted
- R/S version provides a RIP signal specifically designed for Embla, Alice 6 and Graef PSG systems - with the same performance as the Standard PVDF Effort

PF-090-K	Universal 1.5 mm Kit - Includes: 2- Perfect Fit™3D reusable sensor modules, 5-50 yard rolls of Effort Belt Strap	\$544.50
PF-091-K	Alice 5 Kit - Includes: 2- Perfect Fit™3D reusable sensor modules, 5-50 yard rolls of Effort Belt Strap	\$544.50
PF-093-K	Embla N7000 Kit - Includes: 2- Perfect Fit™3D reusable sensor modules, 5-50 yard rolls of Effort Belt Strap	\$654.50
PF-092-K	Embla Kit - Includes: 2- Perfect Fit™3D R/S reusable sensor modules, 5-50 yard rolls of Effort Belt Strap	\$654.50
PF-094-K	Alice 6 Kit - Includes: 2- Perfect Fit™3D R/S reusable sensor modules, 5-50 yard rolls of Effort Belt Strap	\$654.50
PF-095-K	Graef Kit - Includes: 2- Perfect Fit™3D R/S reusable sensor modules, 5-50 yard rolls of Effort Belt Strap	\$654.50
PF-096-K	NOX-T3 Kit - Includes: 2- Perfect Fit™3D sensors, 5-50 yard rolls of Effort Belt Strap	\$544.50
PF-097-K	Nomad Kit - Includes: 2- Perfect Fit™3D sensors, 5-50 yard rolls of Effort Belt Strap	\$544.50
PF-096	Sensor Module, Abdomen, 1.5 mm	\$137.50
PF-097	Sensor Module, Chest, 1.5 mm	\$137.50
PF-098	Sensor Module, Abdomen, Alice 5	\$137.50
PF-099	Sensor Module, Chest, Alice 5	\$137.50
PF-100	Sensor Module, Abdomen, Embla	\$192.50
PF-101	Sensor Module, Chest, Embla	\$192.50
PF-102	Sensor Module, Abdomen, Embla N7000	\$192.50

PF-106	Sensor Module, Abdomen, Graef	\$192.50
PF-107	Sensor Module, Chest, Graef	\$192.50
PF-108-R	Button Hole Effort Belt Roll, (Disposable), 50 yard roll (20 studies)	\$82.50
PF-109-R	Button Hole Effort Belt Roll, (Disposable), 250 yards (Five 50 yard rolls) (100 studies)	\$368.50

DYMEDIX PERFECT-FIT™ 3D DISPOSABLE EFFORT SYSTEM - SUM

Perfect Fit™ 3D Disposable PVDF Effort System with SUM.

PF-116-K	Perfect Fit™ 3D REUSABLE-Disposable Kit includes: 2- Perfect Fit™3D sensors, 5-50 yard rolls of Button-Hole Strap, SUM, Adult	\$1,039.50
PF-117-K	Perfect Fit™ 3D REUSABLE-Disposable Kit includes: 2- Perfect Fit™3D sensors, 5-50 yard rolls of Button-Hole Strap, SUM, Pediatric	\$1,039.50
PF-110	Perfect Fit™ 3D Effort Belt Sensor Module, Abdomen, Sum	\$137.50
PF-111	Perfect Fit™ 3D Effort Belt Sensor Module, Chest, Sum	\$125.00

PROTECH® CRYSTAL TRACE® PVDF EFFORT BELTS, PEDIATRIC

These piezo technology belts were designed to provide crystal clear tracings. The sensor straps, with their low profile and Velcro® bands, make the system easy to install and very comfortable.

*One channel kit includes 1 piezo sensor strap and 1 Velcro® strap kit. **Two channel kit includes 3 piezo sensor straps, 2 Velcro strap kits.

Latex free

1 Year Warranty

1462	*One Channel Kit	\$300.00
1453	Replacement Sensor Strap (Only)	\$260.00
1448	Replacement Velcro® Strap Kit - Includes Sizes 1 (16"), 2 (20"), 3 (26.5"), 4 (30") - 1" Wide	\$80.00

PRO-TECH® CT2™ RESPIRATORY EFFORT SENSORS

Low profile single buckle style for patient comfort. Uses ceramic piezo crystal technology. Product is designed for easy patient setup. Connects to AC jackbox. No batteries required.

Latex Free

1 Year Warranty

PT21582	CT2 Piezo Sensor Strap, Adult Female 1.5mm Connector	\$275.00
PT21803	CT2 Piezo Sensor Strap, Adult Alice 3® Connector	\$275.00
PT21804	CT2 Piezo Sensor Strap, Adult Alice 4® Connector	\$275.00
PT21805	CT2 Piezo Sensor Strap, Adult Stardust Connector	\$275.00
PT21586	CT2 Piezo Sensor Strap, Adult Alice 5® Connector	\$275.00
PT21800	CT2 Piezo Sensor Strap, Adult Embletta™ Connector	\$275.00
PT21585	CT2 Piezo Sensor Strap, Pediatric Female 1.5mm Connector	\$275.00
PT21813	CT2 Piezo Sensor Strap, Pediatric Alice 3® Connector	\$275.00
PT21814	CT2 Piezo Sensor Strap, Pediatric Alice 4® Connector	\$275.00
PT21587	CT2 Piezo Sensor Strap, Pediatric Alice 5® Connector	\$275.00
PT21592	CT2 Extension Strap - 18"	\$25.00

PRO-TECH® CRYSTAL TRACE® PVDF EFFORT BELTS, ADULT

These piezo technology belts were designed to provide crystal clear tracings. The sensor straps, with their low profile and Velcro® bands, make the system easy to install and very comfortable.

*One channel kit includes 1 piezo sensor strap and 1 Velcro® strap kit (adult or pediatric). **Two channel kit includes 3 piezo sensor straps, 2 Velcro® strap kits (adult or pediatric).

0526-3	3' Velstretch® Replacement Belt (Buckle Style)	\$30.00
0526-4	4' Velstretch® Replacement Belt (Buckle Style)	\$35.00
0526-5	5' Velstretch® Replacement Belt (Buckle Style)	\$35.00

BRAEBON ULTIMA® RESPIRATORY BELTS, DOUBLE LOOP STYLE

Uses PVDF technology. Connects directly to jackbox. One channel.

Latex free

1 Year Warranty

0529	Double Loop Style includes One 2', One 4' Velstretch® Belt, Female 1.5mm Connector	\$265.00
0523-2	2' Velstretch® Replacement Belt (Double Loop Style)	\$25.00
0523-3	3' Velstretch® Replacement Belt (Double Loop Style)	\$30.00
0523-4	4' Velstretch® Replacement Belt (Double Loop Style)	\$35.00
0523-5	5' Velstretch® Replacement Belt (Double Loop Style)	\$35.00

BRAEBON EFFORT SENSOR

Cost effective effort sensor with piezo technology, that will connect to any standard 1.5mm headbox.

Latex free

6 Month Warranty

5527	\$230.00
------	-----------------

SLEEPMATE® RESPIRATORY MONITORING BELTS, DOUBLE BUCKLE STYLE

Uses piezo technology to measure chest and abdominal expansion associated with respiratory effort. Plugs directly into the jack box.

Latex Free

9 Month Warranty

SM1310	Double Buckle Style-Includes 1" wide belt, Female 1.5mm Connector	\$269.00
SM1314	Alice 3® Respiratory Belt Double Buckle	\$300.00
SM1318	Alice 5® Respiratory Belt Double Buckle	\$269.00
SM1350	Velstretch® 1" Replacement Band (latex free)	\$15.00

SLEEPMATE® RESPIRATORY MONITORING BELTS, LOOP STYLE

Uses piezo technology to measure chest and abdominal expansion associated with respiratory effort. Plugs directly into the jack box.

- Unique wing design provides superior signal sensitivity and signal quality.

Latex Free

9 Month Warranty

SM1312	Double Loop Style Respiratory Effort Sensor 1.5mm connector, (2 1.5" wide adult bands)	\$303.00
SM1340	Extra large Adult V-Band 1.5"x68" (Double Loop Style)	\$20.50
SM1341	Large Adult V-Band 1.5"x45" (Double Loop Style)	\$20.50
SM1342	Pediatric V-Band 1"x29" (Double Loop Style)	\$10.50
SM1343	Infant V-Band 1"x14" (Double Loop Style)	\$10.50
SM1344	Adult Velstretch® Band Kit (1 large lt. grey, 1 medium lt. navy)	\$41.00
SM1346	Pediatric Velstretch® Band Kit (1 infant royal blue, 1 sm lt. blue)	\$21.00

SLEEPMATE® PEDIATRIC RESPIRATORY MONITORING BELT

Double loop style that comes with two 1" belts to fit pediatric to infant. Standard female 1.5mm connector.

Latex Free

9 Month Warranty

SM1325	One Channel	\$303.00
SM1346	Pediatric Velstretch® Band Kit (1 Pediatric and 1 Infant)	\$21.00

SLEEPMATE® PVDF RESPIRATORY SENSOR

Latex Free

9 Month Warranty

SM1301	1.5mm Connector	\$278.00
--------	-----------------	-----------------

GEREONICS® ULTRA-PIEZO RESPIRATORY EFFORT SENSOR

This system uses patches. No belts are used. The sensor generates a small voltage signal from the normal expansion and contraction of the chest or abdominal wall. No battery required. This complete kit contains reusable sensor, patches, and tape. Female 1.5mm connector.

Latex Free

6 Month Warranty

470510	Complete Kit	\$175.00
470502	Adhesive Patches, 50 Per Pack	\$40.00
470506	Adhesive Tape	\$15.00
470503	Adhesive Tape Patches, 200 Per Pack	\$125.00
470520	Reusable Sensor (Only)	\$135.00

GEREONICS® ULTRA-PIEZO RESPIRATORY EFFORT SENSOR

This system was designed with a low profile sensor for patient comfort. It's suitable for use in sleep labs or for home testing. It has a strong eight foot lead wire and female 1.5mm safety connectors for direct connection to the headbox.

Latex Free

6 Month Warranty

470410	Adult Complete Kit Includes Sensor, Adult Strap Sizes 1, 2, 3. Range 28" - 65"	\$175.00
470420	Sensor Only	\$135.00
470460	Pediatric Kit Includes Sensor, Strap Size 12" - 28"	\$200.00
470430	Three 28"-65" Adult Replacement Belts	\$65.00
470480	Three 12"-28" Pediatric Replacement Belts	\$65.00

SLEEPMATE® BELTLESS INFANT/PEDIATRIC EFFORT SENSOR

Uses piezo technology to measure chest and abdominal expansion associated with respiratory effort.

- Unique wing design provides superior signal sensitivity and signal quality.

9 Month Warranty

SM1375		\$133.00
--------	--	-----------------

THERMOCOUPLES, THERMISTORS, ORAL SENSORS

BRAEBON ULTIMA® THERMISTOR AIRFLOW SENSORS

Reusable, one channel, nasal/oral cannula style airflow sensor. Patent pending airflow placement system: It doesn't go up your nose!

7 Month Warranty

0510	Female 1.5mm Connector	\$185.00
0510A	Alice 3® Connector	\$185.00
0510A4	Alice 4® Connector	\$185.00
0510A5	Alice 5® Connector	\$185.00
0510A6	Alice 6® Connector - Embla Compatible	\$185.00
0510SE	Sandman® SD20 Amplifier (EXpress™) 3-pin Safety Keyhole	\$185.00

BRAEBON CTherm™ AIRFLOW SENSOR THERMISTORS

The BRAEBON cTherm™ is a small, comfortable and easy-to-use package which does not obstruct nasal or oral flow. The cTherm™ is specifically designed to sit atop virtually all adult nasal cannulas and permits simultaneous recording of airflow thermistor and airflow pressure for optimal detection of both hypopneas and apneas. Much less bulky than traditional thermal sensors, the cTherm™ is manufactured to exacting BRAEBON quality standards.

New guidelines exist for thermistor and cannula recording.

Patent Pending

6 Month Warranty

0514	Female 1.5mm Connector	\$185.00
0514A3	Alice 3® Connector	\$185.00
0514A4	Alice 4® Connector	\$185.00
0514A5	Alice 5® Connector	\$185.00
0514A6	Alice 6® Connector - Embla Compatible	\$185.00
0514SE	Sandman® SD20 Connector (EXpress™) 3-pin Safety Keyhole	\$185.00

BRAEBON AIRFLOW SENSOR

Cost effective thermocouple technology. Measures both oral and nasal airflow.

6 Month Warranty

5512	1.5mm connector	\$135.00
------	-----------------	-----------------

BRAEBON ULTIMA® PEDIATRIC AIRFLOW SENSOR

Reusable, one channel nasal/oral cannula style. Compatible with most polygraphs. Connects directly to AC headbox.

6 Month Warranty

0510PED	Female 1.5mm Connector	\$185.00
---------	------------------------	-----------------

BRAEBON CTherm™ PEDIATRIC AIRFLOW SENSOR THERMISTORS

New guidelines exist for thermistor and cannula recording. The BRAEBON cTherm™ is a small, comfortable and easy to use package which does not obstruct either nasal or oral flow. The cTherm™ is specifically designed to sit atop virtually all adult nasal cannulas and permits simultaneous recording of airflow thermistor and airflow pressure for optimal detection of both hypopneas and apneas. Much less bulky than traditional thermal sensors.

Patent Pending

6 Month Warranty

0514PED	Female 1.5mm Connector	\$185.00
0514A5PED	Alice 5® Connector	\$185.00
0514A6PED	Alice 6® Connector - Embla Compatible	\$185.00

BRAEBON ULTIMA® ORAL AIRFLOW SENSOR

Reusable, one channel.

Oral Sensor Only

6 Month Warranty

0515	Female 1.5mm Connector	\$165.00
------	------------------------	-----------------

BRAEBON REUSABLE ORAL AIRFLOW SENSOR

Reusable Oral Airflow Sensor. Useful for maintaining airflow in CPAP titrations.

6 Month Warranty

B1221	Female 1.5mm Connector	\$135.00
-------	------------------------	-----------------

PRO-TECH® THERMOCOUPLE AIRFLOW SENSORS

The reusable thermocouples have an insulated tip to eliminate contact noise artifact. The cables plug directly into the jack box. Cannula style.

6 Month Warranty

1222	Adult One Channel, Nasal/Oral, Two Female 1.5mm Connectors	\$168.00
1224	Adult Two Channel, Nasal/Oral, Three Female 1.5mm Connectors	\$204.00

PRO-TECH® THERMISTOR AIRFLOW SENSORS

Reusable, one channel, adult cannula style.

6 Month Warranty

1246	Alice 3® Connector	\$195.00
1286	Alice 4® Connector	\$206.00
1274	Alice 5® Connector	\$195.00
P1399	Stardust with Harwin Connector	\$210.00
1274-249	Embletta™ Keyhole Connector, 24" Length (Embla)	\$195.00
1364-1	Sandman® EXpress™ (SD20) 3-pin Safety Keyhole	\$195.00
1388	Alice PDx®	\$195.00

PRO-TECH® ORAL AIRFLOW SENSORS

Reusable. Single element sensor with many uses. Can be used with pressure transducer to detect oral airflow.

6 Month Warranty

1379	Alice PDx®	\$167.00
------	------------	-----------------

PRO-TECH® ALICE 6® ORONASAL AND ORAL THERMISTORS

Alice 6 Compatible Sensors

6 Month Warranty

1078754	Thermistor airflow, adult, 1 channel, Keyhole (Alice 6)	\$195.00
1078755	Thermistor airflow, pediatric, 1 channel, Keyhole (Alice 6)	\$210.00
1078756	Thermistor airflow, pediatric small, 1 channel, Keyhole (Alice 6)	\$195.00
1078757	Thermistor, oral, adult, Keyhole (Alice 6)	\$150.00

PRO-TECH® PEDIATRIC AIRFLOW SENSOR

The reusable thermocouples have an insulated tip to eliminate contact noise artifacts. The cables plug directly into the jack box. Cannula style, one channel. Comfortable, adjustable, and easy to apply. Compatible with most polygraphs. No batteries required.

6 Month Warranty

1223	Female 1.5mm Connector, Pediatric	\$179.00
1336	Alice 5® Connector, Pediatric	\$210.00
1313	Suzanne™ Connector, Pediatric	\$250.00
1225	Pediatric Two Channel Nasal/Oral Sensor	\$216.00
1314	Suzanne™ Connector, Pediatric Small	\$250.00
1298-249	Embletta™ Keyhole Connector, Pediatric (Embla)	\$210.00

PRO-TECH® PEDIATRIC/SMALL INFANT RESPIRATION SENSORS

Reusable. Two nasal sensors record onto one channel, nasal bridge mount.

6 Month Warranty

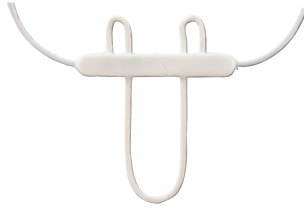

1214	Female 1.5mm Connector	\$195.00
1337	Alice 5® Connector	\$195.00

THERMOCOUPLES, THERMISTORS, ORAL SENSORS

SLEEPSENSE® THERMOCOUPLE AIRFLOW SENSORS

The single channel reusable thermocouple plugs directly into the jack box.

6 Month Warranty

SLP1401	Adult Nasal/Oral Thermocouple Flow Sensor, Loop Style / Safety Din Connectors	\$145.00
SLP1472	Adult Nasal/Oral Thermocouple Flow Sensor, Prong Design / Safety Din Connectors	\$175.00

SLEEPSENSE® THERMISTOR FLOW SENSORS

These sensors are sturdy and stable and will deliver a smooth flow signal throughout the night.

6 Month Warranty

SLP1466	Alice 6 Thermistor Flow Sensor	\$185.00
SLP1461	Alice 5® Thermistor Flow Sensor	\$175.00
SLP1459	Alice 3® Thermistor Flow Sensor	\$180.00
SLP1460	Alice 4® Thermistor Flow Sensor	\$185.00
SLP1450S	Thermistor Flow Sensor Keyhole Connector, 78" Length	\$145.00
SLP1450B	Thermistor Flow Sensor Box, Female 1.5mm Connector	\$115.00
SLP1469	Thermistor, Embla® 78", 1.5mm Safety Din Connector	\$160.00
SLP1468	Thermistor, Embla® 23.5"/60cm, Keyhole Connector	\$155.00
SLP1465	PDX Compatible, Thermistor Flow Sensor	\$190.00

SLEEPSENSE® DISPOSABLE AIRFLOW SENSORS

Records nasal/oral airflow one or two channels.

Requires a reusable cable

**** Starter kits include 1 reusable cable and 20 sensors. ****

SLP1426-20KIT**	Adult Kit, 1.5mm Connectors	\$180.00
SLP1426-20	20 Adult Sensors per Pack	\$110.00
SLP1427-20KIT**	Medium Kit, 1.5mm Connectors	\$180.00
SLP1427-20	20 Medium Sensors per Pack	\$110.00
SLP1428-20KIT**	Infant Kit, 1.5mm Connectors	\$180.00
SLP1428-20	20 Infant Sensors per Pack	\$110.00

SLEEPSENSE® PTFLOW THERMALFLOW

The SleepSense PTFlow Sensor hooks directly over any brand of adult nasal cannula allowing you to test thermal flow and pressure flow simultaneously while providing comfort for the patient.

6 Month Warranty

SLP1466-H	Thermistor Flow Sensor with Hanger - Alice 6	\$195.00
SLP1450S-H	Thermistor Flow Sensor Keyhole Connector	\$155.00
SLP1401H	1.5mm Safety Connector	\$155.00
SLP1422H	Embla® Thermistor Keyhole Connector, 78"	\$160.00
SLP1461H	Thermistor Flow Sensor with Hanger - Alice 5®	\$185.00
SLP1468H	Thermistor Flow Sensor with Hanger - 90 cm - Keyhole Connector, 35.5"	\$165.00

SLEEPSENSE® PEDIATRIC REUSABLE FLOW SENSOR

6 Month Warranty

SLP1471	Alice 5® Pediatric Thermistor Flow Sensor	\$200.00
SLP1401P	Pediatric Thermocouple Flow Sensor, 1.5mm Safety Connector	\$185.00
SLP1473	Pediatric Airflow Sensor, Key Connector	\$165.00

SLEEPSENSE® INFANT THERMAL FLOW SENSOR

Reusable, miniature, nasal flow only Piezo thermal flow sensor especially designed for infants and preemies respiration flow sensing. Applied over the bridge of the nose, the fully adjustable Piezo element produces a signal much stronger than thermocouples.

6 Month Warranty

SLP1400	Female 1.5mm Connector	\$175.00
---------	------------------------	-----------------

SLEEPMATE® THERMISTOR AIRFLOW SENSORS

The system records oral & nasal airflow using a single channel. Revolutionary design extends product life. The reusable unit includes a sensor and battery pack

- The "original" Stay-put™ prongs position sensors precisely in airflow path
- Replaceable battery box or sensor head for thermistor system helps control costs
- Comfortable design.

9 Month Warranty

SM1450	Thermistor Kit 1.5mm Connector	\$190.00
SM1450-B	Interface Box	\$95.00
SM1450-S	Sensor Keyhole Connector, 73" Length (Embla and Alice 6)	\$95.00
SM1459	Alice 3® Connector	\$159.00
SM1460	Alice 4® Connector	\$169.00

SLEEPMATE® ALICE 5®

The system records oral & nasal airflow using a single channel. Revolutionary design extends product life.

9 Month Warranty

SM1462	Alice 5® Connector	\$139.00
--------	--------------------	-----------------

SLEEPMATE® THERMOCOUPLE

The single channel reusable thermocouple plugs directly into the jack box.

- The "original" Stay-put™ prongs position sensors precisely in airflow path
- Comfortable design

9 Month Warranty

SM1401	Female 1.5mm Connector	\$112.00
814860-100	35" Wire - Keyhole Connector	\$130.00

SLEEPMATE® CANNUTHERM™ KIT

Includes CannuTherm™ & 5 Nasal Cannulas with Filters.

- CannuTherm™ is an integrated thermal/pressure sensor
- A patent pending cannula design has a special port to hold the therm
- Eliminates the need to tape separate sensors together
- Complies with New AASM recommendations for nasal pressure and nasal/oral temperature

9 Month Warranty

SM1419	CannuTherm Kit (CannuTherm & 5 Nasal Cannulas)	\$159.00
SM14878	Cannula with Filter, 25 per Case	\$74.00
SM1458	CannuTherm™ Thermistor - Sensor Only - Keyhole	\$155.00
SM1464	CannuTherm™ Alice 5® Thermistor - Sensor Only	\$159.00
814930-108	CannuTherm™ Keyhole Kit (Embla and Alice 6)	\$159.00
SM1420	CannuTherm Thermistor Kit with Battery box & 5 Nasal Cannulas	\$220.00
SM1425	Alice 5® CannuTherm™ Kit (Alice 5® Compatible Thermistor & 5 Nasal Cannulas w/filters)	\$159.00
SM1431	AASM CannuTherm™ Kit AC (CannuTherm™, AC Pressure Transducer and 10	\$465.00

SLEEPMATE® PEDIATRIC THERMOCOUPLE AIRFLOW SENSOR

The single channel reusable thermocouple plugs directly into the jack box.

6 Month Warranty

SM1406	Pediatric Female 1.5mm Connector	\$130.00
--------	----------------------------------	-----------------

SLEEPMATE® DISPOSABLE AIRFLOW SENSORS

Record nasal/oral airflow on one or two channels.

Requires a reusable cable

**** Starter kit includes:
1 reusable cable and 10 sensors ****

SM1426	Sensors, 20-Pack, Adult	\$99.00
SM1427	Sensors, 20-Pack, Medium/Pediatric	\$99.00
SM1428	Sensors, 20-Pack, Small/Infant	\$99.00
SM1450-B	Battery Box 9 Month Warranty	\$95.00
SM1450-C	Sensor Cable 9 Month Warranty	\$35.00

THERMOCOUPLES, THERMISTORS, ORAL SENSORS

SALTER LABS® THERMISENSE™ STARTER KIT

Diagnostic thermistor temperature sensing system that allows optimal positioning to accurately sense Oral/Nasal thermal airflow changes as well as the Airflow Pressure signal (nasal or oral/nasal). Complements nasal pressure devices with an easy to apply cannula/thermistor combination. Reusable thermistor mounts on special cannula holder for optimal positioning every time. Meets AASM guidelines for combined Airflow Pressure and Oral/Nasal thermal sensing. Kit contains ThermiSense™ sensor and ThermiSense cannula sample pack.

Includes Interface box - 1 Year Warranty

5700	Starter Kit, 1.5mm Connector, Adult	\$181.00
5700A4	Starter Kit, Alice 4®, Adult	\$159.00
5700A3	ThermiSense™ Sensor - Alice 3® - Adult Kit (5700T & 1.5mm Sub-mini mono connector cable, 5751, 5761, S1001)	\$157.00
5700A5	Starter Kit, Alice 5®, Adult	\$159.00
5700B	Interface Box	\$112.00
5700E	ThermiSense™ Sensor - Embla® - Adult Kit (Adult thermistor 7' (2.13m) wire with 1.5mm DIN, 5751, 5761, S1001)	\$171.00
5700EK	ThermiSense™ Sensor - Embla® - Adult Kit (Adult thermistor 7' (2.13m) wire with Keyhole connector, 5751, 5761, S1001) Alice 6® compatible	\$160.00
5700EK-2	ThermiSense™ Sensor - Embla® - Adult Kit (Adult thermistor 30" (0.76m) wire with Keyhole connector, 5751, 5761, S1001)	\$160.00
5700S20	ThermiSense™ Sensor - Sandman® SD20 (EXpress™) - Adult Kit (5700T & 3 PIN Keyhole connector cable, 5751, 5761, S1001)	\$157.00
5700T	Without Interface Box, Adult	\$69.00

THERMISENSE™ CANNULAS - NASAL ONLY

5750-7-25	Adult Nasal Airflow Cannulas, with Filter, 25 per Case	\$87.00
5751-7-25	Adult Nasal Airflow Pressure Cannulas without Filter, 25 per Case	\$75.00
5751-2-25	Adult Nasal Cannula holder, with 2' tube, 25 per Case	\$71.00

THERMISENSE™ CANNULAS - ORAL/NASAL ONLY

5760-7-25	Adult Oral/Nasal Airflow Pressure Cannulas with Filter, 25 per Case	\$118.00
5761-7-25	Adult Oral/Nasal Airflow Pressure Cannulas without Filter, 25 per Case	\$96.00
5761-2-25	Adult, Oral/Nasal, without Filter, 2' tube, 25 per Case	\$92.00

THERMISENSE™ CANNULA - PRESSURE AND GAS SAMPLING

Salter Labs® ThermiSense™ cannulas deliver clear signals for real time pressure/snore monitoring and gas sampling (End Tidal CO₂). The smaller, lighter face piece ensures a secure anatomical fit and best possible signal integrity. 25/case.

- Airflow Pressure-Gas Sampling combined

5742-7-7-25	Adult Nasal Cannula/Holder with 7' (2.13m) Airflow Pressure tube and 7' (2.13m) ETCO ₂ tube without filter, 25 per Case	\$65.00
5744-7-7-25	Adult Oral/Nasal Cannula/Holder with 7' (2.13m) Airflow Pressure tube and 7' (2.13m) ETCO ₂ tube without filter, 25 per Case	\$115.00
1216	O2 Connector To Female Luer Lok	\$2.50

SALTER LABS® THERMISENSE™ THERMISTOR - PEDIATRIC

Pediatric Diagnostic thermistor temperature sensing system that allows optimal positioning to accurately sense Oral/Nasal thermal airflow changes as well as the Airflow Pressure signal (nasal or oral/nasal). Complements nasal pressure devices with an easy to apply cannula/thermistor combination. Reusable thermistor mounts on special cannula holder for optimal positioning every time. Meets AASM guidelines for combined Airflow Pressure and Oral/Nasal thermal sensing. Kit contains Pediatric ThermiSense™ sensor and ThermiSense cannula sample pack.

5700P	Starter Kit, Pediatric	\$181.00
5700PA3	Starter Kit, Alice 3®, Pediatric	\$157.00
5700PA5	Starter Kit, Alice 5®, Pediatric	\$159.00
5700PT	Without Interface, Pediatric	\$69.00
5700PE	ThermiSense™ Sensor - Embla® - Pediatric Kit (Pediatric thermistor 7' (2.13m) wire with 1.5mm DIN, 5754, 1001)	\$159.00
5700PEK	ThermiSense™ Sensor - Embla® - Pediatric Kit (Pediatric thermistor 7' (2.13m) wire with Keyhole connector, 5754, 1001) Alice 6® compatible	\$171.00
5700PEK-2	ThermiSense™ Sensor - Embla® - Pediatric Kit (Pediatric thermistor 30" (0.76m) wire with Keyhole connector, 5754, 1001)	\$147.00
5700PS20	ThermiSense™ Sensor - Sandman® SD20 (EXpress™) - Pediatric Kit (5700PT & 3 PIN Keyhole connector cable, 5754, 1001)	\$157.00

THERMISENSE™ CANNULA - PRESSURE AND GAS SAMPLING, PEDIATRIC

5754-7-7-25	Pediatric Nasal Cannulas without Filters, 25 per Case with 7' (2.13m) airflow pressure tube and 7' (2.13m) ETCO ₂ tube.	\$108.00
5755-7-7-25	Pediatric Oral/Nasal Cannula/Holder with 7' (2.13m) Airflow Pressure tube and 7' (2.13m) ETCO ₂ tube without filter.	\$131.00

SALTER LABS® PNEUMOTHERM™ DISPOSABLE

The Salter Labs® PneumoTherm™ is a Diagnostic Thermocouple System, used in conjunction with the ThermiSense® cannula during Sleep Disorder studies. This unique combination accurately places the PneumoTherm™ in an optimal position to sense oral/nasal thermal airflow changes as well as the nasal pressure signal when used with the Salter Labs® BiNaps® transducer or other nasal pressure sensing devices.

5800T	10 Disposable Adult Sensors	\$107.00
5810	Reusable Cable 5 ft. (1.52m)	\$63.00
5811	Reusable Cable 6 in. Keyhole	\$62.00

SLEEPSENSE® PEDIATRIC THERMOCAN CANNULA

A unique type of pediatric nasal pressure cannula designed with a built-in thermal airflow sensor. A more comfortable, disposable solution to measure thermal and pressure airflow. Multi-purpose for simultaneous pressure transducer and ETCO2 sampling.

Reusable Interface Cable Required

SLP15813-25	ThermoCan Cannula Pediatric 7 Ft - Small (case of 25)	\$125.00
SLP15814-25	ThermoCan Cannula Pediatric 7 Ft (case of 25)	\$125.00

SLEEPSENSE® PEDIATRIC THERMOCAN REUSABLE CABLES

Reusable ThermoCan™ Interface Cables easily hook into the sides of ThermoCan™ Cannulas, transmitting the thermal airflow signal to your PSG system.

1 Year Warranty

SLP1474P	ThermoCan Interface Cable Pediatric (Thermistor) for Alice 5	\$90.00
SLP1475P	ThermoCan Interface Cable Pediatric (Thermocouple)/Safety DIN Connectors	\$90.00
SLP1477P	ThermoCan Interface Cable Pediatric (Thermistor)/KeyConnector	\$90.00
SLP1483P	ThermoCan Interface Cable Pediatric (Thermistor) for Alice 6	\$90.00

PRO-TECH® ADULT DISPOSABLE THERMOCOUPLE

Record nasal/oral airflow on one channel. Female 1.5mm connector.

Requires a reusable cable

10 per pack

1242		\$125.00
1238	60" Reusable Cable	\$39.00

BRAEBON® DISPOSABLE AIRFLOW SENSOR

For use during sleep disorders studies as a qualitative measure of respiratory airflow for recording onto a data acquisition system.

Sensors work with any Breath Sensor Cables and 0510BS

Reusable cable is required

0517	24 per Box	\$159.00
------	------------	-----------------

BRAEBON® DISPOSABLE CTherm™ AIRFLOW SENSOR

Works with virtually all nasal cannulas or oral+nasal cannulas. The peel & stick design adheres to the cannula without the need for additional tape. Ideal for infection control when you want to dispose of both cannula and thermistor.

Sensors work with any Breath Sensor Cables and 0510BS

Reusable cable is required

0518	24 per Box	\$165.00
------	------------	-----------------

SLEEPSENSE® ADULT DISPOSABLE THERMOCAN CANNULA

Disposable ThermoCan™ Cannulas are designed with a built-in thermal airflow sensor, making it easier and more comfortable to monitor oral/nasal thermal airflow and nasal pressure at the same time. AASM compliant and Infection Control Friendly.

SLP15807-2-50	ThermoCan Cannula (Adult Nasal 2ft) - Case of 50	\$180.00
SLP15807-50	ThermoCan Cannula (Adult Nasal 7ft) - Case of 50	\$180.00
SLP15807-2-NX-25	ThermoCan Cannula (Adult 2ft with filter connector - Nox-T3 Compatible) - Case of 25	\$140.00
SLP15808-50	ThermoCan Cannula (Adult 7ft with Female Luer - Compumedics Graef/Somte PSGv2) - Case of 50	\$180.00
SLP15808-2-50	ThermoCan Cannula (Adult 2ft with Female Luer - Compumedics Graef/Somte PSGv2) - Case of 50	\$180.00
SLP15818-25	ThermoCan Cannula (Adult Nasal 7ft, Dual Lumen Pressure + ETCO2) - Case of 25	\$110.00

SLEEPSENSE® ADULT THERMOCAN REUSABLE CABLES

Reusable ThermoCan™ Interface Cables easily hook into the sides of ThermoCan™ Cannulas, transmitting the thermal airflow signal to your PSG system.

1 Year Warranty

SLP1475	Reusable ThermoCan Interface Cable (Standard DIN Conn.)	\$90.00
SLP1475S	Reusable ThermoCan Interface Cable 2 Feet (Standard DIN Conn.)	\$90.00
SLP1474	Reusable ThermoCan Interface Cable (Alice 5)	\$90.00
SLP1483	Reusable ThermoCan Interface Cable (Alice 6)	\$90.00
SLP1477	Reusable ThermoCan Interface Cable (Key Connector)	\$90.00
SLP1482	Reusable ThermoCan Interface Cable (Key Connector) 2 Feet - Embla N7000 or Embletta	\$90.00
SLP1478	Reusable ThermoCan Interface Cable (Sandman 20)	\$90.00
SLP1479	Reusable ThermoCan Interface Cable (PDX Compatible, 2 Feet Long)	\$90.00

BREATH SENSOR AIRFLOW THERMISTORS & CABLES

Disposable airflow sensor for recording nasal and oral airflow.

90 Day Warranty

041529	Adult Sensor, 24 per Box (4140118)	\$181.00
041528	Pediatric Sensor, 24 per Box (4140119)	\$181.00
0510BS	1.5mm Connector Cable, 94"	\$155.00
BS1112	Sandman® EXpress™ SD20 Connector Cable, 94"	\$145.00

DYMEDIX AIRFLOW FILTRATION MODULES

The Dymedix family of Airflow Filtration Modules incorporates disposable and reusable PVDF airflow sensors with five choices of modules. Depending on which modules used, sleep technologists are able to identify apnea and hypopnea events, UARS and even snore data while using only one PVDF based TriplePlay™ airflow sensor!

FM1 - Provides one output with smooth sinusoidal waveforms focusing on identification of Apnea and Hypopnea events.

FM2 - Provides one output and uses a more expanded frequency filtering approach by allowing more subtle changes in the airflow signal often associated with flow limitation and UARS to be identified.

FM3 - Incorporates active circuitry that provides apnea, hypopnea, and UARS on one channel and snoring on the other.

FM4 - Designed for users who prefer having two separate channels of airflow waveforms, one for identifying apnea events, and another for identifying hypopnea events.

FM5 - Provides the same functionality as the FM4, but we have added a third snore channel.

iFM - A specialized airflow interface cable that boosts and filters waveforms for more accurate and detailed sensing of airflow activity from neonate and infant patients.

FM1 (APNEA, HYPOPNEA)

FM-100	FM1 - Universal 1.5mm	\$154.00
FM-101	FM1 - Embla®	\$154.00
FM-102	FM1 - Alice® 5	\$209.00
FM-103	FM1 - Alice® 6	\$209.00

FM2 (APNEA, HYPOPNEA, UARS)

FM-200	FM2 - Universal 1.5mm	\$181.50
FM-201	FM2 - Embla®	\$181.50
FM-202	FM2 - Alice® 5	\$209.00
FM-203	FM2 - Alice® 6	\$209.00

FM3 (APNEA, HYPOPNEA, UARS, SNORE)

FM-300	FM3 - Universal 1.5mm	\$209.00
FM-301	FM3 - Embla®	\$209.00
FM-302	FM3 - Alice® 5	\$209.00
FM-303	FM3 - Alice® 6	\$209.00
FM-304	FM3 - Graef®	\$209.00

FM4 (2 AIRFLOW OUTPUTS – APNEA AND HYPOPNEA/UARS)

FM-400	FM4 - Universal 1.5mm	\$209.00
FM-401	FM4 - Embla®	\$209.00
FM-402	FM4 - Alice® 5	\$209.00
FM-404	FM4 - Graef®	\$209.00

FM5 (2 AIRFLOW OUTPUTS – APNEA AND HYPOPNEA/UARS)+ (1 SNORE OUTPUT)

FM-500	FM5 - Universal 1.5mm	\$220.00
FM-501	FM5 - Embla®	\$220.00
FM-502	FM5 - Alice® 5	\$220.00
FM-504	FM5 - Graef®	\$220.00

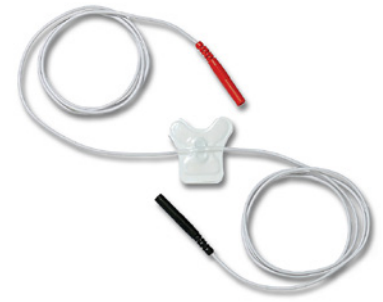

iFM (INFANT FILTRATION MODULE AIRFLOW OUTPUT - APNEA/HYPONNEA/UARS)

FM-410	iFM - Universal 1.5mm	\$209.00
FM-411	iFM - Embla	\$209.00
FM-412	iFM - Alice 5	\$209.00
FM-413	iFM - Alice 6	\$209.00

DYMEDIX TRIPLEPLAY™ PVDF REUSABLE AIRFLOW SENSOR

Responds to Both Pressure and Temperature Changes!

- Very Sensitive
- Accurate Detection of Apnea, Hypopnea, UARS and Snore!
- Oral / Nasal Design
- Extremely Durable and Easy to Clean
- Various Size Options
- AASM Accepted

Designed for use with a Dymedix TriplePlay™ Airflow Filtration Modules

1 Year Warranty

TP-001	Reusable Sensor, Infant	\$66.00
TP-002	Reusable Sensor, Pediatric	\$66.00
TP-003	Reusable Sensor, Adult Small	\$66.00
TP-004	Reusable Sensor, Adult Medium	\$66.00

DYMEDIX TRIPLEPLAY™ PVDF DISPOSABLE AIRFLOW SENSOR

Think Outside of the Nose....

- Extremely Sensitive
- Responds to Changes In Both Pressure And Temperature
- Accurate Detection of Apnea, Hypopnea, UARS and Snore!
- Oral / Nasal Design
- Soft And Flexible, Fits Well Under A CPAP Mask
- Perfect For HST
- AASM Accepted

Designed for use with a Dymedix TriplePlay™ Airflow Filtration Module

TP-011-P	Adult Small Sensor, 10 per Pack	\$104.50
TP-012-P	Adult Small Sensor, 50 per Pack	\$522.50
TP-013-P	Adult Medium Sensor, 10 per Pack	\$104.50
TP-014-P	Adult Medium Sensor, 50 per Pack	\$522.50
TP-015-P	Adult Large Sensor, 10 per Pack	\$104.50
TP-016-P	Adult Large Sensor, 50 per Pack	\$522.50
TP-007-P	Infant Sensor, 10 per Pack	\$104.50
TP-008-P	Infant Sensor, 50 per Pack	\$522.50
TP-009-P	Pediatric Sensor, 10 per Pack	\$104.50
TP-010-P	Pediatric Sensor, 50 per Pack	\$522.50

DYMEDIX TRIPLEPLAY™ PVDF DISPOSABLE NEONATAL AIRFLOW SENSOR

- Specifically Designed By A Renowned Pediatric Sleep Physician
- Responds To Changes In Both Pressure And Temperature
- Accurately Detects Nasal Airflow
- Comfortable Design Prevents Skin Irritation

Designed for use with a Dymedix TriplePlay™ Airflow Filtration Modules

TP-005-P	Disposable Neonatal Airflow Sensors - 10 Pack	\$165.00
TP-006-P	Disposable Neonatal Airflow Sensors - 50 Pack	\$825.00

DYMEDIX COMPLETEPLUS KITS

A Complete Collection of Disposable Electrodes and Sensors for Single Patient PSG Testing.

CompletePlus
DISPOSABLE PSG SETUP KIT

Contents:

Gold Cup EEG Electrodes, Adhesive
Electrodes for EOG, Ground, Reference, Triple
Electrode Patch for Chin (Submentalis) EMG,
Dual EMG Patch for Leg (Anterior Tibialis)
EMG, Adhesive Electrodes for ECG, Nasal/
Oral Airflow*, Snore Sensor*, Thoracic and
Abdominal Respiratory Effort*

*Requires a CompletePlus Interface Kit

- A Perfect Infection Control Solution for Sleep Labs
- Say Goodbye to Harsh Chemical Soaking and Cleaning of Sensors
- Save Technologist Time and Cleaning Expense
- Much Easier to Track and Maintain Sensor Inventory
- Sold Individually or 20 and 40 Kit Boxes

NEW!

Visit dymedix.com/completeplus-kits/ to see system options, part numbers, and descriptions.

DYMEDIX REUSABLE PVDF SNORE SENSOR

- Very Sensitive to Vibration
- Easy to Clean
- Can be taped to a variety of placements

SE-400	Snore Sensor, Reusable	\$66.00
SE-310	Snore Interface Cable, Universal	\$137.50
SE-311	Snore Interface Cable, Alice 6	\$137.50

DYMEDIX ACCUSNORE™ DISPOSABLE SNORE SENSOR

- The First and Only Disposable Snore Sensor
- Adhesive Back, Stays in Place
- Very sensitive to Vibration
- Perfect for HST
- Multiple placement options

SE-300-P	Snore Sensor, Disposable, 10 pk	\$104.50
SE-301-P	Snore Sensor, Disposable, 50 pk	\$522.50
SE-310	Reusable Interface Cable, Snore	\$137.50

SLEEPMATE® SNORE SENSORS

Attaches to the neck and records vibration associated with snoring behavior using Piezo technology. Sensor: diameter = 18mm; thickness = 3mm; wire length = 71

- Fully encapsulated overmold design for unmatched durability.
- Smooth surface provides more patient comfort and ease of cleaning
- Low profile
- Provides high sensitivity for accurate readings
- Moisture resistant

6 Month Warranty

SM1250	Female 1.5mm Connector	\$128.00
812210-000	23" Wire - Keyhole Connector	\$139.00
1420605	78" Wire - Keyhole (Embla and Alice 6)	\$128.00

SLEEPMATE® SNORE MICROPHONES

Attaches to the neck and records sounds associated with snoring. Presents output in analog AC voltage. Microphone: diameter = 1.5cm; height = 1.0cm; wire length = 83".

6 Month Warranty

SM1200	Female 1.5mm Connector	\$128.00
SM1258	Alice 3@ Connector	\$128.00
SM1261	Alice 4@ Connector	\$149.00

PRO-TECH® SNORE MICROPHONE

Attaches to the neck and records sounds associated with snoring. Has a clean baseline.

6 Month Warranty

1078753	Keyhole, Alice 6@	\$140.00
1716	Female 1.5mm Connector, Alice 5@ Compatible	\$140.00

PRO-TECH® SNORE SENSORS

- Increased sensitivity
- Extensive and flexible placement range
- Lightweight
- Connects to AC jack box
- No batteries required

6 Month Warranty

1696	Female 1.5mm Connector	\$130.00
1718	Embletta™ Keyhole Connector, 32" length	\$130.00

SNORE SENSORES, MICROPHONES

BRAEBON ULTIMA® SNORE SENSOR

Light-weight sensor, easily tapes to the neck. Connects directly to the AC head box. Female 1.5mm connector.

9 Month Warranty

0542

\$145.00

SLEEPSENSE® SMALL SNORE MICROPHONE

This NEW Snore Microphone is designed with a smaller face and is lightweight and easy to apply on a variety of patient sizes. Smooth contours and high friction material minimizes shifting during a study.

6 Month Warranty

SLP1216

Female 1.5mm Connector

\$145.00

SLEEPSENSE® SNORE MICROPHONES

Provides clear, artifact-free qualitative indication of snoring and respiratory sounds. Attaches to the neck and records sounds associated with snoring.

6 Month Warranty

SLP1200

Female 1.5mm Connector

\$145.00

BRAEBON Q-SNOR™

Q-Snor™ Snoring Decibel sensor will sense the level of patient snoring and provide you with a continuous quantitative value so you know exactly how loud your patients are snoring during the night. Digital output on reports measured in decibels.

**6 Month Warranty On The Microphone
1 Year Warranty On The Interface Box**

0546

Kit Includes One Interface DC Output and One Microphone with Lemo Connector

\$799.00

0544

Q-Snor™ Interface DC Output

\$495.00

0545

Q-Snor™ Replacement Microphone with Lemo Connector

\$349.00

BRAEBON ULTIMA® SNORE MICROPHONE

Battery powered. Records actual sound with enhanced sensitivity. Placed on forehead.

6 Month Warranty

0540

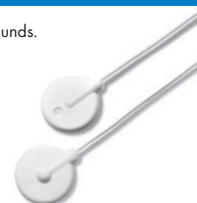

Female 1.5mm Connector

\$160.00

SLEEPSENSE® SNORE SENSORS

Provide clear, artifact-free qualitative indication of snoring and respiratory sounds. Wire length = 82 inches

6 Month Warranty

PRO-TECH® BODY POSITION SENSOR

Sleep position indicators for a wide range of sleep testing systems.

1 Year Warranty

1706	Alice 3® Connector	\$280.00
1694	Alice 5® Connector	\$280.00
1078758	Alice 6® Connector	\$280.00
1719	Sandman® EXpress™ SD20	\$240.00
1692	Bio-logic® Netlink, 249 Connector	\$205.00
1737	Bio-logic® Traveler, USB Mini-Connector	\$215.00
1676	Flaga™ Compatible Sensor	\$200.00

BRAEBON ULTIMA® BODY POSITION SENSOR

Smallest body position sensor on the market. Comfortable sensor fits both children and adults. Records 5 body positions. All are DC.

1 Year Warranty

0530	Male RCA Stellate connector, DC only (0-1 volt)	\$250.00
0530M	Female 1/8" connector (3.5mm phono). Sandman® SD32 (Elite), Grass®, XLTEK, Sensormedics Connector	\$250.00
0532-1	1.5mm Touch-Proof, DC 0-1 Volt, Most PSG Systems are capable of DC using TP connectors into the headbox	\$250.00
0531	MediPalm® connector	\$250.00
0533	Alice 5® DC with 1.5mm Touch-Proof Connectors	\$250.00

SLEEPMATE® BODY POSITION SENSOR

Designed to record 5 body positions. The AC model is used for polygraph recorders. The DC model is used for computer inputs. Velcro® tab mounts to either effort belt or included belt.

9 Month Warranty

SM1572	Cadwell® Easy II Connector	\$265.00
SM1575	Sandman® EXpress™ 3.5mm	\$285.00

HORIZONTAL SLEEPSENSE® BODY POSITION SENSORS

These body position sensors are very flat and extremely durable. Horizontal Velcro® tabs provide better body attachment and ensure alignment of sensor and body axis. Includes one sensor and one large 1" buckle band.

1 Year Warranty

SLP1561-KIT	AC Kit/ 1.5mm Connectors, Bipolar pattern: 0.5 mV – 1mV	\$280.00
SLP1561	AC Sensor/ 1.5mm Connectors, Bipolar pattern: 0.5 mV – 1mV	\$270.00
SLP1564V2-KIT	DC Kit/ 1.5mm Connectors, DC Voltage Output	\$280.00
SLP1564V2	DC Sensor/ 1.5mm Connectors, DC Voltage Output	\$270.00
SLP1569-KIT	Embla® A10 Sensor Kit DC	\$280.00
SLP1569	Embla® A10 Sensor	\$270.00
SLP1571-KIT	Embletta™/M Drive	\$280.00
SLP1571	Embletta™/M Drive	\$270.00
SLP1550	Body Position Band Only	\$17.50

BODY POSITION AND LIMB MOVEMENT SENSORS

VERTICAL SLEEPSENSE® BODY POSITION SENSOR

These DC body position sensors were designed with Vertical Velcro® tabs so you can apply it directly on Effort or RIP belts.

1 Year Warranty

SLP1575-KIT	DC Output, 1/8" Male Plug	\$280.00
SLP1575	DC Voltage Output Sensor, 1/8" Male Plug	\$270.00
SLP1562-KIT	DC Body Position Sensor Kit/ Compumedics Graef Compatible	\$280.00
SLP1562	DC Body Position Sensor / Compumedics Graef Compatible	\$270.00
SLP1584-KIT	Alice 6® DC Kit	\$280.00
SLP1584	Alice 6® DC Sensor	\$270.00
SLP1585-KIT	XLTEK Kit	\$280.00
SLP1585	XLTEK Sensor	\$270.00
SLP1567-KIT	Alice 5® DC Kit	\$280.00

SLP1563-KIT	Compumedics™ E DC Kit	\$280.00
SLP1563	Compumedics™ E Sensor	\$270.00

SLEEPSENSE® LIMB MOVEMENT SENSORS

Provides a clear, artifact qualitative indication of movements. Optimal positioning on the tendons ensures exceptional sensitivity. 1.5mm connector, includes one band and one sensor.

1 Year Warranty

SLP1770-KIT	Limb Movement Sensor Kit/ 1.5mm Connectors. Kit Includes 1 Sensor and 2 bands (1-Yr Warranty)	\$180.00
SLP1772-KIT	Limb Movement Sensor Kit/ 1.5mm Connectors. Kit Includes 2 Sensors and 2 bands (1-Yr Warranty)	\$340.00
SLP1770	Piezo Limb Movement Sensor/ 1.5mm Connectors (1-Yr Warranty)	\$160.00
SLP1777-KIT	Actimeter/PLM Sensor Kit / Alice 6 Compatible - Kit includes: 1x 1777 sensor and 1x 1343 Infant Stretch Band	\$160.00
SLP1777	Piezo Limb Movement Sensor/Alice 6 Connector (1-Yr Warranty)	\$150.00
SLP1774	Alice 5 Compatible Actimeter/PLM Sensor	\$150.00
SLP1771	Piezo Limb Movement Sensor/Keyhole Connector (1-Yr Warranty)	\$160.00
SLP1726	Y Splitter Cable. For use with Item #SLP1771 (6-Mo Warranty)	\$75.00

SLEEPMATE® MOVING IMAGES™ MOTION DETECTOR KIT

Records movement activity. Designed for wrist or ankle. The kit includes two piezo crystal sensors and two elastic bands.

9 Month Warranty

SM1715	Female 1.5mm Kit, 2 Sensors	\$290.00
SM1711	Female 1.5mm Kit, 1 Sensor	\$169.00
SM1730	Replacement Elastic Bands (One Pair)	\$15.50
SM1770	Additional QD Sensor	\$159.00

PRO-TECH® PERIODIC LIMB MOVEMENT SENSOR

Quickly and easily straps to patients leg or arm. The sensor provides clean and reliable tracings. Multiple sensors may be connected together in order to combine PLM waveforms onto a single recording channel. Product is latex free. Female 1.5mm touch-proof stacking safety connector.

6 Month Warranty

1698	PLM Sensor Kit (1 Sensor, 1 Large Strap, 1 Small Strap)	\$185.00
1699	PLM Sensor Kit (2 Sensors, 2 Large Straps, 2 Small Straps)	\$325.00
1697	PLM Sensor Only	\$140.00
1689	Large PLM Strap 15.5"	\$35.00
1690	Small PLM Strap 8.25"	\$30.00
1078752	Piezo PLM Alice 6®	\$140.00

BRAEBON EKG ELIMINATOR

Eliminate EKG artifact during bilateral EMG recordings. Compatible with virtually all sleep systems. No batteries needed.

6 Month Warranty

0600-1	\$99.00

PRESSURE TRANSDUCERS AND CANNULAS

PRO-TECH® PRO-FLOW™ PLUS MULTI-PURPOSE™ SLEEP CANNULAS/NASAL

The Pro-Fow™ MultiPurpose™ cannula is for the use in simultaneous monitoring of patient airflow and sampling of gas through both nasal prongs at the same time. The Pro-Flow™ Multi-Purpose™ cannula is very similar to a typical oxygen cannula, but instead of having one connector, it has two. One connector has built-in filter that attaches to airflow pressure sensor/monitor. The other connector attaches to a gas sampling device or to a gas delivery device.

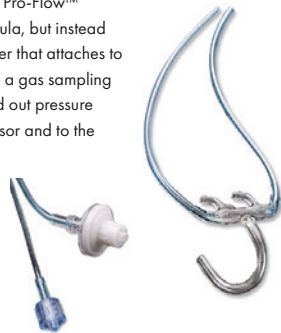

30 per case

1350	Adult	\$150.00
1346	Pediatric	\$210.00
1348	Pediatric Small	\$240.00

PRO-TECH® PRO-FLOW™ NASAL/ORAL MULTI-PURPOSE™ CANNULAS

The Pro-Fow™ MultiPurpose™ cannula is for the use in simultaneous monitoring of patient airflow and sampling of gas through both nasal prongs at the same time. The Pro-Flow™ Multi-Purpose™ cannula is very similar to a typical oxygen cannula, but instead of having one connector, has two. One connector has built in filter that attaches to airflow pressure sensor/monitor. The other connector attaches to a gas sampling device or to a gas delivery device. As the patient breathes in and out pressure waves and gas travel through the tubing lines to the pressure sensor and to the sampling device or the patient for gas delivery.

30 per case

1373	Adult	\$240.00
1366	Pediatric	\$300.00

PRO-TECH® PRO-FLOW™ SPECIALTY CANNULAS

Sold by the case

1306-1	Adult, 8 1/4", 60 per Case 8.25"	\$180.00
1334-1	Adult, Nasal/Oral, 8.25", 30 per Case, No Filter	\$163.50

\$179.00

BRAEBON PT1 ULTIMA® AIRFLOW DIFFERENTIAL PRESSURE TRANSDUCER

For use in accurately indicating respiratory airflow on a wide variety of polysomnographic recording systems. Easier to use with fewer cables and more features. Raw airflow, filtered airflow, and snoring signals. Up to 3 outputs. Can be used with CPAP. Kits include 5 cannulas.

1 Year Warranty

0580

Standard Transducer Kit

\$395.00

BRAEBON PT2 ULTIMA® DUAL PRESSURE TRANSDUCER

Can be used to separate nasal and oral into two separate channels. Raw airflow, filtered airflow, and snoring signals. Up to 6 outputs. Can be calibrated to use with esophageal balloon catheters. Includes 4 cannulas.

1 Year Warranty

0580D

Ultima® Dual Pressure Transducer™ Kit

\$495.00

0580A

Alice 3®/Alice 4® Transducer Kit

\$495.00

PNEUMO FLOW™ SENSOR KIT

For use with CPAP. Permits simultaneous recording of both airflow and CPAP pressure when the device is connected to a pressure transducer and data acquisition system.

0310

\$195.00

BRAEBON ULTIMA® PES STARTER KIT

Detects and amplifies airflow pressure changes for recording onto a data acquisition system using either esophageal catheters or nasal cannulas. Comes calibrated and includes 4 adult cannulas and 2 balloon catheters.

1 Year Warranty

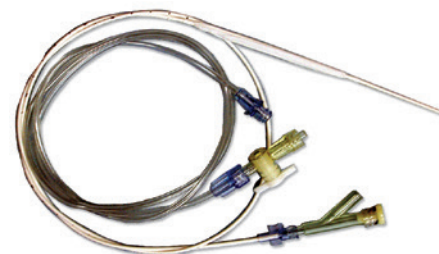

0580PES

\$795.00

ESOPHAGEAL BALLOON CATHETER

Ideal for monitoring ventilator patients, sleep apnea patients, and for measuring lung compliance.

SLEEPSENSE® AC PRESSURE FLOW SENSOR

The SleepSense® AC Pressure + Snore Sensor is equipped with two outputs to monitor snore & pressure simultaneously. With its very small internal volume, the output signal exactly follows pressure trends even with a small lumen cannula.

1 Year Warranty

SLP14830	AC Pressure + Snore Sensor/ 1.5mm Connectors	\$270.00
SLP14830-Kit	AC Pressure + Snore Sensor Kit/ 1.5mm Connectors. Kit includes a 5-pack of Adult Nasal Cannulas	\$280.00

SLEEPSENSE® AC PRESSURE PLUS

The AC Pressure Sensor Plus is equipped with adjustments over 3 sensitivity levels for both snore and flow. This sensor is great for use with CPAP titration.

1 Year Warranty

SLP14831	AC Pressure Plus (Pressure + Snore)/ 1.5mm Connectors	\$290.00
SLP14831-Kit	AC Pressure Plus (Pressure + Snore)/ 1.5mm Connectors. Kit includes a 5-pack of Adult Nasal Cannulas	\$300.00
SLP14833	AC Pressure Plus (Pressure + Snore)/ Alice 5	\$290.00

ADAPTERS

SLP14807	Luer to O2 Adapter (5-pack)	\$15.75
SLP14808	Male to male Luer Adapter (5-pack)	\$15.75
SLP15809-25	Cannula Disposable Filter (25-pack)	\$20.00
SLP14810	Cannula Adapter (3-pack)	\$15.75
SLP15815	Female to Female Luer Lock Connector (5 Pack)	\$15.75

SLEEPSENSE® ADULT PRESSURE MONITORING CANNULAS

Use with any SleepSense Pressure Sensor, Designed for patient comfort, Low cost per use.

SLP15805-50	7' Adult Nasal Pressure Cannula - Case of 50	\$130.00
SLP15805-2-50	2' Adult Nasal Pressure Cannula - Case of 50	\$130.00
SLP15805-FT-50	7' Adult Nasal Pressure Cannula with Filter - Case of 50	\$160.00
SLP15805-2-FT-50	2' Adult Nasal Pressure Cannula with Filter - Case of 50	\$160.00
SLP15805-2-NX-25	2' Adult Nasal Cannula with filter connector / Nox-T3 Compatible - Case of 25	\$70.00

SLEEPSENSE® ADULT PRESSURE MONITORING CANNULAS

Use with any SleepSense Pressure Sensor, Designed for patient comfort, Low cost per use.

SLP15802-50	7' Adult Nasal + Oral Pressure Cannula - Case of 50	\$170.00
SLP15802-2-50	2' Adult Nasal + Oral Pressure Cannula - Case of 50	\$170.00
SLP15802-FT-50	7' Adult Nasal + Oral Pressure Cannula with Filter - Case of 50	\$200.00
SLP15802-2-FT-50	2' Adult Nasal + Oral Pressure Cannula with Filter - Case of 50	\$200.00

SLEEPSENSE® PEDIATRIC PRESSURE MONITORING CANNULAS

Use with any SleepSense Pressure Sensor, Designed for patient comfort, Low cost per use.

SLP15804-50	7' Pediatric Nasal Pressure Cannula - Case of 50	\$130.00
SLP15804-FT-50	7' Pediatric Nasal Pressure Cannula with Filter - Case of 50	\$160.00

PRESSURE TRANSDUCERS AND CANNULAS

BINAPS® PRESSURE AND SNORE TRANSDUCER

The Salter Labs® BiNAPS® is a diagnostic pressure transducer device for use during sleep disorder studies. It will deliver an accurate signal to the polygraph input box via Salter Labs® Sleep Diagnostic cannulas.

- Detect Airflow Pressure and Snore changes
- Hi/Lo switches to optimize signal levels
- No battery required
- Compact and lightweight design
- Integrated circuit tester/indicator for lead verification

LIFETIME WARRANTY: Not using Salter Labs® cannulas will void the warranty.

5500-1	BiNAPS® Transducer kit containing one (1) Airflow Pressure/Snore transducer and cannula starter kit	\$279.00
S1001	Microbial Filter, 25 per Case	\$23.95
5520A5	BiNAPS® Adapter, Alice 5® Connector	\$21.50

SLEEP DIAGNOSTIC CANNULA: NASAL ONLY

Salter-Style® series of Sleep Diagnostic cannulas, deliver clear signals for real time pressure/snore monitoring. Smaller, lighter face piece and headset tubing assure a comfortable, secure anatomical fit while providing optimal signal integrity.

Sold by the case, 25 per case

5011-25	Adult Nasal only with filter, 7' (2.13m) tube	\$84.00
5012-25	Adult Nasal without filter, with male Luer Lok® connector	\$74.00
5012-1-25	Adult Nasal without filter, 1' (0.30m) tube, with male Luer Lok® connector	\$70.00
5021-25	Pediatric Nasal only with filter, 7' (2.13m) tube	\$94.00
5022-25	Pediatric Nasal without filter, with male Luer Lok® connector	\$82.00

SLEEP DIAGNOSTIC CANNULA: ORAL/NASAL PRESSURE & SNORE

Salter-Style® series of Sleep Diagnostic cannulas, deliver clear signals for real time pressure/snore monitoring. Smaller, lighter face piece and headset tubing assure a comfortable secure anatomical fit while providing optimal signal integrity. Oral trunk may be trimmed for optimal positioning.

Sold by the case, 25 per case

5005-25	Adult Oral/Nasal with filter, 7' (2.13m) tube	\$118.00
5005-2-25	Adult Oral/Nasal with 2' (0.61m) tube	\$112.00
5006-25	Adult Oral/Nasal without filter, 7' (2.13m) tube with male Luer Lok® connector	\$100.00
5006-1-25	Adult Oral/Nasal with 1' (0.30m) tube	\$97.00
5006-2-25	Adult Oral/Nasal with 2' (0.61m) tube	\$95.00
5037-25	Pediatric Oral/Nasal with filter, 7' (2.13m) tube	\$149.00
5038-25	Pediatric Oral/Nasal without filter, with male Luer Lok® connector	\$124.00
5036-25	Small Pediatric without filter, with male Luer Lok® connector	\$126.00

SLEEP DIAGNOSTIC CANNULA: ORAL/NASAL PRESSURE & SNORE

- Divided face piece and trunk
- Trunk may be trimmed for optimal positioning

Sold by the case, 25 per case

5003-25	Adult Dual Oral/Nasal with filter, 7' (2.13m) tube	\$127.00
5004-25	Adult Dual Oral/Nasal without filter, with male Luer Lok® connector	\$71.00
5023-25	Pediatric Dual, Oral/Nasal with filter, 7' (2.13m) tube	\$146.00
5024-25	Pediatric Dual, Oral/Nasal without filter, with male Luer Lok® connector	\$105.00

SLEEP DIAGNOSTIC CANNULA: ORAL/NASAL, PRESSURE & SNORE

With non-ferrous guide wire for positioning, no trimming necessary.

Sold by the case, 25 per case

5001-25	Adult Oral/Nasal with filter, 7' (2.13m) tube	\$143.00
5002-25	Adult Oral/Nasal without filter, with male Luer Lok® connector	\$74.00

SLEEP DIAGNOSTIC CANNULA: ORAL/NASAL, DUAL TRUNK

Dual trunk may be trimmed for optimal positioning.

Sold by the case, 25 per case

5015-25	Adult Dual, Oral/Nasal with filter, 7' (2.13m) tube	\$116.00
5016-25	Adult Dual, Oral/Nasal without filter, with male Luer Lok® connector	\$103.00

SLEEP DIAGNOSTIC CANNULA: ORAL/NASAL, DUAL TRUNK WITH GUIDE WIRE

Dual trunk with non-ferrous guide wire, no trimming necessary.

Sold by the case, 25 per case

5013-25	Adult Dual, Oral/Nasal with filter, 7' (2.13m) tube	\$134.00
5014-25	Same as above without filter, with male Luer Lok® connector	\$106.00
5033-25	Pediatric Dual, Oral/Nasal with filter, 7' (2.13m) tube	\$129.00

SLEEP DIAGNOSTIC CANNULA: NASAL ONLY PRESSURE AND GAS SAMPLING

Combined Airflow Pressure and Gas Sampling.

Sold by the case, 25 per case

5041-25	Adult Nasal only with filter, 7' (2.13m) tube	\$79.00
5042-25	Adult Nasal only without filter, with male Luer Lok® connector	\$67.00
5049-25	Pediatric Nasal only with filter, 7' (2.13m) tube	\$124.00
5050-25	Pediatric Nasal only without filter, with male Luer Lok® connector	\$112.00
5053-25	Small Pediatric Nasal only with filter, 7' (2.13m) tube	\$123.00
5054-25	Small Pediatric Nasal only without filter, with male Luer Lok® connector	\$112.00

SLEEP DIAGNOSTIC CANNULA: DIVIDED NASAL ONLY WITH PRESSURE AND GAS SAMPLING

Combined Airflow Pressure and Snore monitoring with Gas Sampling (End Tidal CO₂).

Sold by the case, 25 per case

5045-25	Adult Nasal only with filter, 7' (2.13m) tube	\$87.00
5027-25	Pediatric Nasal only with filter, 7' (2.13m) tube	\$124.00
5028-25	Pediatric Nasal only without filter, with male Luer Lok® connector	\$112.00
5017-25	Adult Nasal Divided Cannula with One 7' Airflow Pressure Tube and One 7' Gas Sampling Tube, Male/Female Luer Lok® Connector without Filter, 25 per Case	\$78.00
5018-25	Adult Nasal Divided Cannula with One 7' Airflow Pressure Tube and One 7' Gas Sampling tube with Hydrophobic/Anti-Microbial Filter, 25 per Case	\$89.00

SLEEP DIAGNOSTIC CANNULA: ORAL/NASAL, PRESSURE AND GAS SAMPLING

Combined Airflow Pressure and Gas Sampling.

Sold by the case, 25 per case

5043-25	Adult Dual Oral/Nasal with filter, 7' (2.13m) tube	\$144.00
5044-25	Adult Dual Oral/Nasal without filter, with male Luer Lok® connector	\$117.00
5051-25	Pediatric Oral/Nasal with filter, 7' (2.13m) tube	\$144.00
5052-25	Pediatric Oral/Nasal without filter, with male Luer Lok® connector	\$119.00
5055-25	Small Pediatric Oral/Nasal with filter, 7' (2.13m) tube	\$144.00
5056-25	Small Pediatric Oral/Nasal without filter, with male Luer Lok® connector	\$116.00

SLEEP DIAGNOSTIC CANNULA: ORAL/NASAL, PRESSURE & GAS

- Combined Airflow Pressure and Gas Sampling (End Tidal CO₂) monitoring
- Divided face piece to separate Gas Sampling from pressure signal
- Malleable dual lumen trunk with non-ferrous guide wire for positioning, no trimming necessary

Sold by the case

5047-25	Adult Oral/Nasal with filter, 7' (2.13m) tube	\$155.00
5009-25	Pediatric Oral/Nasal with filter, 7' (2.13m) tube	\$159.00
5010-25	Same as above without filter, with male Luer Lok® connector	\$107.00

SLEEP DIAGNOSTIC CANNULA: SEPARATE ORAL AND NASAL

- Airflow Pressure and Snore monitoring
- Two pressure lines
- Divided face piece separates Oral and Nasal Pressure readings
- Two transducers needed
- Available with optional single use .2 micron hydrophobic anti-microbial filter or male Luer Lok® connector

Sold By The Case, 25 Per Case

5032-25	Adult Oral/Nasal without filter, with male Luer Lok® connector	\$85.00
5008-25	Adult Divided Face Piece with Oral/Nasal Gas Sampling from One Side and Oral/Nasal Pressure/Snore Monitoring from the Other Side with a Non-Ferrous Wire in the Dual Lumen Oral Trunk, Two 7' Tubes and Hydrophobic Filter, 25 per Case	\$146.50

SALTER LABS® HYDROPHOBIC ANTI-MICROBIAL FILTERS

NEUROTRONICS SENSOR STARTER KITS

Neurotronics Sensors are designed, tested, and produced in-house. Our engineering and management teams have decades of experience in sleep diagnostic equipment and software. From conception to production, our sensors are built with quality and precision in mind. We believe sleep professionals and patients deserve it.

T81215	Starter Kit for PSG - S58317 (Airflow), S53107 (Abd), S21576 (Thx), S34815 (RIP Belt x 2), T80307 (Snore), S25223 (Cannulas x 10)	\$995.00
--------	---	-----------------

T23131	Starter Kit for Nomad - S21109 (Airflow), S50986 (Abd), S53955 (Thx), S34815 (RIP Belt x 2), S50494 (Cannulas x 10), S29705 (SpO2).	\$1,075.00
--------	---	-------------------

NEUROTRONICS RESPIRATORY INDUCTIVE PLETHYSMOGRAPHY

The Neurotronics RIP Sensor uses respiratory inductance plethysmography to output a waveform corresponding to the patient's respiratory effort. The RIP driver connects to the host device as well as an elastic belt worn by the patient.

Interface Cables

S75163	Abdomen, 1.5mm DIN, 8"	\$200.00

NEUROTRONICS NASAL/ORAL AIRFLOW SENSORS

The Neurotronics Thermocouple Sensor uses thermocouple wire joined together to form sensing elements. Thermocouple junctions under each nostril and in front of the mouth output a signal which corresponds to the patient's airflow.

S60012	Thermocouple Sensor w/ Hanger, 1.5mm DIN, 23.6"	\$135.00
S53260	Thermocouple Sensor w/ Hanger, 1.5mm DIN, 47"	\$135.00
S58317	Thermocouple Sensor w/ Hanger, 1.5mm DIN, 79"	\$135.00
S21109	Thermocouple Sensor w/ Hanger, 249 Keyhole, 23.6"	\$135.00
S47581	Thermocouple Sensor w/ Hanger, 249 Keyhole, 79"	\$135.00
S29604	Thermocouple Sensor, 1.5mm DIN, 23.6"	\$125.00
S15302	Thermocouple Sensor, 1.5mm DIN, 47"	\$125.00
S28085	Thermocouple Sensor, 1.5mm DIN, 79"	\$125.00
S40050	Thermocouple Sensor, 249 Keyhole, 23.6"	\$125.00
S40661	Thermocouple Sensor, 249 Keyhole, 79"	\$125.00

NEUROTRONICS BODY POSITION SENSORS

The Neurotronics Body Position Sensor uses a 3-axis accelerometer to track the patient's body orientation, outputting a voltage which corresponds to one of five positions (sitting/upright, supine, prone, left-side, right-side).

S29724	1.5mm DIN, 79"	\$260.00
S40712	249 Keyhole, 79"	\$260.00
S17926	3.5mm Mono, 79"	\$260.00

NEUROTRONICS LIMB MOVEMENT SENSORS

The Neurotronics Piezo Limb Movement Sensor uses an embedded piezo sensing element to detect limb movement, outputting a corresponding signal. The Piezo Sensor can be placed on the skin or worn in the included heel strap.

T25142	1.5mm DIN, 79"	\$150.00
T20774	1.5mm DIN, 118"	\$160.00
T23571	249 Keyhole, 79"	\$150.00
T69326	249 Keyhole, 118"	\$160.00
T58443	Replacement Heel Straps (One Pair)	\$50.00

NEUROTRONICS SNORE SENSORS

The Neurotronics Piezo Snore Sensor uses an embedded piezo sensing element to detect snoring vibrations, outputting a corresponding signal.

T24488	1.5mm DIN, 23.6"	\$135.00
T80307	1.5mm DIN, 79"	\$135.00
T91246	249 Keyhole, 23.6"	\$135.00
T71513	249 Keyhole, 79"	\$135.00

SLEEP DIAGNOSTIC CANNULAS

LOW-COST ORAL/NASAL CANNULA WITH MALE LUER LOCK

7' clear tubing, Oral/Nasal, with male Luer Lok connector.

DM6100	Individual	\$3.90

HOME SLEEP TESTING

BRAEBON MEDIBYTE® SCREENER KITS

The MediByte® screener is a compact ambulatory device, designed to efficiently aid the detection of a number of sleep disorders. Data collection can occur in the patients natural surroundings, over a more extensive period than might otherwise be practical in a sleep lab.

1 Year Warranty ON PARTS AND LABOR

- Includes USB Cable to Upload Data
- RIP Technology
- 12 Channel
- Small, Yet Powerful Multifunction Tool
- A Single ½ AA Battery Lasts up to 48 Hours
- Useful for detection of Obstructive Sleep Apnea (OSA), Hypoxia, Bruxism, Restless Leg Syndrome (RLS), Periodic Leg Movement Syndrome (PLMS) and Cardiac Arrhythmias
- Cost Efficient
- Includes Software with Complete Edit and Printing Capabilities, Graphic Summary, Sleep Report Generation and Assisted Scoring.
- Records Up to 8 Hours of Physiological Signals, (i.e.) Flow Snoring (Volume), Snoring (Audio), Blood Oxygen Saturation (SpO₂), Pulse Rate, Chest Effort, Abdominal Effort and Body Position

MB8K	Start Kit Includes: 1 EKG Illuminator, 6 Patient Kits (Includes 1 ½ AA Lithium Battery, 1 26" Cannula, 1 Roll of Micropore™ Tape, Finger Wraps, Electrodes and Prep Pads)	\$4,495.00
8115-25	Patient Kit Includes; Supplies for 25 Recordings: Nonin® Flexiwrap Probe Tape, 3.6 v ½ AA Lithium Battery, 8589 Oronasal Cannula.	\$373.75
	Also compatible with MediByte® Jr.	
8120-25	Patient Kit Includes; Supplies for 25 Recordings: Nonin® Flexiwrap Probe Tape, 3.6 v ½ AA Lithium Battery, 8589 Oronasal Cannula, Micropore™ Tape	\$398.75
	Also compatible with MediByte® Jr.	
8130-25	Patient Kit Includes; Supplies for 25 Recordings: Nonin® Flexiwrap Probe Tape, 3.6 v ½ AA Lithium Battery, 8589 Oronasal Cannula, Micropore™ Tape, Electrodes, Prep Pads	\$448.75

BRAEBON MEDIBYTE® JR™ SCREENER KITS

The MediByte® Jr™ Home Sleep Testing (HST) device provides simple, cost effective and reliable screening for sleep apnea. Constructed of smooth nylon/plastic with an extra-strength LEMO™ connector, the MediByte® was designed for durability. Weighing less than three ounces, it is ideal for both adult and pediatric studies. Side wings attach the unit to the chest effort belt so that a holding vest or pouch is not required. On-board oximetry and internal pressure sensor eliminate external transducers.

1 Year Warranty ON PARTS AND LABOR • RIP BELT NOW INCLUDED

- 6 Channel, Level 4/3 HST Recorder
- Includes USB cable for data downloads
- Includes Setup and Download Wizard, full disclosure, assisted scoring and manual scoring, event editing and HST report
- A single ½ AA Lithium battery lasts up to 48 hours
- 128 MB internal memory

MBJRK	Includes Software, USB Cable with Software, Carrying Case, 1 Patient Kit 8120 includes; Nonin® Flexiwrap Probe Tape, 3.6 V ½ AA Lithium Battery, Oronasal Cannula and Micropore™ Tape, Includes 8572 RIP Belt	\$2,750.00
8572	RIP Belt	\$245.00

MEDIBYTE & MEDIBYTE JR RECHARGEABLE BATTERY KIT

The new MediByte rechargeable battery kit significantly reduces the per study cost of MediByte / Jr recordings. Battery costs are now reduced to pennies per study and each battery is rated for about 300 uses. Use with patient kit Model 8110 (Oronasal Cannula & Tape). Suitable for one nights studies.

0444	Rechargeable Battery Kit: Contains 2 Li-Ion 14250 Batteries (0412-2) and 1 Battery Charger (0420)	\$85.00
0412-2	2 Li-Ion 14250 Batteries	\$30.00
0420	Battery Charger	\$55.00
8110-25	MediByte / Jr Patient Kit - Supplies for 25 recordings: 8597 Oronasal Cannula, Micropore tape (No Batteries)	\$175.00

BRAEBON PUREFLOW™ ORONASAL CANNULA

Adult single channel nasal/oral cannula with male Luer Lok®. Single lumen, single use, detachable filter included. The evolution of OroNasal pressure sensing technology. Works with any Pressure Transducer.

Latex free | Patent Pending | 50 per case

CLEANCASERX DISPOSABLE/SINGLE PATIENT USE HST CASE

Follow AASM HST COVID-19 guidance for using 'single use, fully disposable' testing components.

- Reduce the risk of cross-contamination between HST studies
- Build peace-of-mind in your patients and staff with one sanitary solution
- Protect the health and safety of your medical staff, patients, and HST devices
- Eliminate any need to clean, disinfect or replace expensive reusable cases
- Preserve valuable staff time and expense resources
- Accommodates FOUR HST devices and accessories in ONE CleanCaseRX - NOX Medical (T3, T3x, A1) and Itamar WatchPat

- Eco-Friendly and 100% Recyclable
- Quick and easy assembly
- Space saving and collapsible design for convenient storage

APNEASTRIP

ApneaStrip™ is an easy to use, disposable home screening device that detects the risk of sleep apnea in adults. It is FDA cleared as a prescription sleep apnea screening device in the US. ApneaStrip™ is a screening device only. It does not diagnose or treat obstructive sleep apnea. If obstructive sleep apnea is indicated, you should discuss your result with your health care provider who may recommend an in-lab or home sleep test to diagnose and determine the severity of your obstructive sleep apnea.

- Is easy to use in your own home
- Provides results directly to you after use that you can share with your health care professional
- Gives you an objective indication of your risk for sleep apnea
- Is a one-piece, completely disposable device
- Offers highly accurate assessment of your sleep apnea risk the very next morning
- Gives an objective indication of your risk for sleep apnea (high risk or low risk)

SLP7200B Sold Individually **\$25.00**

NOX T3 PORTABLE SLEEP MONITOR ACCESSORIES

With the introduction of the NOX-T3™ portable sleep monitor, CareFusion has broken years of silence in the portable sleep diagnostics market. In the past you could only view the snoring signal. Today—with the audio playback feature—you can also listen to it! The NOX-T3 portable sleep monitor was designed from a clean slate. Woven into our revolutionary design are decades of clinical and engineering excellence. Through its simple, small and light design, this wireless sleep monitor will provide a uniquely positive experience for both the patient and clinician.

Kit Includes: T3 Recorder, Disposable belts large (2 sets), filter tube connectors (5), Pro-Flow nasal cannula (2), Nonin Bluetooth oximeter, Reusable SpO2 finger probe (soft).

NONIN® PALMSAT® DIGITAL HANDHELD PULSE OXIMETER

PalmSat® is a small (7.4 oz), yet versatile digital pulse oximeter designed to accurately assess oxygen saturation and pulse rate. It's compact size, ease of operation, and flexible design make this an ideal unit for your portable monitoring needs, regardless of the patient's location.

- Includes PalmSat® unit, sensor, manual, and batteries.
- Simple: easy two-button operation
- Compact Size: small, 7.4 oz. unit for easy handling
- Flexible: AA batteries, rechargeable batteries, or AC power
- Powerful: memory for 72 hours of data storage
- Efficient: 80 hrs of battery life; 40 hrs rechargeable batteries

NONIN WRISTOX2™ DISPOSABLE ACCESSORIES

Introducing Single-Patient Accessories for the WristOx2™ 3150. Preventing infection during a pandemic means you need safety at every step. Nonin singlepatient sensors and wrist straps reduce touchpoints to help limit exposure while capturing reliable, accurate patient data. Safety first. Reliability Always.

- Reduces spread of infection from patient to patient and patient to clinician
- Maximizes workflow and time-savings by reducing the number of components requiring cleaning between studies
- Eliminates the need for cleaning accessories and potential variability in cleaning practices and efficacy
- PureLight LEDs eliminate variation in readings for consistency across studies and patients
- Works on all skin pigmentation for quality monitoring across all patient populations
- Every Nonin sensor is functionally tested for guaranteed quality right out of the box

NEW!

Pack of 15

114238-001	15 disposable sensors, 15 disposable wristbands	\$301.00

ONYX VANTAGE 9590 FINGER PULSE OXIMETER

Accuracy matters and Onyx Vantage 9590 finger pulse oximeter provides accurate data for actionable decision making. The Onyx is the only finger pulse oximeter with scientifically proven accuracy in the most challenging cases, including patients with low perfusion or dark skin tones.

- Accurate - Scientifically proven performance in the widest range of patient populations and settings.
- Durable - Protects against dropping and water spills; allows for thousands of uses in the most demanding environments.
- Efficient - Up to 6,000 spot checks or 36 hours of continual operation on two AAA batteries.
- Safe - Built in the USA with lead free and latex-free construction.
- Versatile - One unit works on the widest range of patterns from pediatric to larger adult patients.
- Warranted - Industry leading 4-year warranty

ONYX-9590	Onyx Vantage 9590 Finger Pulse Oximeter	\$225.00

NONIN® WRISTOX2™ PULSE OXIMETER - USB

Featuring Nonin PureSAT® SpO2 technology, the WristOx2 3150 USB delivers fast, accurate oxygen saturation and pulse rate readings in challenging conditions, including low perfusion and motion. The WristOx2 3150 USB is compatible with a wide range of Nonin PureLight® sensors and provides continuous, reliable SpO2 monitoring and data recording. Applications include overnight oximetry studies at home, in the hospital, and in sleep labs. Operates for 48 hours on two AAA batteries. 1,080 hours of memory storage.

Starter Kit—Includes sensor of choice, three wristbands, carrying case, USB download cable, and nVISION® software

PULSE OXIMETERS AND ACCESSORIES

BODIMETRICS™ VITALSRX

BodiMetrics™ VitalsRx captures vital signs in less than a minute, while also providing continuous ECG (24 hour Holter) monitoring, recording and reporting. Also, monitor, record and report Blood Oxygenation (SpO2 and Pulse Rate for up to 15 hrs). Optional Bluetooth Blood Pressure Wrist Cuff provides the user seamless Blood Pressure metrics and syncing to VitalsRx mobile app and secure cloud. Combined, VitalsRx provide easy, cost-effective monitoring and screening for heart irregularities and sleep-related health issues, such as Sleep Apnea.

- Data can be synced to cloud automatically
- Data can be shared with doctor automatically
- Data can be stored in cloud for long-term tracking
- Data is encrypted to protect user privacy

NONIN® RESPENSE II CAPNOGRAPH

Nonin Medical is pleased to announce the launch of its next generation end-tidal CO2 monitors in the RespSense® II capnograph. The Nonin RespSense II is ideal for a wide range of medical monitoring applications where a stand-alone capnograph is desirable, including Home Care, resuscitation, procedural sedation, pain management, post-anesthesia monitoring and sleep testing. With this device, clinicians have fast, first-breath detection of respiratory rate and end-tidal CO2 (EtCO2). Offer key benefits over first-generation RespSense product, including a larger display, internal memory with USB and multiple settings options, among many other advantages.

- Fast and accurate first-breath technology
- Meets rigorous ISO requirements for EMS transport
- Trending of measured parameters
- Easy-to-use, large 7 in (17 cm), color touchscreen display
- 36-hour internal memory with USB port
- Enhanced configuration options for language, units of measurement and alarms
- One-touch calibration and "Calibration Due" reminder
- Industry leading 3-year warranty

10938-001		\$3,300.00

10534-004	1V 2.5mm (Nihon Kohden, All M-Drive Users)	\$358.00

NONIN® LIFESENSE® II CAPNOGRAPH + PULSE OXIMETER

The LifeSense® II WIDESCREEN™ capnograph/pulse oximeter offers proven PureSAT® SpO2 and Nonin Medical's sidestream EtCO2 technologies for a wide range of clinical settings for both intubated and non-intubated patients. Easy-to-use, accurate and cost-effective, LifeSense® II is perfect for SpO2 and EtCO2 monitoring of patients in and outside of the hospital, including procedural sedation, resuscitation, EMS transport and homecare.

Product Highlights:

- Nonin PureSAT® SpO2 technology
- 4-hour trending of pulse rate, SpO2, respiration and EtCO2
- Easy-to-use, large (7 in/17 cm), color touchscreen display
- 36-hour internal memory with USB port
- Adjustable alarm volume
- Configurable selections for language, units of measurement and alarms
- Industry-leading 3-year warranty

EMMA MAINSTREAM CAPNOMETER

Small, portable capnometer, EMMA requires virtually no warm-up time, with full accuracy in 15 seconds to measure end-tidal carbon dioxide (EtCO₂) and respiration rate.

NEW!

- Compact, lightweight design fits in the palm of your hand for unmatched mobility and convenience
- Used for short-term EtCO₂ monitoring for adult, pediatric, and infant patients
- Flexible use at multiple points of care, including pre-hospital, emergency medicine, operating room, intensive care unit, and long-term acute care
- Helps clinicians assess the effectiveness of CPR and guide ventilation, allowing them to make adjustments in the course of treatment, breath by breath
- Rugged, water-resistant design for reliable operation in challenging environments
- Easy to maintain — no routine calibration required

CAPNOGRAPHY AND ACCESSORIES

ALICE LOFLO

The Alice LoFlo capnography sensor for Alice PSG is a streamlined approach to capnography that connects to an Alice PSG system with a single USB connection. It allows simultaneous monitoring of flow and CO₂ using a dedicated Pro-Flow cannula. The LoFlo is compatible with Alice 5 and Alice 6 that use the G3 software.

1101087	Alice, LoFlo Starter Kit - (LoFlo C5 Module, LoFlo USB Cable, Sampling Line, 10 Pack, and Cannula 10 Pack)	\$2,795.00

SALTER LABS DIVIDED CO₂ SAMPLING/O₂ DELIVERY CANNULAS

Salter's divided capnography cannulas provide true EtCO₂ sampling and proven O₂ delivery without limitations at higher O₂ rates. The divided design separates gases and Salter Eyes maintain sampling even during a cannula occlusion. Available in a multitude of configurations for Luer-style monitors, Salter sets the standard in capnography.

Case of 25

4MSF1-7-6-25	Adult. Filtered Oral/Nasal Divided Cannula, 7' O ₂ line, 6' ETCO ₂ line	\$177.50

NASAL CANNULA PROTECTIVE COVER

Stop risking infection by leaving nasal cannulas unprotected or storing them in plastic bags! 94% of home health care patients surveyed say they want a better solution for storing their nasal oxygen cannulas. Our cannula cover meets this need. Our innovative device not only helps lower the risk of infection, it also saves money by eliminating the need to frequently replace a patient's nasal cannula.

FIRESAFE CANNULA VALVE AND NOZZLE

- Automatically stops the flow of oxygen in the event that the downstream oxygen tubing is ignited.
- Offers a cost-effective solution to lower the risk of serious patient injury in an oxygen fire.
- Can be installed in seconds and helps keep patients safe no matter what method of oxygen delivery they use.
- Now bidirectional, so it's even easier to install.
- 4 year intended life (or until it shuts off in the event of a fire), serving as a longer-lasting tubing connector.

O2 TALON

Compact, simple and affordable, the O2 Talon Hand Tool is without a doubt the best tool ever invented for disconnecting that always tough to separate oxygen tubing from oxygen barbs, cannulae and O2 tubing and connectors. For safety, the tubing is made to fit snugly and securely, but that's no consolation to patients with arthritis or limited dexterity who must remove it regularly for cleaning, etc. And it's just as valuable to anyone just want to make this habitual chore quick and easy.

CT1830

\$16.95

CO-PILOT REMOTE HUMIDIFIER AND FLOW CONTROL

Eliminate the danger of blocked oxygen flow due to condensation while increasing air flow effectiveness with a Co-Pilot Remote Humidifier and Flow Control. The Co-Pilot Remote Humidifier enables the humidifier bottle to be placed at the end of the tubing run instead of on the oxygen system at the beginning of the run. What's more, it also enables the remote control of the oxygen flow rate (LPM) and confirms the accuracy of the flow rate at the user end of the supply line. The remote control function can be used with or without the humidifier bottle.

- Eliminates the danger of blocked oxygen flow due to condensation.
- Increases effectiveness of air flow.
- Solid acrylic base accommodates all popular bubbler bottles (a 350cc bottle with 6 psi safety pop-off included).
- A precision rotameter to remotely adjust and accurately confirm liter-flow rate at patient side-up to 50 feet away from oxygen system.
- An easy-to-carry design that is lightweight and easy to read.

CT1880

\$129.00

TIDY TUBING

Tidy Tubing is quiet, odorless smooth bore oxygen tubing. The best part about Tidy Tubing is that it is kink free and self retracting. You may connect up to three Tidy Tubings together. Tidy Tubing includes a clothing clip to help eliminate strain.

Sold individually

- Kink free and self retracting.
- Connect up to 3 together.
- Swivel female connector to connect to oxygen barb.
- Swivel male connector for easy cannula connection.
- Clothing clip to eliminate strain.

BLOCKAIDE PFT FILTER AND NOSECLIP

The BlockAide™ filter media consists of a special blend of polymers with a highly stable electrostatic charge on every individual fiber, which allows it to consistently achieve high efficiencies by using both the electrostatic charge and mechanical impaction to remove airborne bacterial and viral particles. While being highly efficient in bacterial and viral filtration efficiency, the filter media still maintains a low airflow resistance to ensure diagnostic accuracy.

PULMONARY FUNCTION TESTING, THIRD EDITION

Pulmonary Function Testing: A Practical Approach, Third Edition covers the most commonly performed pulmonary function tests in an engaging and easily accessible format. This comprehensive resource is ideal for respiratory care students and is also a valuable reference for practitioners. The most commonly performed exercise tests are separated into individual chapters to allow a full overview of each test.

SPEAKING VALVE

Speaking Valve with oxygen port for spontaneous breathing tracheostomy patients. Intended to allow the patient to speak without the need for finger occlusion. Provides back pressure for other common body functions. Exchangeable filter to prevent coarse particles entering the respiratory system.

Sold Individually

710R

\$79.95

TILSON TRACH GUARD

Protecting the exposed trach from accidental external occlusion. The Tilson Trach Guard is a tracheostomy tube protector. It helps prevent blocking of the tube opening by chubby chins, bedding, gauze dressings, clothing, and so on. Unlike artificial noses, tee pieces, etc. the Tilson Trach Guard has a low profile and doesn't get clogged by even copious secretions or coughed-up mucous plugs. The Trach Guard is reported to be effective at stopping or deflecting these bits so they are not projected forward.

TP100-0-25

Case of 25

\$215.00

MARPAC ANTI-DISCONNECT

Device designed to help keep ventilator securely fastened to patient's tracheostomy tube, resulting in fewer accidental disconnects. It is made of a unique cloth/foam laminate that is gentle on the skin and non-adhesive, yet grips the vent circuit securely.

RHYTHMLINK® DISPOSABLE WEBBED EEG ELECTRODES

RhythmLink® has combined the best features into one electrode: greater surface area, high quality recordings, cost effective and safer. The Disposable Webbed Electrodes is designed to increase patient comfort while providing quality recordings that can last through both night and day studies and for multiple days.

10mm Webbedcup, AG/AgCl

WEBB102900	1.0m Leads, 10 per pack (39")	\$9.50
WEBB152900	1.5m Leads, 10 per pack (59")	\$9.50

BS1616	Hydrodot EEG Skinsavers, 200 per bag	\$150.00

RHYTHMLINK® DISPOSABLE EEG CUP ELECTRODES

The RhythmLink Disposable EEG Cup Electrodes are made with patient safety in mind. Eliminate your risk of cross contamination by using them once and throwing them away after the procedure. Available in 10mm cup size, RhythmLink's Disposable EEG Cups come in a variety of leadwire lengths to accommodate your needs.

10 per pack

DAGD102600	1.0m (39")	\$9.50
DAGD152600	1.5m (59")	\$9.50
DAGD202600	2.0m (79")	\$10.25
DAGD252600	2.5m (98")	\$10.75

RHYTHMLINK DISPOSABLE DEEP EEG CUPS

RhythmLink's Disposable Deep EEG Cups were specifically designed to hold a higher volume of conductive material, 2.5 times more to be exact, than the Standard EEG Cups. Like the Standard Cups, the Deep Cups are made with patient safety in mind and, compared to their reusable counterparts, are more cost effective. Ag/AgCl. 10mm Cup.

10 Per Pack

DC110	1.0m (39")	\$9.50
DC115	1.5m (59")	\$9.50
DC120	2.0m (79")	\$10.25
DC125	2.5m (98")	\$10.75

DISPOSABLE ELECTRODES

10mm Disposable Silver/Silver Chloride Electrodes. Available in cups and flat disc.

10-20 TOOL

A new and innovative tool that can change your approach for obtaining the proper measurement of the EEG electrode sites according to the International 10-20 system. Great for the any medical professional that uses the 10-20 measurement system. It can also be an effective training tool for new technologists. Sure to save you time and frustration.

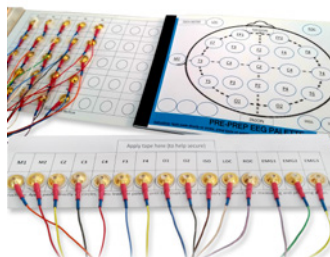

10-20BANDS

\$75.00

PSG AND EEG LEAD PALETTES

New PSG [polysomnogram] and EEG [electroencephalogram] Lead Palettes by TechLux are designed to help improve overall sleep patient setup times and also train both PSG and EEG technologists.

The disposable notepad sheets help techs focus more on patients rather than collection leads, while also reducing the risk of paste cross-contamination in between patients.

Each palette takes about 2 to 5 minutes to prepare. Palettes can be pre-prepped up to 24 hour before patient arrival. Any conductive or cream can be applied to the palettes. They feature a front page system as well as a system on the back to facilitate lead palette organization and application.

PLE1020 EEG Lead Palettes (15 Disposable Sheets) **\$6.50**

PLP1020 PSG Lead Palettes (15 Disposable Sheets) **\$4.95**

EEG SKIN PROTECTOR

Foam cushions designed to protect the patient's skin from pressure and breakdown caused by EEG electrodes during monitoring procedures. Universal sizing to accommodate any standard adult cup electrode. A strong adhesive backing helps to hold the electrodes securely in position, making them a great option for long-term or ambulatory EEG patients. Peel-off tab for easy application.

100 per bag

SP100 Bag of 100 **\$19.95**

RHYTHMLINK INVISA-ELECTRODES

Want to keep collecting EEG data while a patient has a CT scan? Have you been looking for an electrode that can be left on during a CT scan that shows no artifact? RhythmLink has the answer for you. Our artifact free CT imaging electrodes offer the same superior EEG recording quality as our standard electrodes but can be left on the patient during a CT scan. Available in Slim Cup, Deep Cup, Webb and PressOn versions, our Invisa-Electrode™ line is the answer you are looking for.

CTC115 Disposable InvisaSlim™ Cup Electrodes - 12 Pack **\$29.95**

CTD115 Disposable InvisaDeep™ Cup Electrodes - 12 Pack **\$29.95**

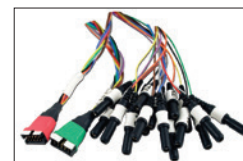

CTW115 Disposable InvisaWebb™ Electrodes - 12 Pack **\$29.95**

SLEEP CHIN ADHESIVE

This easy peel adhesive works great for providing comfort and security to your chin electrodes. The top half has a nice straightforward strip for your one electrode while the bottom half is rounded out wider for your other two electrodes.

Sold individually

GLS-001 Pack of 50 **\$17.95**

ELECTRODE CLEANING BRUSH

Electrode cleaning brush, 6" wooden handle, horsehair bristles.

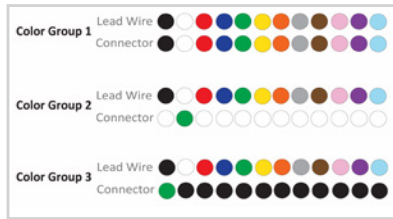

Sold individually

GB001 **\$4.25**

MR CONDITIONAL ELECTRODES

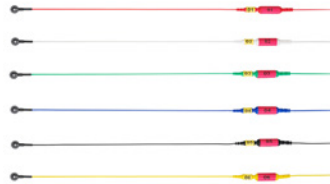

The only FDA Cleared MR Conditional EEG Electrodes on the market for both 1.5T and 3T MRI Scanners. With four (4) different electrode options these products record exceptional EEG data quality for Epilepsy, Continuous EEG (cEEG), and ICU/ER monitoring while eliminating the need to remove electrodes when the patient needs an MRI or CT. The products produce artifact free MRI and CT images and eliminate the electrode removal and reapplication process from the patient care plan. These products introduce multiple benefits such as 1) reducing the risk of skin breakdown caused by repeated electrode applications, 2) saves money by eliminating a "technologist call in" to remove or reapply the electrodes, 3) maximizes workflow by eliminating the complication of "scheduling" around the EEG electrode application process. RhythmLink products are fully disposable which promotes the initiative to decrease cross contamination and Hospital Acquired Infections (HAIs). RhythmLink's FDA Cleared MR Conditional products consists of the Disposable MR Conditional Deep and Standard EEG Cups, Webbs™ and PressOn™. These MRI EEG electrodes include exclusive designs to ensure accuracy when disconnecting/reconnecting.

MR CONDITIONAL LEADLOCK™

Organize your MR Conditional Cup, Webb and PressOn Electrodes using our new LeadLock. The LeadLock is a cable management system that allows easy and accurate disconnect and reconnect of electrodes as the patient goes to and from imaging and allows each service to customize their own color-coded and numeric protocols. It's your choice, try individual leads to customize your own color-coded, numeric protocols or try individual leads with the LeadLock. Use the LeadLock to make it easier and faster with fewer connection points.

WIRE TESTER

A great product to test EEG cup electrodes, snap lead wires and jumper cables. Compact size and long battery life make for a great money saving buy!

VTDSO1

\$29.95

SENSOR TESTER WITH CARRYING CASE

Enables the sleep techs to verify the proper operation of many types of sensors used in the sleep lab.

Comes with a case

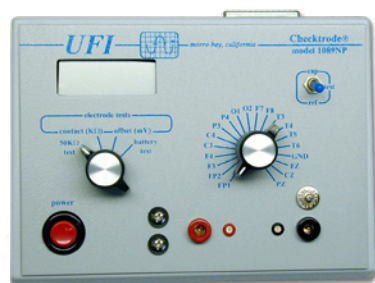

ST-5100

\$60.00

CHECKTRODE® 1089NP ELECTRODE TESTER

The Model 1089NP evolved from the 1089ES, and has a few important differences. Whereas the 1089ES is a general-purpose instrument, the Model 1089NP is intended for use with several specific electrode caps. These include the Brainmaster Discovery qEEG system cap, the NeuroPulse Systems qEEG cap, the Mistar Systems cap and any standard Electro Cap or Comby Cap used with other qEEG systems. For ease of use, Model 1089NP rotary selection switch positions are directly keyed to electrode site names for the listed caps. A two-position TEST switch permits the two reference electrodes supplied with these caps to be tested against each other. When good contact between them has been established, just flip the TEST switch to link the two reference electrodes, then check contact impedances of the remaining cap electrodes.

1 Year Warranty

W1089NP

\$620.00

CHECKTRODE® 1089 ELECTRODE IMPEDANCE TESTER

Supplies quick and easy evaluation of total contact impedance and offset voltage between two applied electrodes. The 1089 uses an AC excitation method which removes the effects of the polarization errors from the impedance reading. Leads with both the older .080" pin plugs as well as the newer .060" safety jacks are supported. The inclusion of a standard male snap allows electrode lead testing as well. A loaded battery test function is also provided. The 1089 is powered by a standard 9V battery and automatically shuts down after 3-6 minutes.

1 Year Warranty

W1089-MK3

\$545.00

CHECKTRODE® 1089E ELECTRODE TESTER

This new design incorporates a microprocessor. A crystal-controlled 30 Hz. sine wave (not a square wave) is supplied to the electrode pair under test. Leads connect to the electrodes using the industry standard .060" safety jacks. The 1089e supplies simple "pass-fail" LED indication for the contact impedance ranges of <5 KOhm, <10 KOhm, <20 KOhm, <50 KOhm, and >50 KOhm. Simple, single switch operation, with automatic power down, further simplifies the use of this essential, 9V battery powered instrument.

1 Year Warranty

W1089-E

\$375.00

CHECKTRODE® ELECTRODE 1089ES TESTER WITH EXTERNAL SWITCH

The "ES" includes a switch and associated circuitry to select up to 22 separate electrode leads. This allows the 1089 ES to be used to rapidly and painlessly check applied electrode contact impedance of multiple electrode configurations such as Cranial EEG "caps".

1 Year Warranty

W1089-MK3ES

\$620.00

MULTI-PURPOSE EOG/EMG/ECG ELECTRODES

MEDITRACE® MINI ELECTRODE

1 ¼", foam, snap connector, pre-gelled, silver/silver chloride, adhesive backed. Ideal for face applications.

VERMED SOFTOUCH ELECTRODE

ECG electrodes for sensitive skin. Recommended for all cardiac monitoring and diagnostic procedures. Tough enough to stay on and tender enough to prevent irritation. You and your patients need both. Vermed's SoftTouch electrodes are designed for patients with sensitive skin needs. This specialty electrode is great for patients who have had reactions to your primary electrode or for elderly patients. Its large size and gentle materials make it a perfect option for sensitive skin patients in cardiac rehab.

- Hypoallergenic breathable tape backing allows you to see under the electrode
- Wet Gel provides instantaneous readings, reducing prep time
- Mild aggressive adhesive is gentle on the skin
- Specially formulated gel that is perfect for repeat procedures
- Large 1 7/8" size allows for increased surface area coverage reducing artifact and ensuring proper adhesion

4500M-H **\$14.95**

TAB ELECTRODES

NUTAB™ DIAGNOSTIC TAB ELECTRODES

1" x 7/8", tab type, silver/silver chloride, pre-gelled, non-metallic, soft, thin and flexible with a tab for connection.

1000 per case

ER88007 **\$62.00**

KENDALL® Q-TRACE® RESTING TAB

Resting EKG, silver/silver chloride, pre-gelled. Ideal for NCS, SEP and AEP.

1000 per case

31433538 **\$50.50**

KENDALL® CARE™ 310 DIAGNOSTIC TAB ELECTRODES

Resting ECG application, Latex-free, 3/4" x 7/8" with rounded corners.

1000 per case

EF00066 **\$56.00**

FASTRACE® TAB ELECTRODE

Resting EKG, silver/silver chloride, pre-gelled. Ideal for NCS, SEP, and AEP.

1000 per case

1915 **\$49.00**

NIKOTAB ELECTRODES

Silver/silver chloride. Provides secure adhesion and designed to be combined with the NikoClip.

Latex free

500 per case

515

815

515	Adult (23 x 34mm)	\$32.00
815	Pediatric (15 x 34mm)	\$28.00

CONMED® HEARTBEAT TAB ELECTRODE

Silver/Silver chloride design. Gentle release gel.

Latex and PVC free

1000 per case

1925-100 **\$65.00**

KENDALL® RESTING ECG TAB ELECTRODE

Offers a distinctive shape with a broader tab for quicker tab-clip contact.

1000 per case

31447793-1 **\$49.00**

AMBU® BLUE SENSOR® TAB ELECTRODE

1.3c. x 3.3cm. Skin-friendly solid gel that provides optimal signal quality recordings during 12-lead diagnostic resting ECG application.

100 per pack

BS2300 **\$9.45**

TINYTAB - PEDIATRIC TAB ELECTRODES

Introducing the launch of our new Ag/AgCl EKG tab electrode for neonatal patients, the TinyTab™. Clinicians no longer have to struggle with the nuisance of trying to cut adult tabs in half to fit their smaller-bodied patients. TinyTab™ is half the size of a regular adult EKG tab electrode so that it can fit comfortably on tiny bodies. As part of our TenderTrobe™ line, you can expect all the same quality features; soft conforming materials to ensure patient comfort along with the wherewithal to perform quality traces.

Case of 1000 - 10 Pouches of 100"

A10027 **\$57.50**

DISPOSABLE BAR ELECTRODES

Each bar has 2 electrodes with standard 30mm spacing. For single use only. Requires a reusable alligator clip.

100 per pack

105209

\$42.00

VIASYS™ DISPOSABLE BAR/DISC ELECTRODES

Disposable pre-gelled, silver/silver chloride bar electrode contact area measures 12mm x 18mm, with 25mm spacing between contact areas that have the centers clearly marked for easy placement. They can also be perforated down the middle for use as individual disc electrodes.

100 per box

N6003

\$39.00

BAR ELECTRODES

1.5mm connectors.

Sold individually

8202	24", 30mm Spacing of 9mm Convex SS Discs	\$23.00
8204	24", 30mm Spacing of 9mm Concave Tin Discs	\$23.00
8204-48	48", 30mm Spacing of 9mm Concave Tin Discs	\$25.00

VIASYS™ REUSABLE BAR ELECTRODE

Consists of two durable gold-plated stainless steel disk electrodes with 9mm diameters and 30mm spacing. Features grooved bar. Electrode is coded for polarity. Twisted 1.0 meter lead with 1.5mm connectors.

Sold individually

019-401400		\$54.00
019-421000	Snap-On T-Handle	\$9.00

ALLIGATOR CLIPS

Different style clips to connect to tab electrodes.

10 per pack

HPHBLUE	3.2mm	\$90.00
UCL		\$95.00
NIK-10		\$33.00

VIASYS™ DISPOSABLE RING ELECTRODES

Disposable pre-gelled, silver/silver chloride ring electrodes. The contact area measures 5mm x 100mm. Single patient use. Requires reusable alligator clip lead wires. Ideal for NCS.

100 per box

019-435500

\$33.00

DISPOSABLE RING ELECTRODES

Pre-gelled 5/16" x 4", silver/silver chloride strips. For single use only. Requires a reusable alligator clip.

100 per pack

105210

\$42.00

ALLIGATOR CLIP WITH ATTACHED LEAD

Wire attached clip with female 1.5mm safety socket connector.

Sold individually

256-A-24BTP	24" Black	\$16.50
256-A-24GTP	24" Green	\$16.50
256-A-24RTP	24" Red	\$16.50
256-A-48BTP	48" Black	\$17.50

256-A-48RTP	48" Red	\$17.50

ALLIGATOR CLIP LEAD WIRE SET

36" red, green, and black braided wire.

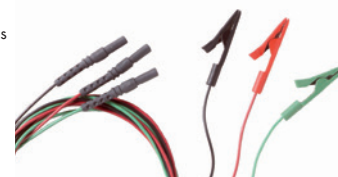

ETL-RGB1

\$53.00

VIASYS™ ALLIGATOR CLIP LEAD WIRE KIT

1.25m leads with touchproof connector for use with disposable surface electrodes without leads. Neatly clips onto electrodes, avoiding contact with gel.

117-401900	Complete Set Includes: 1 Red, 1 Black, and 1 Ground	\$48.00
019-417000	Red/Black Pair	\$37.00
019-417200	Ground	\$20.00

EMG PRODUCTS

EAR CLIP ELECTRODES

Available in Adult and Pediatric Silver, Silver-Silver Chlorided, and Gold plated Silver.

1 Pair per package - 1m lead

E12-439	Silver (Ag), adult (10mm cup)	\$65.00
E14-439	Silver (Ag), pediatric (6mm cup)	\$65.00
E22-439	Silver-Silver Chlorided (Ag-AgCl), adult (10mm cup)	\$67.00
E24-439	Silver-Silver Chlorided (Ag-AgCl), pediatric (6mm cup)	\$67.00
E32-439	Gold plated Silver (Au), adult (10mm cup)	\$72.00
E34-439	Gold plated Silver (Au), pediatric (6mm cup)	\$72.00

GRASS® EAR CLIP ELECTRODE

10mm cup electrodes in a plastic clamp. 48" lead wire with 1.5mm safety connector.

2 per pack

FE34DS-48	Silver	\$72.00
-----------	--------	----------------

VIASYS™ STAINLESS STEEL DISC ELECTRODES

Two 10mm stainless steel discs, with PVC-coated, 30" (76cm) leads terminating in touchproof plugs. 1 Red, 1 black.

1 pair per pack

6030-TP	Twisted Leads	\$45.00
6030-3-TP	Separate Leads	\$45.00

FINGER CLIP ELECTRODE

Two Adult stainless steel clips.

3519	24"	\$31.00
3521	48"	\$33.00
295-2-36STP	36" Shielded	\$42.50

COST EFFECTIVE EAR CLIP SENSORS

One black and one white clip per bag.

2 per pack

630-001	Gold, 48" Lead	\$36.95
630-011-60	Gold, 60" lead	\$42.95
630-011S	Silver, 48" lead	\$34.00
630-011S-60	Silver, 60" lead	\$35.00

EAR CLIP ELECTRODE

48" lead, 10mm, silver/silver chloride.

2 per pack

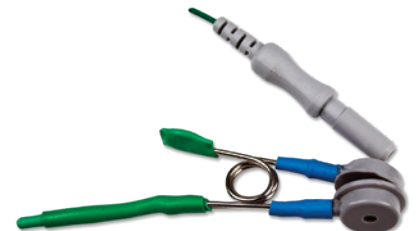

3503	\$35.00
------	----------------

EAR CLIP ELECTRODE

Silver/Silver chloride with stainless steel ear clips.

2 ear clips per set

480474	36"	\$50.00
480465	40"	\$50.00
480461	48"	\$50.00
480466	60"	\$50.00

AMBU® CORKSCREW ELECTRODE

The corkscrew needle is designed to stay securely in place for EEG or EP monitoring during surgery. It is easy to place and provides a high quality signal.

24 per pack

74715-60	1.2M lead wire	\$260.00
----------	----------------	-----------------

RHYTHMLINK® CORKSCREW NEEDLE ELECTRODES

Needle height is 3.8mm with a diameter of .6mm. Disposable and Sterile. Red, white, green, blue, black and yellow – 2 of each color per box

12 per box

RLSND140-1.0	1.0m Lead	\$99.00
RLSND140-1.5	1.5m Lead	\$99.00
RLSND140-2.5	2.5m Lead	\$99.00

REUSABLE RING ELECTRODE WITH SLIDE LOCK

Holds the ring closed around the patient's finger without slipping. Easy to slide on and off!

Two stainless steel rings, 1.5mm safety connectors.

293-2SL-24TP	24"	\$20.00
293-2SL-48TP	48"	\$22.00

RING ELECTRODE

Two stainless steel rings with slide grommet. 1.5mm safety connectors.

3533	24" Lead	\$19.00
3534	48" Lead	\$21.00
293-2-36STP	36" Shielded	\$30.50

TECHNOMED® DISPOSABLE CORKSCREW ELECTRODE

Stainless steel. 47" lead. 4 x 6 Colors.

24 per pack

S50715-001	\$152.00
------------	-----------------

NATUS DISPOSABLE CORKSCREW ELECTRODE

Lead wires terminate in 1.5mm touchproof connectors.

Six lead wire colors: 4 each – red, blue, yellow, green, orange, purple. One electrode per pouch, 24 pouches per package. 10mm, 30 G Needle. 1.2m lead.

017505	\$204.00
--------	-----------------

NATUS DISPOSABLE TWISTED PAIR CORKSCREW ELECTRODE

- Lead wire colors: White plus red, blue, yellow, green, orange, purple; Black plus red, blue, yellow, green, orange, purple
- One pair per pouch, 12 pouches per package
- 1.2m (47") Leads

017506	\$126.00
--------	-----------------

VIASYS™ DIGITAL RING ELECTRODES

These ring electrodes are used for sensory nerve stimulation and recording. Conductive gel should be used on each ring. Consists of two spring stainless steel, adjustable rings with separate red and black PVC coated connecting wires.

2 per pack

6032-TP	18" Lead	\$41.00
5032-TP	36" Lead	\$48.00

REFERENCE GROUND AND SURFACE ELECTRODES

DISPOSABLE GROUND/REFERENCE NEEDLE ELECTRODE

by Chalgren

Non-coated stainless steel, pre-sterilized. Individually packaged.
12mm (½") x 28 Gauge

25 per pack

121-812-24TP	24" Lead	\$63.00
121-812-48TP	48" Lead	\$71.00

REUSABLE GROUND PLATE ELECTRODES

Nickel plated flat disk with anti-slip tab, 32mm diameter.

Sold individually

3553	24" Lead	\$11.50
3551	48" Lead	\$12.50

VIASYS™ REUSABLE GROUND ELECTRODE

Long-lasting 30mm diameter stainless steel ground plate electrode.

Sold individually

019-401200	0.75m lead	\$20.00
------------	------------	----------------

DISPOSABLE REFERENCE/GROUND NEEDLE

Pre-sterilized needle with a 24" attached leadwire that is one-time-use only.

25 per pack

GRD-SAF	12mm (½") x 29 Gauge	\$68.00
---------	----------------------	----------------

VIASYS™ DISPOSABLE TAB ELECTRODE WITH LEAD

20mm x 25mm, pre-gelled, silver/silver chloride. Ideal for SEP, AEP and IOM.

2 per pack, 24 packs per box

019-406600	1.0 Meter Lead (40")	\$84.00
------------	----------------------	----------------

VIASYS™ DISPOSABLE GROUND PLATE ELECTRODE

Disposable pre-gelled, silver/silver chloride ground plate electrode. The contact area measure is 40mm x 50mm. Requires reusable alligator clip lead wires. Ideal for NCS.

50 per box

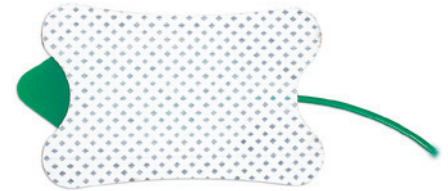

019-768500	\$56.00
------------	----------------

NEUROLINE® GROUND ELECTRODE

The concave shape conforms to the curves of the body, making it a comfortable fit for the patient. Soild gel, can be repositioned several times. Perfect for EMG, NCS, EP, and IOM.

Sold individually

71410-M-1	40" Lead	\$1.85
71415-M-1	60" Lead	\$2.10

DISPOSABLE 4-DISK ELECTRODES

20mm diameter disk x 4 with red, blue, green and black leads.

10 sets per box

K50430-001	1.0m Lead	\$40.00
K50430-002	2.0m Lead	\$48.00

DISPOSABLE GROUND ELECTRODES

40mm x 50mm surface electrode. Green leads.

20 pieces per box

K50431-002	1.0m Lead	\$35.00
K50431-003	2.0m Lead	\$45.00

60" WIRE ATTACHED ELECTRODE

1" round electrode with 60" lead. 1.5mm connector. Sold by the pack of 3.

G60AS **\$5.25**

NEUROLINE® WIRE ATTACHED ELECTRODE

15mm x 20mm, solid gel, silver/silver chloride, with soft and flexible wires.

Female 1.5mm connector

12 per pack

70010-K 40" lead **\$15.95**

70015-K 60" lead **\$15.75**

MIXED COLOR NEUROLINE® WIRE ATTACHED ELECTRODE

15mm x 20mm, solid gel, silver/silver chloride with soft and flexible wires. Female 1.5mm safety connector.

Connector colors consist of red, green, black and white

12 per bag

70010-KC 40" lead **\$14.75**

70015-KC 60" lead **\$14.75**

NEUROLINE® WIRE ATTACHED ELECTRODE

22mm x 30mm, wet gel, silver/silver chloride, strong yet skin-friendly. Adhesion ensures that the electrode stays in place.

Female 1.5mm safety connector

10 per bag

72010-K 40" lead **\$12.95**

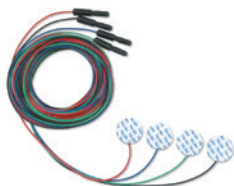

72015-K 60" lead **\$13.70**

NATUS DISPOSABLE ELECTRODE WITH LEAD

Contact area is 20mm in diameter, silver/silver chloride, pre-gelled, female 1.5mm connector. Ideal for sleep studies, IOM, SEP, NCS.

Connector colors consist of red, green, blue and black

60 per box

019-400400 1 Meter lead **\$83.00**

019-409000 2 Meter lead **\$96.00**

NEOTRODE® II WIRE ATTACHED

Color-coded attached leadwire system for an easy to use, totally disposable system. Conductive adhesive gel does not dry out and allows for extended wear without irritating the baby's skin. Latex free to protect against possible latex sensitivity issues. Transparent tape allows visual monitoring of the skin under the electrode. Neotrode is rewettable for cost effective long term use and ease of application and removal. 22" lead.

Sold by the case.

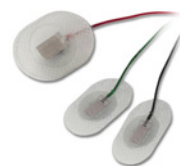

1741-003 3/pouch, 100 pouches/case, 300 electrodes/case **\$265.00**

NEUROLINE® SINGLE PATIENT SURFACE ELECTRODES

22mm x 28mm. High quality silver/silver chloride sensor for optimal signal quality. The transparent sensor area enables you to locate the examination target area very precisely. Skin friendly solid-gel and repositionable.

Female 1.5mm Connector

12 per pack

71505-KC-12 20" lead **\$11.95**

71508-KC-12 31.5" lead **\$11.95**

71512-KC-12 47" lead **\$12.95**

AMBU® NEUROLINE 710 WIRE ATTACHED SURFACE ELECTRODE

20mm x 28mm electrode with lead that can be easily repositioned on the same patient, allowing you to complete the NCS study with the same set of electrodes.

Female 1.5mm connector

12 per pack

71010-K 40" White Leads **\$13.95**

71015-K 60" White Leads **\$14.25**

AMBU® NEUROLINE 710 MIXED COLOR WIRE ATTACHED SURFACE ELECTRODE

20mm x 28mm electrode with lead that can be easily repositioned on the same patient, allowing you to complete the NCS study with the same set of electrodes. Female 1.5mm connector.

Lead Colors are Red, Green, and Black

12 Per Pack

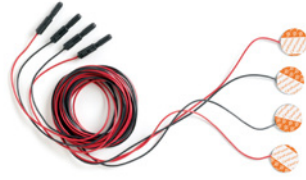

71015-KC 60" leads **\$14.15**

MULTI-PURPOSE EOG/EMG/ECG AND WIRE ATTACHED ELECTRODES

NATUS DISPOSABLE 2X2 ELECTRODE SET WITH LEADS

Disposable silver/silver chloride pre-gelled electrode set contains 4 disk electrodes 20mm diameter. Each pouch contains 2 red and 2 black color-coded electrodes. Available in 2 touchproof lead lengths. Single patient use. Ideal for IOM applications.

24 sets per pack.

019-415000	1.5m	\$140.00
019-420800	3.0m	\$163.00

NATUS DISPOSABLE 3-DISK ELECTRODE SET WITH LEADS

Disposable electrode set contains 3 pre-gelled silver/silver chloride 20cm disks. Comes with color-coded touch proof lead wires in green, red and black. Single patient use only. Ideal for AEP and NCS studies.

24 sets per pack.

019-439400	0.5m lead	\$114.00
019-414200	1.0m lead	\$116.00

WIRE ATTACHED ECG ELECTRODE

22mm, silver/silver chloride. 24" lead wire that is color coded.

Female 1.5mm connector. Connector colors consist of black, white and green.

4103	1.5mm Connector, 75 per Box	\$119.00
------	-----------------------------	-----------------

NEUROTRODE EEG ELECTRODE

0.7" diameter, disposable EEG sensors that are made of a hard plastic outer disc housing with a pre-gelled Silver/Silver Chloride snap style post pellet insert.

Latex Free

120 per pack

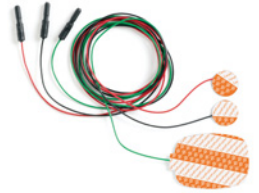

NET3		\$119.00
------	--	-----------------

VIASYS™ DISPOSABLE NCV KIT WITH LEADS

Disposable electrode set for nerve conduction studies. Set contains 2 pre-gelled silver/silver chloride 20mm disks and 1 disposable ground plate electrode. These electrodes come with color-coded 1.0m touchproof lead wires attached. Single patient use only.

24 kits per pack.

019-415200

\$150.00

AMBU® NEUROLINE 720 MIXED COLOR WIRE ATTACHED SURFACE ELECTRODE

22mm x 30mm, wet gel, silver/silver chloride, strong yet skin-friendly. Adhesion ensures that the electrode stays in place. Female 1.5mm Connector.

Lead colors are Red, Green, Black and White. 12 Per Bag

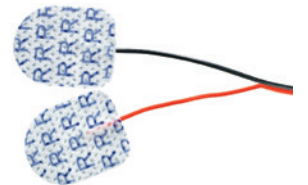

72015-KC	60" leads	\$19.50
72020-KC	80" leads	\$19.50

PAIRED RECORDING STICKY PAD SURFACE ELECTRODES

Red/black and blue/green. Each pouch contains two pairs of electrodes, one of each color combination.

3 per pouch, 4 pouches per pack

SUBDERMAL NEEDLE ELECTRODES

DISPOSABLE SUBDERMAL NEEDLE ELECTRODES

by Chalgren

Disposable, uncoated stainless steel low profile needle electrodes have a round tapered point and come with multi-colored super flexible PVC insulated Leads with a 1.5mm safety connector.

Individually packaged

112-812-48TP	12mm (.5") x 28 Gauge, (48" Multi-color Leads) 25 per Bag NO HUB	\$80.00
112-812-60TP	12mm (.5") x 28 Gauge, (60" Multi-color Leads) 25 per Bag NO HUB	\$87.00

RHYTHMLINK® SUBDERMAL NEEDLE ELECTRODES

Six colors. The hub is low profile, durable, and the connector is heat shrunk. It is made with high grade medical stainless steel. Four of each color: White, red, green, dark blue, black, and yellow.

24 per box

RLSND110-1.0	1.0m (40")	\$29.95
RLSND110-1.5	1.5m (60")	\$29.95
RLSND110-2.5	2.5m (99")	\$31.90

RHYTHMLINK® DISPOSABLE 7 MM SUBDERMAL NEEDLE ELECTRODES

Needles are 7mm in length and .4mm diameter. Black, white, red, blue, yellow and green – Four of each color.

24 per Box

RLSND107-1.5	1.5m Lead	\$36.00
RLSND107-2.5	2.5m Lead	\$36.00

GRASS® PLATINUM SUBDERMAL NEEDLE ELECTRODES

10mm length, 30 gauge, precision-sharpened monopolar needle with strain-resistant sleeve. Sterilize before use.

10 per Box

1.5mm Connector

F-E2-12	12" Lead	\$264.00

NEEDLETAPE™

NeedleTape® is a unique needle securing adhesive technology designed to provide safety advantages by integrating a safety identifier to alert healthcare workers to the presence of needles. In addition, NeedleTape® provides added convenience through its die-cut design for ease of use. This product has applications in IV therapy, dialysis and anesthesia among other specialties. The technology can also be utilized in a variety of clinical health care settings including labs, surgery centers, clinics and hospitals.

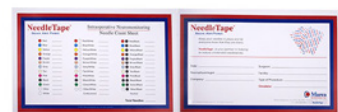

96 per Box

NT-527E	Textured Poly - Large	\$55.00
---------	-----------------------	----------------

INTRAOPERATIVE NEUROMONITORING NEEDLE COUNT SHEET

The Intraoperative Neuromonitoring Needle Count Sheet is designed as a simple and functional needle management tool for use by healthcare workers in surgical settings.

NT-NCS	Pack of 10	\$10.00

DISPOSABLE HYPODERMIC NEEDLE ELECTRODES

The Aiglette™ are a high quality product developed for simultaneous Botulinum Toxin (or other medicine) injection an EMG recording or electrical stimulation. Stainless steel with an ultra-smooth coating, sharpened with micro-precision to a facet bevel. The clear color coding 75cm / 30" leadwires with safety 1.5mm connector.

10 per pack

Designed to meet your expectation:

- Easy skin penetration
- Minimal patient discomfort
- Very smooth 'sliding' behavior
- Excellent signal quality
- Leak-free, very secure slip-tip and Luer lock syringe connection
- Minimum dead volume of medication

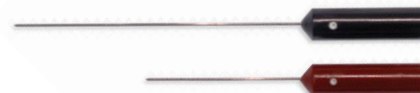

L2530	25mm x 30 Gauge, Red Hub	\$147.00

L7570	75mm x 22 Gauge, Violet Hub	\$147.00

TECHNOMED® REUSABLE SINGLE FIBER NEEDLE ELECTRODE

A platinum-iridium recording surface is presented through a side port opposite to the cutting edge bevel, close to the needle tip. The position of the recording electrode is indicated by a white dot on the needle hub.

Sold Individually

D225-301	25mm x 27 Gauge, Brown Hub	\$329.00
D24-301	40mm x 26 Gauge, Black Hub	\$329.00

INTRAOPERATIVE MONITORING DISPOSABLE STIMULATING NEEDLES

Pre-sterilized, one-time-use needles with a 3.5mm tip exposure and 36" lead wires, 5 red and 5 black. Peel pouch for convenient use in operating room.

Individually packaged in bags of 10

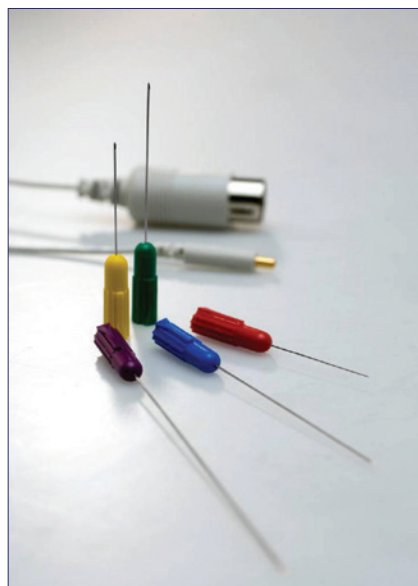

JO-5DSAF	12mm x 23 Gauge Uncoated Needle	\$126.00
JO-5DTSAF	12mm x 23 Gauge Coated Needle	\$188.00
GK-D50SAF	50mm x 26 Gauge Coated Needle	\$205.00
GK-D75SAF	75mm x 24 Gauge Coated Needle	\$210.00

CONCENTRIC NEEDLE ELECTRODES

TECHNOMED® DISPOSABLE CONCENTRIC NEEDLE ELECTRODES

Features:

- Matching material properties of cannula and core wire
- Machine sharpened tip
- Coaxial, orientation free gold plated connector
- Recording area indicator
- Changed cannula structure
- Optimized material flexibility
- Color coded hub designed to market standard
- To be used with Technomed's DCNE extension cable

Benefits:

- Optimal signal quality and excellent noise reduction
- Painless skin penetration and less bleeding
- Easy maneuvering
- 'hands free' disposal of the needle from the cable
- Friction reduction during insertion
- Reduces patient discomfort during muscle contraction
- Easy recognition during usage • To be used on most patients
- Less shelf space and reduction of shipping cost • Reduces noise levels to a minimum

D16-601	60mm x 23 Gauge, Blue Hub	\$55.00

MYOGUIDE NEEDLE GUIDED EMG SYSTEM

Accurate and reliable recordings

Designed to amplify electrophysiological signals from muscle and provide video and audio feedback to assist clinicians in locating areas of muscle activity.

EMG injection guidance

Provides muscle and nerve localization information, to accurately guide and monitor needle electrode insertion, and/or injection of neuromodulator drugs, into a muscle.

Easy and secure handling

Large LCD display provides the complete system status at a glance. EMG audio, EMG signal display, EMG RMS Value, Integrated EMG signal strength and stimulation capability, increases efficacy for injection point localization. The simple control panel is intuitive and easy to operate.

Ease of use

MyoGuide operates in two modes: EMG and Stimulation. EMG and Stimulation modes can easily be paused for repositioning of the patient or electrodes. The default mode, EMG, records electromyographic (EMG) signals from electrodes placed on the subject. The second mode, Stimulation, enables MyoGuide's onboard stimulator to stimulate through the needle electrode that was used to record the EMG.

INTRAOPERATIVE NEUROMONITORING NEEDLE COUNT SHEET

The Intraoperative Neuromonitoring Needle Count Sheet is designed as a simple and functional needle management tool for use by healthcare workers in surgical settings.

NT-NCS Pack of 10

\$10.00

NEEDLETAPE™

NeedleTape® is a unique needle securing adhesive technology designed to provide safety advantages by integrating a safety identifier to alert healthcare workers to the presence of needles. In addition, NeedleTape® provides added convenience through its die-cut design for ease of use. This product has applications in IV therapy, dialysis and anesthesia among other specialties. The technology can also be utilized in a variety of clinical health care settings including labs, surgery centers, clinics and hospitals.

96 per Box

NT-527E Textured Poly - Large

\$55.00

SIGHTSAVER™ AND SIGHTSAVERMINI™ FLASH VISUAL EVOKED POTENTIAL STIMULATOR™

The SightSaver™ is a novel visual stimulator designed for superior performance over traditional goggles. It consists of a disposable adhesive foam padding shaped to the contours of the periocular region, attached to a printed circuit board with specially selected high intensity light emitting diodes (LED). A reusable cable interface is compatible with standard clinical neurophysiology systems used for triggering an LED goggle device. The SightSaverMini™ is a more streamlined version of the standard SightSaver™ visor.

Advantages include:

- Hygiene - Disposability eliminates the necessity of cleaning and sterilization in between patients
- Safety - Consists primarily of foam padding and actually adds protection to the eyes rather than increasing the risk of damage caused by goggles
- Stability - Securely adheres to skin using specially selected adhesive to provide more reliable acquisition of data
- Convenience - No strap or band
- Effectiveness - High intensity, broad spectrum light emitting diodes provide a stronger stimulus than standard goggles

ATV001	SightSaver™ Visor	\$745.00

INTRAOPERATIVE MONITORING (IOM)

Intraoperative Monitoring (IOM)

The LSE500 laryngeal electrodes allow for continuous Intraoperative

The Neurophysiological Monitoring (IOM) of the recurrent branch of the Vagus nerve.

Procedures:

Used in Thyroidectomy, Skull base procedures, Craniotomy, Anterior Cervical Fusion, Carotid Endarterectomy

Benefits:

- Easy to position
- Significant Cost Savings
- Over 10,000 cases with no reported complication
- Fits any Endotracheal tube, and fits any EMG nerve monitoring system

The Dragonfly single-channel and two-channel laryngeal surface electrodes attach to any standard endotracheal tube and monitor the muscles of the larynx in any procedure where the recurrent laryngeal nerve is at risk. The Dragonfly single-channel electrode comes in three different sizes designed to fit endotracheal tube sizes 2.0 - 10.0 (I.D.). The Dragonfly two-channel electrode comes in two different sizes designed to fit endotracheal tube sizes 6.0 – 9.5 (I.D.). These high-quality, US manufactured electrodes allow anesthesiologists to use the endotracheal tube of their choice. They also provide cost savings to healthcare providers relative to similar products on the market.

DRAGONFLY™ LARYNGEAL SURFACE ELECTRODE

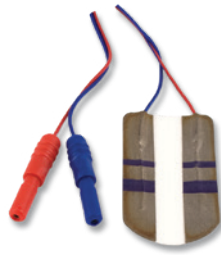

5 Pack

LSE500DCL-5	Dual Channel. For use with 9.5-8.0 ET tube	\$682.50

KARTUSH DISPOSABLE HOOKED PROBES

Double - Consists of two hooked probe tips. The length of the tips is 38mm, the length of the hook is 2.4mm. The distance between the two outer probes is 3mm.

Triple - Consists of three hooked probe tips. The length of the tips is 38mm, the length of the hook is 2.4mm. The distance between the two outer hooks is 5mm.

Sold Individually

4009-00	Double Hook	\$145.00
4003-00	Triple Hook	\$145.00

COBRA 3-PLATE

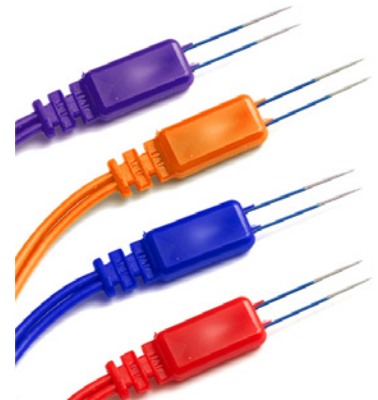

Intraoperative neuromonitoring EMG tube electrodes provide surgeons valuable insight into nerve function and maintain an open patient airway. The new EMG tube enhances RLN monitoring. The three conductive electrodes improve contact with vocal cords for reliable EMG signals and reduce trauma to the airway¹. Cobra 3-Plate EMG tube can be used as a 1-ch or 2-ch electrode and is compatible with single and multi-channel nerve monitoring systems.

LTE7003PS-5	Cobra 3-Plate EMG Endotracheal Tube, 6 mm	\$1,425.00
LTE7003PM-5	Cobra 3-Plate EMG Endotracheal Tube, 7 mm	\$1,425.00
LTE7003PL-5	Cobra 3-Plate EMG Endotracheal Tube, 8 mm	\$1,425.00

MASTODON EMG NEEDLE ELECTRODES

Mastodon intraoperative neuromonitoring EMG needle electrodes are specifically designed for direct facial nerve monitoring to assist in preserving neurological function. The paired needles use modern electromyography to provide surgeons insight into facial nerve integrity during complex head and neck procedures. The universal, paired design offers low noise and impedance levels to deliver a reliable signal with minimal skin trauma.

NEW!

NPDC-5	Paired Red & Blue, 13 mm, 2-Channel Facial Nerve IONM Kit	\$425.00

SLIDESHIFT - ADJUSTABLE SHAFT LENGTH NEURO-STIMULATION PROBE

- All Neuro-stimulating Probe Shaft Sizes in One Probe (130mm to 270mm)
- Adjust Probe Shaft Length to Surgical Procedure
- Realtime Intraoperative Customization of Probe Shaft Length According to Patient Anatomy
- Single Use Disposable Flush Tip Probe
- 1.9m wire with DIN 42802 connector

SS-NP001	0.2mm tip, 2.2mm shaft	\$98.00
SS-NP002	2.3mm ball	\$98.00

MAGSTIM® DISPOSABLE PEDICLE SCREW PROBE WITH HANDLE ATTACHED 2.3MM

The Pedicle Screw Probe is made for single use, and has an integral handle, and a din safety connector and a fully Teflon insulated shaft, which terminates in a 2.3mm ball tip. This probe is ideal for the following applications: Nasopharyngeal recordings, stimulating cranial nerves, peripheral motor nerves and spinal nerve roots; and assessing Pedicle Screw placement. A bend may be placed in the shaft of the probe for use under a microscope.

10 per box

4008-00	\$710.00
---------	-----------------

MAGSTIM® DISPOSABLE PEDICLE SCREW PROBE WITH HANDLE ATTACHED

The Pedicle Screw Probe is made for single use, and has an integral handle, and a din safety connector and a fully Teflon insulated shaft, which terminates in a 3mm ball tip. This probe is ideal for the following applications: Nasopharyngeal recordings, stimulating cranial nerves, peripheral motor nerves and spinal nerve roots; and assessing Pedicle Screw placement. A bend may be placed in the shaft of the probe for use under a microscope.

10 per box

105233	\$818.00
--------	-----------------

MAGSTIM® DISPOSABLE MONOPOLAR STIM PROBE WITH HANDLE ATTACHED

The Monopolar Stim Probe is used for stimulating the bulk of a tumor, to determine nerve location. Accuracy can be improved by inserting a disposable subdermal needle as a ground electrode as close as possible to the surgical area, and by using the minimum current that will stimulate the nerve. A bend may be made in the shaft of the probe for use under a microscope. Single use only.

10 per box

105237	\$359.00
--------	-----------------

MAGSTIM® DISPOSABLE BIPOLAR STIMULATING PROBE WITH HANDLE ATTACHED

The Bipolar Stimulating Probe will stimulate through a small amount of tissue yet remain accurate. The probe is intended for single use and is Teflon coated. Current is passed through the two probe tips through localized as well as adjacent tissue. A bend may be made in the shaft of the probe.

10 per box

105429	\$429.00
--------	-----------------

RHYTHMLINK® BALL TIP PROBE

The ball tip probe can be used for various procedures such as spinal fusion and pedicle screw testing. This probe offers a handle specially designed for the surgeons needs. This probe will allow precise stimulation with no trauma to the patient.

RLBTP101-2.5	100mm Probe, 3mm Tip, 2.5m Lead - Single	\$65.00
RLBTP100-2.5	100mm Probe, 3mm Tip, 2.5m Lead - 10 Pack	\$450.00
RLBTP151-2.5	150mm Probe, 2.3mm Tip, 2.5m Lead - Single	\$65.00
RLBTP150-2.5	150mm Probe, 2.3mm Tip, 2.5m Lead - 10 Pack	\$450.00
RLBTP201-2.5	200mm Probe, 2.3mm Tip, 2.5m Lead - Single	\$70.00
RLBTP200-2.5	200mm Probe, 2.3mm Tip, 2.5m Lead - 10 Pack	\$450.00

RHYTHMLINK® STANDARD MONOPOLAR STIMULATING PROBE

The standard monopolar probe has a 100mm K2M insulated shaft leaving a 2mm blunt uninsulated tip that is 0.75mm in diameter to allow direct stimulation to aid in identifying nerves within or around tumors and for cranial nerve stimulation. With a probe handle designed especially for surgeons, this probe is perfect for a variety of procedures.

RLMSP051-1.5	1.5 lead -Single	\$65.00
RLMSP050-1.5	1.5 lead - 10 Pack	\$595.00
RLMSP051-2.5	2.5 lead - Single	\$65.00
RLMSP050-2.5	2.5 lead - 10 Pack	\$595.00

RHYTHMLINK® EXTENDED MONOPOLAR STIMULATING PROBE

Longer than traditional monopolar probes, this unique probe is designed for spinal and peripheral nerve stimulation during lateral spinal approaches, extreme lateral spinal approaches [XLIF] and minimally invasive spinal surgeries. Insulated down to the semispherical non-traumatic tip, this robust probe aids in the identification of the genitofemoral nerve to provide safe surgical access. This versatile probe can be used for spinal and peripheral nerve identification, as well as pedicle hole and pedicle screw testing. Probe length 160mm.

RLMSP101-2.5	2.5 lead - Single	\$65.00
RLMSP100-2.5	2.5 lead - 5 Pack	\$295.00

HAND-HELD BIPOLAR STIMULATOR WITH STAINLESS STEEL TIPS

2m lead, 12mm spacing between tips.

AIR PURIFICATION

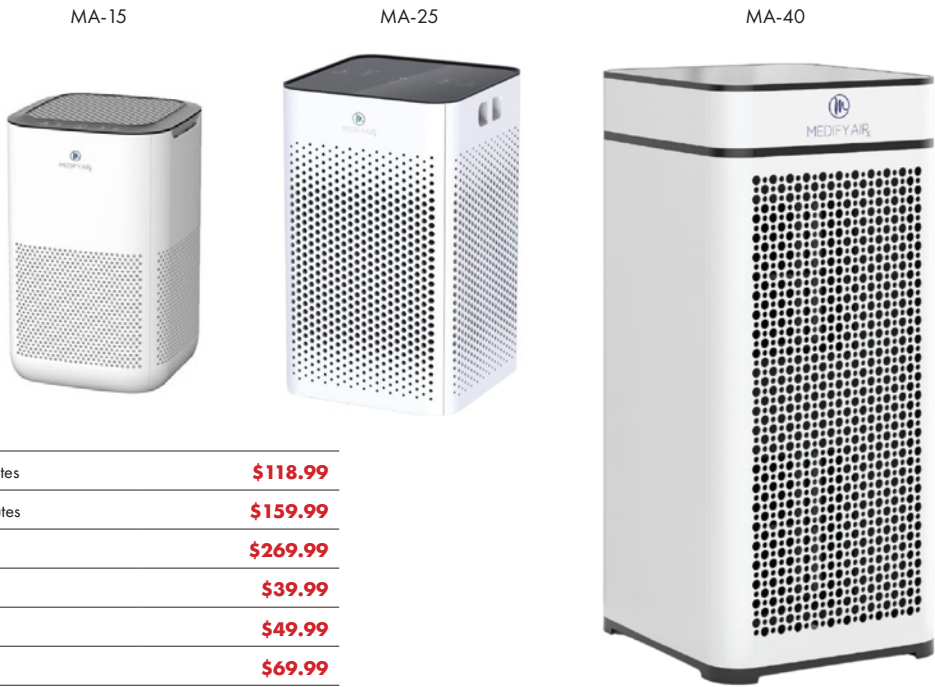

MEDIFY AIR

Every unit comes fully equipped with HEPA H13 filters (rated higher than True HEPA), which remove 99.9% of particles down to 0.1 microns.

Our growing line of models allows individuals, families, and businesses alike to clean the air in any sized room, home, office, classroom, and more.

We believe everyone deserves to breathe clean indoor air, so we are dedicated to providing the highest standard of quality and technology at the most approachable pricing.

NOVAERUS NANOSTRIKE PROTECT AIR DISINFECTION

- Patented technology harnessing multiple pathogen inactivation processes in one powerful strike
- Kills and deactivates at the DNA level in a sub-second time frame
- Uniquely bursts the pathogen cell, preventing self-healing
- Multiple pathogen inactivation processes guarantee no future antimicrobial resistance can develop
- Lowest total cost of ownership of any air purification technology
- Powerful but gentle for 24/7 use around the most vulnerable of people
- Proven effective in killing and deactivating SARS-CoV-2, Influenza A, MRSA, TB, C. difficile, Staphylococcus epidermis, and many more.

NanoStrike is the core, patented technology that powers all Novaerus portable air disinfection devices. This plasma-based nanotechnology kill all airborne microorganisms on contact, providing the first line of protection against viruses and bacteria.

Protect 900 - ideal for protection in patient rooms, nurses stations, tech stations, examination rooms, waiting rooms, and common areas.

Protect 200 - ideal for protection in bathrooms, supply rooms, small offices, patient bedside, and reception desks.

Stand or Tower required for 900

Protect 900 and 200 SIZES FOR EVERY SPACE

Novaerus Protect 900 and 200 air disinfection units are designed to suite a variety of spaces. The units can be easily positioned and plugged in where they are needed most — individual work spaces, waiting areas, patient rooms, emergency rooms, patient bedsides, hallways, hotel lobbies, conference rooms, classrooms, etc.

MEDICAL SUPPLIES INC

EZENET AND HYDRODOT® PRODUCTS

The HydroDot® EEG Application System conforms to the International 10/20 System and makes accurate, repeatable EEG electrode placement easy! The flexible EzeNet® fits a wide range of head sizes and saves time because you don't need to measure or mark your patient's head. Disposable HydroDot® Biosensors minimize the risk of infection.

EzeNet Headpieces

BN-506	Jackbox Overlay	\$5.00

THE NILLYNOGGIN® EEG CAP

The NillyNoggin® EEG Cap is designed specifically to be worn during an EEG medical procedure. It assists in protecting the leads from wandering hands as well as adds a fun, colorful cap to cover-up the 'scary' look of the leads. It is comfortable, breathable, cool and snug. Handmade in the USA of imported fabric – 95% cotton, 5% spandex.

This cap was designed by the Mom of a Warrior living with Lennox Gastaut Syndrome to make the EEG procedure easier for everyone. The cap:

- Eases and oftentimes eliminates the stress on the patient as it covers up the leads and medical look of the EEG;
- Builds confidence in the patient as a result of positive engaging conversations with individuals/passersbyers that interact rather than stare and keep their distance;
- Spreads awareness about epilepsy during healthy conversations;
- Protects leads from wandering hands;
- Helps with the set-up time as oftentimes gauze can be eliminated or reduced;
- Helps in the overall success of the eeg (a happy patient = successful EEG).

Purchasing these caps will help the mission to make a positive difference in the lives of those living with epilepsy and other neurological conditions. Oftentimes, facilities will give the caps to the child for them to keep and re-use.

WAVEGUARD™ CONNECT 32 CHANNEL

Waveguard Connect EEG caps are high quality, durable and easy to use. Various smart technologies make this product a perfect match for hospitals and institutes aiming at reliable EEG, maximum uptime and great patient comfort! Waveguard Connect's exceptional comfort is achieved through the use of soft silicone electrode cups instead of the hard, uncomfortable plastic cups that are commonly used in competing caps. The EEG caps feature hidden wiring and high density connectors, making the use and maintenance of the caps quick, safe, and easy. Waveguard Connect is perfect for routine diagnostics where good signal quality is crucial for valid assessment.

Features & Benefits:

- 32 electrodes plus GND + REF, reference position at CPz
- Proven design and high quality at best price on the market
- Great wearing comfort for patients, also in lying position
- Size range: Baby, Infant, Child, Small, Medium, Large
- Easy to use, simple to maintain
- Straightforward connection to all major clinical EEG systems (e.g. NicoletOne®, Nihon Kohden®, Mitsar®, Micromed® etc.)
- No loose wires – safe use and maintenance
- Tin (Sn) electrodes provide excellent signal quality for routine use, especially in AC coupled clinical recordings
- 1.5m, unshielded cable
- Desinfectable caps, short drying times
- 6 month warranty
- Saving costs and waste due to less frequent equipment supply

Straightforward connection to all major clinical EEG systems (e.g. Neurosoft®, NicoletOne®, Nihon Kohden®, Mitsar®, Micromed® etc.)

XC-351 – waveguard™ touch-proof adapter

- Compatible with both waveguard caps CA-35x and CS-35x
- Connects to all major clinical EEG systems
- 68-pin HD female connector to touch-proof connectors with electrode labels
- Warranty: 6 months

WAVEGUARD™ CONNECT 21 CHANNEL

Waveguard Connect EEG caps are high quality, durable and easy to use. Various smart technologies make this product a perfect match for hospitals and institutes aiming at reliable EEG, maximum uptime and great patient comfort! Waveguard Connect's exceptional comfort is achieved through the use of soft silicone electrode cups instead of the hard, uncomfortable plastic cups that are commonly used in competing caps. The EEG caps feature hidden wiring and high density connectors, making the use and maintenance of the caps quick, safe, and easy. Waveguard Connect is perfect for routine diagnostics where good signal quality is crucial for valid assessment.

Features & Benefits:

- Most suitable EEG cap for AC coupled clinical recordings
- Proven design and high quality at best price on the market
- Great wearing comfort for patients, also in lying position
- Few sizes fit all, full coverage of adult head circumferences
- Easy to use, simple to maintain
- Straightforward connection to all major clinical EEG systems (e.g. NicoletOne®, Nihon Kohden®, Mitsar®, Micromed® etc.)
- No loose wires – safe use and maintenance
- Tin (Sn) electrodes provide excellent signal quality for routine use, especially in AC coupled clinical recordings
- Desinfectable caps, short drying times
- 4 month warranty
- Saving costs and waste due to less frequent equipment supply

EEG SKIN PROTECTOR

Foam cushions designed to protect the patient's skin from pressure and breakdown caused by EEG electrodes during monitoring procedures. Universal sizing to accommodate any standard adult cup electrode. A strong adhesive backing helps to hold the electrodes securely in position, making them a great option for long-term or ambulatory EEG patients. Peel-off tab for easy application.

ME SURGICAL CLIPPER

Swiss designed and developed by ME Medical, the ME Surgical Clipper is the ultimate in hair removal. Skin preparation has never been faster, easier, safer or more cost effective!

*Revolutionary head twists 45 degrees to contour to even the most difficult-to-reach areas

*The non-slip grip handle provides the necessary control for complete hair removal without injury

*Easy, no-touch insertion and ejection make changing the disposable clipper blades safe and simple

*Two types of disposable clipper blades: the Universal designed for most hair and clipping needs, and the Neuro for coarse or dense hair. Both ensure a smooth sliding motion, while

preventing direct skin contact. Greatly reduces the risk of painful cuts, micro injuries, skin irritation and infection.

*Rechargeable lithium battery fully charges in just one hour with long-lasting use. Includes charging station for table or wall mounting. Also features a battery status indicator, and overcharge protection.

TAPES AND ADHESIVES

MEPITAC SOFT SILICONE TAPE

Mepitac is highly conformable, easy to apply and remove. The Safetac layer assures secure fixation and atraumatic removal from skin. Mepitac can be lifted and repositioned if inspection and repositioning are necessary. Mepitac is an ideal fixation for patients with fragile skin. Mepitac is suitable for patients requiring repeated application and removal of tape over the same area e.g. neonates and dialysis patients.

298300	¾" x 118" (2cm x 3cm) - 1 Roll	\$17.50

FLEXICON® CONFORMING STRETCH BANDAGE

Flexicon is a durable conforming stretch bandage that holds dressings securely in place without slipping. A unique filament structure and nap ensures Flexicon will cling to itself. Uniform knitting of polyester yarns creates a strong bandage that stretches and conforms even to the most awkward and difficult-to-dress areas. Flexicon's finished edges also minimize lint and unraveling.

GLOVES

LOW COST NITRILE POWDER FREE EXAM GLOVES

This glove is a thin gauge, light weight, powder free nitrile exam glove. It is soft and very flexible, providing an excellent fit and superb tactile sensitivity. It is 100% latex free eliminating potential risk of rubber latex sensitivities. Because of its thin gauge, the gloves are packed 200 pieces by weight in a standard size dispensing box to save you shelf space, packaging material, money and time as you don't need to replace empty dispensing boxes as frequently.

CIDEX® OPA SOLUTION

Glutaraldehyde free solution, obtains high level disinfection, and is safe and easy-to-use. No strong odor.

Ready to use, no activation required

20390	Gallon - 14 day solution	\$74.95
20392	Test Strips, 60 per Pack	\$95.00

CROSSTEX RAPICIDE® OPA/28 HIGH LEVEL DISINFECTANTS

An ortho-Phthalaldehyde (OPA) based high level disinfectant that features a re-use period twice the length of competitors. Provides a 10 minute disinfection time, which is faster than any high level disinfectant on the market. Non-corrosive to metal.

No mixing or Activation Required

ML020127	Gallon	\$41.95
ML020137	50 Test Strips	\$67.95

WAVICIDE-01® DISINFECTANT SOLUTION

The glutaraldehyde based sterilant, Wavicide-01® is the only one of its kind. Wavicide-01® does not require an activator, is stable, non-corrosive and very effective. Wavicide-01® is the product of choice for high level disinfection and sterilization of items that can not be processed by ethylene oxide or heat. It does not contain the suspected carcinogen ortho-phenyl phenol.

No activation Required

MCC0104	Gallon	\$18.95
0306	50 Test Strips	\$49.00

HYDE-OUT®

Hyde-Out® neutralizes glutaraldehyde and OPA high-level disinfectant/sterilant solutions and converts the solution into non-toxic, non-hazardous waste. Once neutralized, solutions may be safely disposed of down the drain.

Fast acting - 5 minutes to complete neutralization

Complies with California Health and Safety Code section 25123.5 (c)

HO0128

\$21.95

METRICIDE® HIGH LEVEL DISINFECTANT

This ready-to-use, long life, 2.5% buffered glutaraldehyde that can be used and reused as a sterilant and high level disinfectant. Contains a rust inhibitor to reduce corrosion.

TINCTURE OF GREEN SOAP U.S.P.

A solution of glycerin and potassium soap in alcohol and water. Can be used for cleaning wires and other products.

ZMX-47	Pint	\$3.75
ZMX-48	Gallon	\$26.95

CONTEC™ CITRIC ACID DISINFECTANT

Contec® Citric Acid Disinfectant is the low odor botanical that's ideal for restoration jobs. Gentle enough for people with chemical sensitivities, Citric Acid Disinfectant kills viruses, bacteria, fungi, and TB in 5-10 minutes.

Contec Citric Acid Disinfectant is organic and effective. It is strong enough to be effective against difficult to kill non-enveloped viruses such as: Norovirus, Poliovirus, Rotavirus, Adenovirus Type 2, and Canine Parvovirus. This List N product meets the EPA's criteria for use against SARS-CoV-2, the virus that causes COVID-19.

CAD1284	Gallon	\$28.95
---------	--------	----------------

SANIZIDE PLUS™

A broad spectrum disinfectant, containing no alcohol. SaniZide Plus™ is virucidal, tuberculocidal, fungicidal, bactericidal, and kills HIV. SaniZide Plus™ will not damage plastics, rubber, or metal surfaces. EPA registered.

SANIZIDE PRO 1

Safetec's SaniZide Pro 1™ is a broad spectrum, EPA Registered 1-minute surface disinfectant that combines cleaning and disinfecting in one simple step with its ready-to-use, alcohol-based hospital-grade formula. Effectively Kills MRSA, VRE, Tuberculosis, Influenza, Poliovirus, Norovirus, Rhinovirus, and Wuhan Coronavirus.

633712927	22 oz. Spray Bottle	\$6.50
633712928	Gallon	\$19.95

MEDIZIME®LF

MEDIZIME®LF is a combination of enzymes and low foam detergents, formulated to safely eliminate proteinaceous contamination and solubilize lipids on flexible optic scopes, surgical instruments and laundry. The utilization of this product prior to sterilization or high level disinfection with a 2.5% glutaraldehyde solution (WAVICIDE-01®) greatly increases the effectiveness of the germicide.

- Saves Time: Once diluted, need only 2-3 minutes contact time for fiberoptic instrumentation.
- Easy to use: Packaged in gallon containers with an accurate 1 oz. pump dispenser.
- Cost Efficient: Concentrated yet mild in pH.
- Environmentally Safe: 100% biodegradable and phosphate free. This solution is gentle on the environment.

3304LF-1GL	1 gal	\$44.95

BEDSIDE ORGANIZER

The bedside organizer provides convenient bedside storage for a patient's mask and hose. It helps keep the nightstand tidy and uncluttered and helps protect the mask and hose from dust or curious pets.

Benefits for patients:

- Clean place to put CPAP mask and hose
- Stylish design looks right at home in the bedroom
- The weighted flap holds the bedside organizer in place by hanging over a nightstand or between a mattress and bedspring.
- A zippered compartment conveniently holds the hose and mask making it easy for patients to take when they travel."

CPAP HOLDER

CPAP Holders provide a convenient, safe and easily accessible way to enjoy your CPAP machine, without sacrificing valuable space and causing clutter on your nightstand.

Your CPAP machine will rest securely in the CPAP Holder plastic tray, held in place by a velcro strap. If any water leaks from the machine, should generally be caught inside the tray, protecting your floors and furniture from damage. Removing the machine for maintenance and cleaning is as easy as undoing the strap and lifting the machine out of the tray. No modifications to your bed or bed frame are necessary.

CPAPHOLDER

\$39.95
RESMED S9 SERIES SLIMLINE TUBING WRAP

The insulated tubing is made of very soft fleece material on the outside and a nylon material on the inside. The tubing slides over a 6 foot CPAP hose and fastens with a nylon cord and Velcro.

MVAP
MEDICAL SUPPLIES INC

PURIFY O3 CPAP/BIPAP SANITIZER

- The simple and effective way to clean your CPAP/BiPAP mask and equipment
- Powerful, hospital grade sanitation cycle utilizes ozone to kill 99.99% of germs and bacteria – at just one touch of a button!
- Lightweight and compact – ideal for use at home and away
- Disinfects and stores in the included sanitizing/travel bag
- No extra supplies required – kit includes all you need
- Recharges quickly via wall outlet or USB port
- Push to start – simple one touch control automatically shuts off after 35 minute cleaning cycle is complete. (Note: Allow ozone to dissipate additional 2 hours before use)
- Simple to use – wipe mask/machine to remove visible residue, attach Purify O3 and place in sanitizing case or enclosed container. Press button to start, close the container.

Includes:

Purify O3 Sanitizer, dual purpose sanitizing/travel case, tubing adapter, USB cable, wall adapter, bilingual instruction manual.

- Non-Petroleum, All Natural Ingredients, Made with Aloe Vera

CMG002 4 oz. Tube

\$13.00

CPAP BEARD PRODUCTS

Sealant - Approximately a 6 month supply; just stroke a generous amount of our CPAP Beard Sealant onto your beard or mustache where you mask contacts your face, comb through. Position your mask and enjoy a restful night of sleep.

Shampoo/Conditioner - These unique product restores, softens and rejuvenates coarse facial hair with each use to create a very soft, sealable beard. Increases strand elasticity while reducing strand breakage.

Chin Strap - The purpose of this chinstrap is to stabilize or anchor the face mask in place, and keep a full face mask from sliding upward while sleeping. Some headgear will have an upward pressure while wearing, causing the mask to gradually slide upward breaking the seal, and creating a leak. The Chinstrap works equally well for women, or men without facial hair. Since there is no skin contact with your mask where there is facial hair, you have an increased potential for this to happen.

SNUGZ® MASK LINERS

Snugz Mask Liners for CPAP Machines are machine washable, one-size-fits-most liners designed for either full-face or nasal CPAP masks. They help reduce noisy leaks, prevent redness and irritation, and feel great against your skin. If you suffer from sleep apnea, you're going to love them.

Designed To Fit

Whether you choose our full-face (nose and mouth) CPAP mask liner or nasal (nose only) mask liner, Snugz will wrap snugly around your mask and rest softly on your face. The liner helps to grip the skin and keep the mask in place around the nose and mouth, reducing the need for a chin strap.

Say Goodbye To Redness And Irritation

Breathable and moisture-wicking fibers make your skin feel cool, dry, and comfortable, while reducing pressure marks, skin breakdown, and pressure sores. Snugz provides a protective barrier for patients with sensitivities to mask materials.

No More Noisy Air Leaks

Our soft Snugz liners fit your face better and eliminate those large, noisy leaks that wake you up. This better seal is especially beneficial for high-pressure/-flow PAP patients and can reduce nightly sleep disturbances and AHI.

Less Work, Less Cost

By reducing the oils and sweat absorbed by the mask cushion, Snugz lessens the burden of cleaning and replacing your masks. Snugz liners are easily washed with your normal laundry. Plus, your two-pack will last up to 90 days—making them more than 300% more cost-effective than disposable liners.

SL-FF	Full Face Mask, 2 pk	\$21.00
SL-N	Nasal Mask, 2 pk	\$21.00

NASAL SOFT CPAP CUSHIONS

Improves patient compliance by helping to prevent nasal skin breakdown, bridge soreness, and mask leaks.

ULTEPAP™ SLEEP APNEA THERAPY

- ULTEpap™ is FDA cleared for the treatment of mild to moderate Obstructive Sleep Apnea (OSA)
- Reusable EPAP device
- Does not require a hose, blower, humidifier or filter
- Can be used as a direct substitute for CPAP, or as a complement to CPAP when there is no power source, such as camping or travel
- Tested to have more efficacy, longevity, and lower lifetime costs than other CPAP alternatives on the market

NEW!

The way the ULTEpap™ works is simple. When you inhale, the patented Rashidi-Sleeper valve collapses, allowing you to inhale with no resistance. When you exhale, the valve inflates, which causes you to exhale through a lumen. This creates back pressure, which opens your upper airway.

On the next inhalation, your airway stays open to help prevent apneas. The ULTEpap™ is held in place by a lightweight headgear.

The nasal pillows gently rest around your nostrils inspired by CPAP interfaces with decades of proven comfort and fit.

BG-1200	Starter Kit (ULTEpap™ Device & Sizing Gauge)	\$145.00

------	----------------

OPTIPILLOWS EPAP MASK

- Only EPAP Device with adjustable pressure
- No tubing, machine, or power supply needed
- Nighttime movement is not restricted
- Reusable & cost effective
- Lightweight & comfortable
- No prescription required

NEW!

Optipillows EPAP Mask is an FDA cleared nasal mask that uses Expiratory Positive Airway Pressure for treatment of snoring.

Comes in a kit which includes headgear, the proprietary EPAP valve, and 3 sizes of nasal pillows. It's lightweight and comfortable, and does not require a prescription. Reusable up to one year.

Optipillows EPAP Mask is the only EPAP device on the market that offers adjustable pressure. During inhalation, the membrane opens allowing users to breathe in easily. During exhalation, the membrane closes and redirects the expired air through a narrow opening on the side of the valve. This creates Expiratory Positive Airway Pressure (EPAP) in the mouth and back of the throat, which helps keep the upper airways open and prevents snoring. Based on the needs of the user, the pressure can be adjusted by rotating the patented valve sleeve to make the opening larger or smaller.

OPTIKT	Optipillows Starter Kit	\$85.00
--------	-------------------------	----------------

NASAL AID REUSABLE NASAL DILATOR

Nasal Aid opens the nose to improve airflow. It is designed to help you breathe better at night. By opening the nose, snoring and congestion are relieved. Recommended by Physicians around the world.

3522	GC MixPac Dispenser	\$90.00

DOHM SOUND CONDITIONER

The Dohm-DS consists of a compact adjustable acoustic housing surrounding a two-speed electric motor with a unique asymmetrical fan. This design allows it to create the soothing sound of rushing air, Marpac Signature Sound, without the disturbance of actual moving air. This natural "white noise" sound has been proven to effectively block noises at a broad range of frequencies, so you can get deep, undisturbed sleep all night long. The Dohm's two speeds and adjustable tone and volume allow you to control your personal sound environment with the simple twist of a wrist.

- Two speeds
- Fully adjustable tone and volume control
- Integrated vibration dampening rubber feet for improved sound quality

980	Dual Speed Tan	\$49.95
3500300	Dual Speed White	\$49.95

ZOHNE PORTABLE SOUND CONDITIONER

The Zohne creates white noise without using digital loops or recordings and works in any environment where unwanted or intrusive noise is a problem. With the touch of one button, it emulates the soothing, natural sound of waterfall, rain, or surf to block out everyday noises like a coworker's chatter, a partner's snoring, or next-door neighbors playing music. The white noise produced by the Zohne can also be used as a sound shield to provide confidentiality for doctor's appointments, mask phone calls with clients, or protect other private conversations.

2408400		\$69.95
---------	--	----------------

LECTROFAN

LectroFan's compact size makes it perfect for baby nurseries, day care centers, college dorms, apartments - or any sleep environment where unwanted, disturbing, or intrusive noises are a problem. The LectroFan has two ways to reduce unwanted noises, either fan sounds or white noise sounds. Each has 10 non repeating unique sound variations.

Use it in your office or bedroom, or take it with you on your travels. The LectroFan uses a USB cord for power so it can be plugged into most computers if you're on the go. Unlike other sound machines, LectroFan's sounds are dynamically generated, they never repeat. Which means your or your baby's sleep won't be disturbed by the looping of short recordings which makes it one of the best sound therapy products on the market. In addition it has a multi-level volume control so you can adjust to any environment.

ASM1007	White	\$45.00
ASM1007-B	Black	\$45.00

SOUND+SLEEP

SOUND+SLEEP™ offers 10 distinct sound profiles engineered to promote a deeper sleep and relaxation. Listen to the rich and relaxing sounds through the built-in tuned audio subsystem, headphones, pillow speakers, or an external sound system.

LECTROFAN ALPHA

LectroFan Alpha is the small wonder that you'll want to take with you anywhere you go with your little one. It plays your choice of seven gentle, soothing sounds, including a heart beat, two different fans, two white noise variations (pink noise and brown noise), and two variations of ocean waves. It recharges with the included USB cable, so there's never a need to bring batteries, and it plays for up to 40 hours per charge at normal volume. The included clip makes it easy to attach to car seats, cribs, strollers, or just about anything.

NEW!

ASM1026		\$24.95
---------	--	----------------

LECTROSOUND 2

LectroSound does one thing, and it does it well: providing white noise for sound masking and promoting better rest, relaxation, and sleep. The tone dial provides precise control of the sound's warmth across the spectrum of brown, white, and pink variations. You can also adjust the output with the volume control to match the needs of your environment. It's USB powered and includes an AC adapter for use with wall outlets.

THE SLUMBERBUMP™ SLEEP BELT

Slumberbump™ is perfect for individuals who need a solution to stop snoring. Studies have shown that the over 80% of the people suffering from mild to moderate snoring can see results from a positional based device like the Slumberbump™.

- Positional Sleep Therapy is Clinically proven.
- Improves sleep related quality of life.
- Positional Sleep Therapy device with a unique design helps you sleep comfortably on your side.
- Great option for those patients who cannot tolerate CPAP therapy.
- When you sleep on your side it keeps your airway open and clear.
- Is easy to wear, comfortable, and it very effective at helping mild and moderate snoring and sleep related breathing disorders.

SB-BG-SM	Small 35"-40"	\$64.95
SB-BG-M	Medium 40"-45"	\$64.95
SB-BG-LG	Large 45"-50"	\$64.95

ZZOMA - POSITIONAL THERAPY FOR THE SLEEP APNEA

Zzoma is the only FDA-cleared positional medical device approved for the treatment of sleep apnea. Designed by board-certified sleep physicians, Zzoma has undergone rigorous clinical trial review and is now available by prescription only. Clinicians who diagnose patients with mild to moderate sleep apnea may prescribe Zzoma as a first line therapy or as an alternative for patients who cannot adjust to CPAP therapy. Patients who struggle to comply with CPAP devices may find Zzoma a more comfortable alternative to wearing a mask.

ZPS001 **\$139.00**

REM-A-TEE BUMPER BELT

The Rem-A-Tee Bumper Belt is used in positional related sleep disorder therapy. Accommodates body sizes from small up to 5XL. An anti slip lining keeps the belt in place all night through tossing and turning. Velcro® straps adjust tension, support and resistance.

STP-02	Breakaway Lanyard	\$6.95

INFRARED CAMERA

Get sharp and detailed 1080p resolution video with the 2.0 MP High-Performance CMOS in this Alibi 2.0 Megapixel HD-TVI 65 IR dome security camera. Equipped with Smart IR, this camera is able to reduce overexposure of the IR LEDs at the center of the image and capture images up to 65' in the dark without washing out the subject at closer ranges. True Day/Night round out the features that make this camera an ideal 24/7 surveillance. The camera achieves a 103.0° FOV (Field of Vision) with its 2.8mm wide angle lens, enabling the camera to cover a large area. You can also keep your existing cables and upgrade your cameras with minimal effort with HD-TVI's zero latency HD video and long-distance transmission over twisted-pair and coax cable or similar.

NEW!

ALI-TS1012R	\$84.95
-------------	----------------

WIRELESS CAREGIVER PAGING SYSTEM

2 Nurse Call Buttons and 1 Caregiver Pager

Caregiver Pager has an audible alarm and is small enough to be carried in a pocket or clipped to a belt. This Two-Pendant Paging System alerts caregiver of resident's needs when resident presses one of the Nurse Call Buttons, as long as they are within 300 feet of each other. The Buttons may be mounted on the headboard of a bed or worn as a pendant around the resident's neck.

60 Day Warranty

TL-5102TP	\$49.95
-----------	----------------

AUDIO MONITORING SYSTEM

A single zone audio monitoring system with two-way listen and talkback. Remote unit contains an omnidirectional electret condenser, low impedance microphone and a 4" speaker, all within one housing. Desktop base unit produces live audio and playback. Talkback from base unit to remote speaker/microphone is actuated by engaging the "push to talk" switch and speaking into the built-in microphone. The remote speaker/microphone can listen and talk hands-free. Input/output to DVR/VCR for recording and audio playback. Includes two back boxes for flush or surface mounting. Base station has a built-in speaker, volume control, and input/output to a VCR for audio recording and playback.

ASK100FTCABLE	100' Cable	\$215.00

LUX METER

- Measures luminosity from 0 to 200,000 Lux and ambient temperature
- Handheld design, lightweight and compact, easy to transport
- 3 x 1.5V AAA Batteries Included

Get accurate lux readings and ambient temperatures to use in detailed sleep reports, or for simply maintaining optimal sleep conditions in the lab. Typical lighting in the home, including light from the outside, may have lux readings in the range of 300-500. Optimal lux range for bedtime activities (i.e., reading, relaxing in bed, etc) should be less than 180 lux and readings should be no higher than a lux of 5, after 'lights out'.

MT-912	Lux Meter	\$29.95

UNISTIK® 3 SINGLE-USE LANCETS

Comfort Zone Technology - Independent clinical data shows that Comfort Zone Technology reduces pain, resulting in a more comfortable experience. Comfort Zone Technology is comprised of eight raised pressure points on the end of the safety lancet. This patented technology sends a signal of comfort to the brain preventing pain messages from being received which helps to eliminate the pain associated with the fingerstick sample.

Lancet Benefits

- Comfort Zone Technology (CZT) for reduced pain during sampling
- All-in-one device is ideal for on-the-go travel
- Designed to reduce accidental needlestick
- Side-activation for reduced pressure during sampling
- Ergonomic design for enhanced grip and control
- Sharpened to perfection for improved comfort

ZOLL® AED PLUS®

Empowering rescuers with Real CPR Help. The ZOLL® AED Plus® continues to set the benchmark for design, dependability, durability, and performance. Only half of sudden cardiac arrest victims will initially need a shock, but all require high-quality CPR. The AED Plus guides rescuers in performing high-quality CPR and will deliver a shock if needed.

Real CPR Help® technology provides

real-time feedback on rate and depth of chest compressions and supports rescuers with integrated text, voice, and visual prompts.

Five-year battery and electrode pads mean fewer replacements, improved readiness, and the benefit of a low total cost of ownership. Hope is in your hands with the AED Plus.

The AED Plus from ZOLL. No AED or manufacturer can offer you more.

- The only AED with Real CPR Help – because every sudden cardiac arrest victim will need high-quality CPR
- A one-piece electrode pad – to make applying the pads as simple as possible for the rescuer
- A low total cost of ownership – there's nothing to buy or replace for 5 years, as long as the device is not used

AED-PLUS

D SERIES INDIVIDUALLY SHIELDED ECG SAFETY CABLE SYSTEM

- The original ECG Safety Cable.
- Provides excellent monitoring results with individual shielding from end to end.
- Designed to be used in situations and on equipment where the highest quality, noise free signal is required.
- Provides hospitals with a superior solution to ECG cable and leadwire needs.
- Provides the ability to standardize to one cable system throughout the facility.
- Individually shielded cables and leadwires protect against motion artifact and electrical interference.
- Cables are available in 3 and 5 lead options.
- Backed by a three year cable warranty.
- Leadwire options include a variety of styles, lengths and connections.
- Exclusive lead-lock mechanism provides positive locking for each individual lead.

3M™ RED DOT™ ECG RESTING TAB ELECTRODE

- Size 1.2" x 0.8"
- Extra-large surface area provides superior contact. Easy handling and secure attachment. Pressure sensitive adhesive provides rapid high quality trace pick-up. Semi-stiff backing reduces roll-off and minimizes electrode lift. Radiolucent. Can continue to be used after defibrillation. Hypo-allergenic & Latex free.

2360

Pack of 100

\$7.99
3M™ RED DOT™ ECG MONITORING ELECTRODE WITH FOAM TAPE AND STICKY GEL

- Size 4cm x 3.5cm ECG monitoring electrode with foam tape and sticky gel, without abrader.
- Red Dot™ 2560 electrode can be used for all cardiac monitoring applications. Remains fresh for 45 days out of the bag. High performance adhesive offers instant adhesion and up to five-day wear with excellent patient skin care and comfort. Occlusive to fluids. Sticky gel delivers excellent trace quality resulting in better patient information. Smaller size electrode is easier to place, and minimizes skin irritation for better patient comfort.

BARIATRIC PRODUCTS

BIG JOHN TOILET SUPPORTS

The secure solution for supporting wall mounted toilets.

The Big John Toilet Support mounts underneath the toilet bowl working in conjunction with the existing wall carrier to redistribute the weight and increasing the weight capacity from 350 lbs to over 1000 lbs.

Our heavy duty toilet jack is the most inexpensive method to prevent broken wall-hung water closet style toilets. Meet Bariatric Center of Excellence standards for handicapped toilets and bariatric toilets.

Features:

- Simple to install - installation instructions to the right, or view the installation videos below
- Discreetly mounts under most wall mounted toilets, providing additional vertical support
- Maintains the cleaning ability of a wall-mounted fixture
- Specially engineered leg base can be raised up to 4" for cleaning access
- Leg made of high impact ABS, with the carriage and foot made of a chemical and stain resistant flexible PVC that forms to the contour of the toilet
- Complies with Center of Excellence requirements. Perfect for hospitals, nursing homes, government facilities, stadiums, airports, theaters, office buildings and virtually every wall mounted toilet
- Height Adjustment 612011919 From 7.5" to 14"
- Height Adjustment 612011919-S From 5" to 7.5"

612011919	Toilet Support	\$130.00
612011919-S	Short Swivel Support	\$130.00

BIG JOHN TOILET SEATS

- 1200 Pound Capacity
- 2 1/2 inch rise

Digital Flat Scale

\$65.00

DIGITAL SCALE WITH HEIGHTROD

Versatile, low-maintenance and site-independent with economic battery operation – the seca 769 is ideal for daily use in hospitals and doctors' practices. With its transport castors, the column scale is also easy to move around. The seca 769 is equipped with several intelligent functions. For example, the BMI function permits a reliable evaluation of the nutritional condition of the patient. The column scale will be delivered with the measuring rod seca 220 so that both weight and height can be determined in just one time-saving step.

- Capacity: 450 lbs / 200 kg
- Measuring range: measuring rod 24 – 78 inch / measuring rod 60 – 200 cm
- Graduation Weight: 0.2 lbs / 100 g
- Graduation Length: measuring 1/8 inch / measuring rod 1 mm

S769

\$345.00

PROPELLAIRE PROTECTIVE NASAL GEL PAD

The application and utilization of NPPV or non-invasive ventilation in the hospital setting has shown to be effective and common practice. Clinical guidelines recommend routine assessment of the skin and risk of pressure ulcers, regular pressure relief and skin-protective strategies should be included in the routine application of NIV to reduce discomfort and the occurrence of soft tissue damage.

One of the most unpleasant and painful iatrogenic interfacerelated complications in NIV is facial pressure ulcers. To repair damage to the soft tissue on the bridge of the nose can be costly and can also be cause of interrupting or discontinuing therapy which can lead to intubating the patient to provide adequate respiratory support.

Reduce and minimize the risk associated with nasal skin breakdown with Propellaire as a standard component in your NIV strategy. It is simple and easy to apply to the patient's nasal bridge area and works with most oro-nasal masks.

**NEW!
LOWER PRICE**

NP001

\$2.50

EEG SKIN PROTECTOR

Foam cushions designed to protect the patient's skin from pressure and breakdown caused by EEG electrodes during monitoring procedures. Universal sizing to accommodate any standard adult cup electrode. A strong adhesive backing helps to hold the electrodes securely in position, making them a great option for long-term or ambulatory EEG patients. Peel-off tab for easy application.

AMBU TRAINING MANIKINS

The Ambu SAM has a closed shape of the torso. With its anatomically correct landmarks, the manikin enables students to learn the complete algorithm of Basic Life. Support including the use of Automatic External Defibrillators (AED) and the placement of the AED pads.

The Ambu SAM is a compact training manikin that is designed to store the head inside the manikin with storage or transport. It is lightweight and can easily be assembled for the training without the need of additional tools.

Like all Ambu BLS manikins, the Ambu SAM has the patented hygienic system that eliminates the risk of cross infections. All trainees receive their own face piece and head bag for the training. At the end of the training, the face piece can be cleaned and the head bag is discarded. A truly 100% hygienic way of training. Just as in real life, ventilation can be seen and exhalation through the nose and mouth can be felt and heard. The shape of the body has all human characteristics for a realistic training. The compression indicator confirms correct procedure

SLEEP - FALL ASLEEP EASILY AND NATURALLY, CD

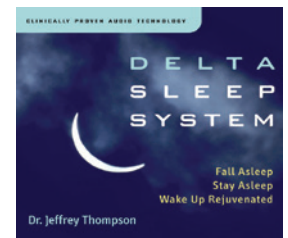

Turn this CD on right before going to bed. Listen at a comfortable volume, loud enough to hear but not so loud that it distracts you. As you begin to settle into sleep, pay attention to your breath. Take two or three deep inhalations and slow exhalations. With each round of breath, imagine releasing the stress and tension of your day and letting go of any concerns of tomorrow. Begin to focus on the music and allow your attention to rest on its flowing, soothing melodies. Shift your experience from listening to the music to "feeling" the music. Visualize its peaceful vibrations permeate and move through your body.

DELTA SLEEP SYSTEM (2 CD SET)

There are several stages of sleep which people pass through in the course of a good restful night. In each stage our sleep gets deeper, our bodies get more relaxed and our brainwave patterns slow down. The deepest and most rejuvenating levels of sleep are associated with Delta brainwave patterns. Delta Sleep is the most physically relaxed stage of sleep and is the time when the body recuperates and rebalances itself for the new day. Getting enough sleep, and more specifically enough Delta Sleep, is essential for healthy, productive living. Dr. Jeffrey Thompson's breakthrough audio techniques, developed over 15 years of clinical research, are proven to increase levels of Delta brainwave activity. He has helped thousands of people to achieve regular, restful, revitalizing, sleep.

EDUCATIONAL MATERIALS - SLEEP

SLEEP MEDICINE PEARLS, 3RD EDITION

Sleep Medicine is a rapidly growing and changing field. Experienced sleep medicine clinicians and educators Richard B. Berry, MD and Mary H. Wagner, MD present the completely revised, third edition of Sleep Medicine Pearls featuring 150 cases that review key elements in the evaluation and management of a wide variety of sleep disorders. The cases are preceded by short fundamentals chapters that present enough basic information so that a physician new to sleep medicine can start reading page 1 and quickly learn the essential information needed to care for patients with sleep disorders. A concise, practical format makes this an ideal resource for sleep medicine physicians in active practice, sleep fellows learning sleep medicine, and physicians studying for the sleep boards.

ATLAS OF CLINICAL POLYSOMNOGRAPHY, 2ND EDITION (TWO VOLUME SET)

by Nic Butkov

Completely revised and updated, the second edition of the Atlas of Clinical Polysomnography builds on the excellence of the first, presenting an extensive collection of normal and abnormal sleep recordings with clear supporting text. The new edition includes a fully illustrated overview of polysomnography, a systematic review of the AASM scoring rules, a comprehensive discussion of the diagnostic features of sleep disordered breathing, and an in-depth analysis of all current positive airway pressure (PAP) modalities including CPAP, bi-level PAP, bi-level S/T, bi-level PC, and adaptive servo-ventilation.

An ideal reference source for physicians and technologists, the Atlas provides numerous full-size clinical record samples, beautifully reproduced in a large 12" by 12" format with fold-out pages. A wide variety of examples are shown, offering a representative cross-section of recordings seen in the daily operations of a modern sleep laboratory. As an added bonus, the second edition presents a detailed demonstration of electrode application, using high quality color photographs to demonstrate each step of the application process.

REVIEW OF SLEEP MEDICINE, FOURTH EDITION

By Dr. Alon Y. Avidan

Successfully review sleep medicine whether you plan to improve your sleep medicine competency skills or prepare for the Sleep Medicine Certification Exam with this expanded review-and-test workbook that includes more than 1,400 interactive questions and answers online. Now in full color throughout, Review of Sleep Medicine, 4th Edition, by Dr. Alon Y. Avidan, features a new, high-yield format designed to help you make the most of your study time, using figures, polysomnography tracings, EEG illustrations, sleep actigraphy and sleep diaries, tables, algorithms, and key points to explain challenging topics. The text is fully searchable online and features hundreds of interactive questions and answers in study and timed practice modes, making this the ideal resource for ABSM exam preparation.

THE SLEEP TECHNICIAN'S POCKET GUIDE, SECOND EDITION

The Sleep Technician's Pocket Guide, Second Edition contains all the information sleep technicians need at their fingertips while in the sleep lab—patient hookup, artifacts/troubleshooting, scoring, EKG rhythms, procedures and protocol, drugs and medications, and other basic information for quick reference. Each section is color-coded for fast reference. This handy pocket-sized reference guide, created specifically for Sleep Technicians, offers just the right amount of information to help guide actions in the lab. The Pocket Guide is also a great reference and study tool to help prepare for the RPSGT and CPSGT certification exams. Pages are waterproof and stain-proof! All content is updated to reflect the ICSD-3, AASM, and BRPT changes.

SPRIGGS'S ESSENTIALS OF POLYSOMNOGRAPHY: A TRAINING GUIDE AND REFERENCE FOR SLEEP TECHNICIANS, 3RD EDITION

Spriggs's Essentials of Polysomnography, Third Edition is a comprehensive, full-color text designed specifically for sleep technicians and professionals. Updates and additions make this book a thorough and up-to-date resource for professionals, and the new all-in-one package design makes it the ideal choice for anyone preparing for a career in polysomnography. This is an excellent tool for training new sleep technicians or preparing for the RPSGT and CPSGT certification exams, and a comprehensive, contemporary reference for physicians, sleep lab managers, DME reps, and sleep lab front office staff members.

FUNDAMENTALS OF SLEEP TECHNOLOGY, 3RD EDITION

Endorsed by the American Association of Sleep Technologists (AAST) and widely used as the go-to text in the field, Fundamentals of Sleep Technology, 3rd Edition, provides comprehensive, up-to-date coverage of polysomnography and other technologies in the evaluation and management of sleep disorders in adults and children. This edition has been extensively updated and expanded to reflect current practice, the latest technology, and the broader roles and responsibilities of the sleep technologist. Content is enhanced with new illustrations, tables, and treatment algorithms. This textbook, written by and for sleep technologists, is the ideal resource for those practicing in the field of sleep medicine or preparing for credentialing exams in sleep technology.

EASY EMG

By Weiss, Silver & Weiss

Easy-to-read and well-organized, this one-of-a-kind resource offers a basic introduction in both electromyography (EMG) and nerve conduction studies (NCS). Inside, readers will find expert guidance on how to perform and interpret EMGs as well as the fundamental principles of electrodiagnostic testing.

FUNDAMENTALS OF EEG TECHNOLOGY: BASIC CONCEPTS AND METHODS VOL. 1

By Fay S. Tyner

This volume is aimed at not only the beginning and advanced student of EEG technology, but also students of clinical electroencephalography who are entering the field from medical areas such as neurology or pediatrics. It is the best resource for comprehending the role of the technologist in the production and interpretation of the EEG record.

FUNDAMENTALS OF EEG TECHNOLOGY: CLINICAL CORRELATES VOL. 2

By Fay S. Tyner

This volume contains topics that have been chosen to represent classes of disorders most frequently encountered by EEG technologists. The information found in this volume helps to build the technologist's knowledge base as to the diseases that bring patients to the EEG laboratory, and therefore record an EEG relevant to the patient's problem.

ECG POCKETCARD SET

The ECG pocketcard Set is a concise quick reference for identifying common ECG findings, and the perfect complement to our ECG pocket. The cards in this set are also available individually.

- Sample tracings and explanations for common cardiac abnormalities such as hypertrophy, bundle branch blocks, AV conduction defects,carditis, cardiomyopathy, tachyarrhythmias, bradyarrhythmias, and more
- Axis diagram
- Heart rate rulers for different paper speeds (25 mm/s and 50 mm/s)
- QT interval correction table
